WACO, TEXAS, SUNDAY, APRIL 15, 1917.

Number 178

FERGUSON IN SESSION CALL TO LEGISLATURE

Names Wednesday, April 18, as Date for Convening at Austin.

ISSUES "LENGTHY" CALL

Austin Sees Accusation of Dilatory Tactics in Statement.

Special to the News

Austin, April 14.—Governor Ferguson, in the opening paragraph of his proclamation, issued today, calling the legislature to meet in extra session at 10 o'clock a. m., Wednesday, April 18, appears to imply that the legislature has been derelict in its duty when he says:

"Whereas, the Thirty-fifth legislature of the State of Texas, in pursance of a concurrent resolution, theretofore adopted, adojurned the regular session of the Thirty-fifth legislature at 6 o'clock p. m. on March 21, 1917, without making appropriations for the support of the state government, as provdied by the constitution shall be done;

"Now, therefore, the failure of the legislature to pass such appropriation bills creates an extraordinary occasion, justifying the governor to convene the legislature in extra session."

Continuing the call, the governor says:

"And in pursuance of the powers vested in me under the constitution of the state of Texas, I do hereby call the said Thirty-fifth legislature to convene in extra session in the state capitol in the city of Austin, Texas, beginning at 10 o'clock a. m., Wednesday, on the 18th day of April, A. D. 1917, for the following purposes, to-wit:

"1. To make appropriations for the support of the state government and its institutions, and the repair, restoration and erection of necessary public buildings for the fiscal years beginning September 1, 1917, and ending August 31, 1919.

"2. The special consideration of the matter of the adoption of a uniform system of text books to be used in the public schools of the state after the contract for the present adoption has expired.

"As is well known, the contract for the furnishing of text books for the public schools of the state will expire before the next regular session of the legislature will convene in January, 1919. Therefore, it is highly essential that provision be made by the legislature for the adoption of text books to be furnished the public schools. If we wait until after the contract has expired, then the patrons of the public schools would either have no place to obtain school books or they would be at the mercy of the publishing houses and would be compelled to pay exorbitant prices for books. Already there is a well defined plan and design on the part of certain publishers of school books to defeat any legislation upon this subject at this time, for the express purpose of obtaining an opportunity to unload upon the children of the state a large amount of obsolete and out-of-date text books at attractive prices.

"Therefore, I urge upon the Thirty-fifth legislature at its special session to consider the question of adopting and providing school books for the children of the state so that they may buy the best books for the least money.

"3. To consider and act upon such other matters as may be presented by the governor, pursuant to Section 40 of Article 3 of the Constitution of Texas.

"In testimony whereof I hereunto sign my name and cause the seal of the state to be affixed, at Austin, Texas, this the 14th day of April, A. D. 1917. (Signed)

"JAMES E. FERGUSON,
"Governor of Texas.
(By the Governor)
"Churchill Bartlett, Sec. of State."

SHELL WAS UNLOADED.

By Associated Press.

New York, April 14.—The three-inch shell found last night in the press room of the New York Globe and which caused a police investigation, proved to be unloaded when examined today in the bureau of combustibles. Inspector Egan concluded the shell probably was a souvenir of the Black Tom explosion owned by an employe of the newspaper.

GERMAN SHIPS SEIZED.

By Associated Press.

Buenos Aires, April 14.—The government has ordered the concentration in the inner harbor of Buenos Aires of all the German vessels now in Argentina waters. A special guard will be placed over them.

HERMANN LODGE IN WACO MONDAY

One Special Train to Bring 300 from San Antonio Monday.

A special train from San Antonio, bearing 300 members of the Sons of Hermann organization, reaches Waco this afternoon. W. J. Geisler said yesterday that probably this will be the largest single delegation attending the state gathering in Waco tomorrow.

Grand officers of the Sons of Hermann will reach Waco today, headquarters being at the State House. Among the grand officers who are expected are Aug. Haxthausen, Houston, grand president; Julian Stappar, Cibolo, first vice president; W. Laganshausen, second vice president; Paul J. Herting, San Antonio, grand secretary; Gustav Heilig, Dallas, grand treasurer; grand finance committee, George Hanessler of LaGrange, O. Hagen and W. J. Geisler, Waco; grand trustees, F. C. Gloeckner of San Antonio, Julius Schramm of Granger and L. Oerte.

The first business session will be held Monday morning at the Auditorium. If it is decided to hold night sessions it is thought the business can be handled in two days, otherwise it is expected that it will require an extra day.

E. C. Wosnig is arranging a social program.

Wacoans as Witnesses at Harry Spanell Trial

A number of Waco witnesses have been served with notice to appear at San Angelo for the trial of Harry J. Spanell, charged with the murder of Col. M. C. Butler of the United States army, at Alpine last July. More than a score of witnesses, it is understood, will go from this place to testify. The presumption is that many of these will testify as to the character of Mr. Spanell while he was in Waco. The trial is set for April 23 at Coleman.

Work for New Mail Service Waco-Dallas

A Chamber of Commerce committee, composed of W. W. Woodson, Sam Hanna and Alex Sanger, is working for a mail service on the 9:10 p. m. Dallas interurban, so that mail leaving Waco at that time will have ample time for distribution in order to make the first delivery in Dallas.

CUBA OFFERS 25,000 MEN.

By Associated Press.

New Orleans, April 14.—President Menocal, of Cuba, has officially announced in Havana that the entire Cuban army of 25,000 men will be placed at the orders of the United States government for service throughout the war with Germany, according to Eduardo R. Mendez, a prominent Cuban sugar planter, who arrived here today from the Cuban capital. Mr. Mendez said the apportioning of the troops and the selection of officers who speak English as well as Spanish had already begun. Twenty-five thousand volunteers will be recruited to take the place of the troops tendered the United States.

TO ENLARGE FORT HOUSTON.

By Associated Press.

San Antonio, Tex., April 14.—Fort Sam Houston will be enlarged and property added by the government until the local army post is one of the largest in the United States, according to announcement made today at the headquarters of the southern department here.

It is planned to immediately purchase 2,400 acres of land to be added to the fort. This will more than double the size of the post in San Antonio. There is now approximately 1,900 acres comprising Fort Sam Houston, this including the land of the aviation field and the remount station.

HOUSE PASSES WAR REVENUE UNANIMOUSLY

Without Dissenting Voice, 7 Billion Finance Measure Is Enacted.

FATE NEVER IN DOUBT

Chief Discussion Concerned Amendments—Now Up to Senate.

By Associated Press.

Washington, April 14.—Without a dissenting voice, the house amid applause of members and from the galleries late today passed the $7,000,000,000 war revenue authorization measure. One member, Representative London of New York, the only socialist in congress, voted "present."

Owing to the general pairs and absentees, only 389 votes were recorded for the bill, but both Democratic Leader Kitchin and Republican Leader Mann announced that all the members would have voted affirmatively if they had been present.

The formality of a roll call would have been dispensed with if several members who voted against the war resolution had not insisted upon having the opportunity of recording themselves in favor of provoding money to carry on hostilities now that the nation is at war. The bill authorizes five billion dollars in bonds of which three billions will be loaned to entente countries and the issuance of treasury certificates for two billion dollars, ultimately to be met by increased taxation.

Never in Doubt.

Passage of the measure was never in doubt during the two days it was under consideration in the house and favorable action by an overwhelming vote is assured in the senate where it will be taken up Monday. It probably will be signed by the president by the middle of next week.

Discussion in the house was confined chiefly to proposed amendments. Five of these were added, four of which were agreed to by the ways and means committee and none of which materially changed the intent of the bill's framers.

Any doubts that may have been entertained as to the popularity of the proposed loan to the allies were swept away with the voting down, 217 to 3, of a proposal by Representative Towner, made at the outset of the session, to strike out the three billion loan feature with a view to having it authorized later with provision for congressional participation in administering it.

Goes to Senate.

Chairman Simmons of the senate finance committee will take the bill up with his committee Monday and since there is no opposition to it, he expects to report it to the senate at once. Leaders expect to keep it in the unfinished business until passed. There will be no great opposition on the floor, although there may be some debate.

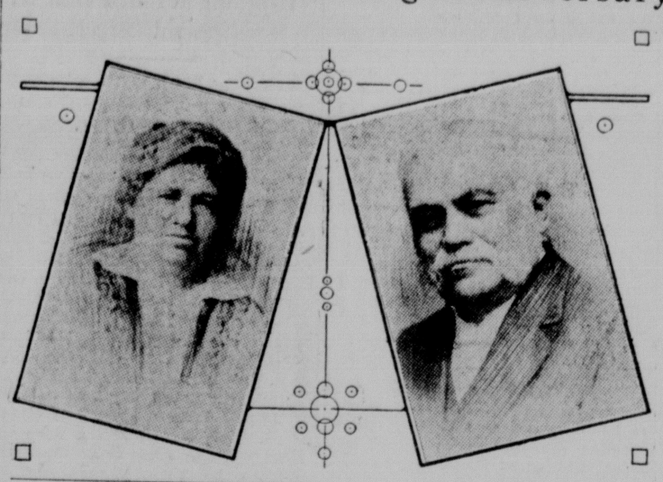

Consideration of the ways of producing new taxes to meet in whole or in part the treasury certificates for two billion dollars will begin in the ways and means committee next week.

TWO DIE IN SULPHUR WELL.

By Associated Press.

San Antonio, Tex., April 14.—Two men sacrificed their lives and two narrowly escaped death by asphyxiation and drowning as the result of entering a sulphur well to rescue a fellow workman at the Southwestern Insane asylum late this afternoon. All were employed by the asylum.

Mr. and Mrs. Sam Sanger Celebrate Their Fiftieth Wedding Anniversary

Mr. and Mrs. Sam Sanger celebrated their golden wedding anniversary last evening with a brilliant reception at the Raleigh. The banquet room was decorated in gold, with streamers of gold ribbons, baskets of all kinds of flowers, chrysanthemums and yellow roses predominating. Dinner was served to one hundred and twenty guests, a list of which will be found in the society columns of this issue.

After the dinner a reception was held. At 10 o'clock dancing began and lasted until a late hour.

Mr. and Mrs. Sam Sanger are both natives of Bavaria. Mr. Sanger was born in Markbreit, September 11, 1843. He was educated for the Hebrew ministry, but decided to emigrate to the United States after reaching his majority. He came to America shortly after the close of the Civil war and taught school for a time in Philadelphia. He met and married Miss Hannah Heller in Cincinnati, Ohio. Shortly afterwards Mr. and Mrs. Sanger moved to Texas. Mr. Alex Sanger of Dallas soon followed his brother to this state. The Sanger house first came into existence at Millican. In 1873 the firm established a house in Waco. What it has accomplished here is Waco history.

On Friday evening the great army of Sanger employes gathered in the store to present their respect. In the presence of the Sanger family and of the employes, C. M. Henry, one of the oldest employes in point of service with the Sanger house, presented a beautiful loving cup, the gift of the Sanger "store family."

PLAN WELCOME TO ALLIED WAR LEADERS IN U. S.

President Wilson Personally Begins Formulation of Reception Program.

By Associated Press.

Washington, April 14.—President Wilson personally began today formulation of a definite program for the great war conference to begin here next week with official representatives of Great Britain and France.

The subject to be discussed and expected to extend further than material co-operation between the United States and the entente allies. The president believes that the greatest result which can come to the world war is an agreement under which conflicts can be avoided in the future and guarantees of the right of self-government to every nation, large or small, and this ideal is certain to find its way into the conference.

In welcoming foreign delegates headed by Arthur J. Balfour, foreign minister of Great Britain and Rene Viviani, minister of justice of France, the president is expected to point to the aspirations of the United States.

When the time comes for discussion of financial questions with the French and British delegations and with the Russian government, the senate is expected to have acted on the bond issue bill passed today by the house. Representatives of the state department, army and the navy will leave Washington probably tomorrow for an unnamed port to welcome the British visitors.

TEXAS "U" WINS.

By Associated Press.

New Orleans, April 14.—Tulane university lost to the University of Texas tonight in their annual debate. The subject was "Resolved, That all revenues for state and local governments should be derived from a single tax on land values, constitutionality waived." The affirmative was represented by Tulane.

URUGUAY REPLIES.

By Associated Press.

Montevideo, April 14.—In its reply to the United States the Uruguayan government says Uruguay does not recognize the right to wage an unrestricted submarine war because it is an attempt against justice, violates neutral rights and is an insult to humanity. Uruguay recognizes that the decision taken at Washington answers the situation arising from the submarine war.

HERBERT COREY

The Famous War Correspondent Back from the Battlefields of Europe

—Mr. Corey will write a short series of articles to be published daily on the position of the United States in the war. He has discussed this subject with military and political leaders of France, Italy, Great Britain, Serbia and able generals of Russia.

"IF GERMANY IS TO BE BEATEN WITHIN TWO YEARS AMERICA MUST ACT NOW."

Mr. Corey's First Article Will Appear Monday in The Waco Morning News

ACE OF AIR INSANE?

Queer Actions of Jean Navarre Reported From Paris.

By Associated Press.

Paris, April 14.—Sub Lieut. Jean Navarre, the famous French aviator, is being sought by police on a warrant charging him with attempted homicide. Since he was wounded severely last June Navarre, according to Petit Parisien, has acted in a most eccentric manner, but was punished lightly in view of the splendid services he had rendered his country.

Recently he had a dispute with the police in which he was worsted. This appeared to anger him and a few nights ago he set out in an automobile and speeded through the principal streets of Paris, knocking down every policeman he saw. As a result, five patrolmen were taken to hospitals and several others were bruised severely.

The aviator's friends, the Petit Parisien adds, believe that he is not fully responsible for his acts.

Navarre is one of the most famous airmen. Officially, he is reported to have brought down at least eleven German machines and Paris newspapers attribute to him the destruction of nineteen German airplanes. Last fall he was awarded the grand gold medal of the France Aero club. In October it was reported that he had been arrested for fighting in a Paris theatre.

WOMEN'S MEET CLOSES.

By Associated Press.

New Orleans, April 14.—Directors of the General Federation of Women's clubs which closed its biennial council meeting here yesterday, announced today the creation of an emergency service committee which has for its purpose the control and direction of women's relief during the war period. Mrs. Josiah Evans Cowles of Los Angeles, who will serve as chairman of the committee, said the plan included among its objects: "To be of utmost service in time of need and to keep alive in every community the sense of law and order and safeguard the permanent elements that must rebuild society when the tumult of war shall pass." The country will be divided into six divisions represented by a chairman from each division.

A. B. C. NATIONS PLAN ENTENTE FOR WAR VIEWS

By Associated Press.

Buenos Aires, April 14.—The A, B, C governments are reported to be negotiating with a view to convening in Buenos Aires an assembly of the South American republics in order to study and establish, if possible, a continental entente concerning the various problems arising from the war. It appears that Argentina and Brazil desire uniform action on the part of South America and Mexico.

Peru and Ecuador were in favor of convening a congress of Latin-American republics with a view especially to try to bring about an active co-operation toward peace in Europe. This tendency is not so strong since the rupture between Brazil and Germany.

PARAGUAY SYMPATHIZES.

By Associated Press.

Asuncion, Paraguay, April 14.—The Paraguan government in reply to the recent note of the United States says that it recognizes profoundly that Germany's military actions forced the United States to resort to arms and expresses its most sincere sympathies with the government and the people of the United States.

DEMOCRATS IN CELEBRATION OF JEFFERSON DAY

Assemble From Throughout Nation to Observe His Birthday.

By Associated Press.

New York, April 14.—Prominent democrats from all parts of the country celebrated the 174th anniversary of the birth of Thomas Jefferson at a banquet held here tonight under the auspices of the National Democratic club. Among the speakers were James W. Gerard, former ambassador to Germany; United States Senators Ollie James of Kentucky, Key Pittman of Nevada and John W. Davis, solicitor general of the department of justice. Joseph P. Tumulty, secretary to President Wilson, brought a message from the president:

"I have learned with deep gratification of the intention of your organization to make its 1,000 members available in their respective capacities to support the administration in the conduct of the war," wrote President Wilson. "Certainly this is a time when America must use its force and influence for the vindication of those ideals which give her a pre-eminent place among the nations of the world."

Gerard Is Speaker.

Mr. Gerard said that at the time the Lusitania was sunk an official of the German government in Berlin told him that the United States would not dare to make any "move" because there were 500,000 German reservists in America who would rise against this country.

"I told him something that you may have heard on another occasion about a lamp post," declared the former ambassador. "I told him something more practicable. I said to him: 'Can you point to one single man with an American passport who is serving in your army? There are thousands of men serving in the armies of the allies of American citizenship. But point out to me one with an American passport who is in your army. If you can show me one I will believe then that the German-Americans are with you.'"

Refers to Casement.

Mr. Gerard referred to Sir Roger Casement's activities in Germany.

"I would like to have the Irish-Prussians go with me to the camp at Limburg where the Germans collected 2,500 Irishmen and sent Sir Roger Casement to seduce them," said Mr. Gerard. "He did succeed in getting perhaps thirty to join the German army, but 2,470 remained, as all Irishmen will, true to their oath and the flag they had sworn to serve.

"And I should like to ask this small band of Prussian-Irishmen whether they think they are going to come nearer to home rule for Ireland by supporting the autocracy of Prussia or by getting behind President Woodrow Wilson, who is holding aloft the torch of liberty throughout the world."

The former ambassador warned America against the belief "that either starvation or revolution is going to end this war in our favor."

"The only thing," he declared, "that will liberalize Germany will be revolution. As long as they are ruled by a few, as long as the military spirit prevails there can be no security and no peace in the world."

For the Doubters.

Mr. Gerard said he had seen thousands in Germany which "might lead some of the people who still doubt a little in this country, to change their minds."

He then told of being directed by

ST. QUENTIN AND LENS ALMOST IN HANDS OF HAIG

Germans Leaving Positions Held Since Autumn of 1914.

IS IT TURN OF THE WAR?

Lens Is Central Mining City of France—Capture Appears a Day Distant.

By Associated Press.

London, April 14.—British troops are now within a few hundred yards of the town of St. Quentin. During Saturday, says the official statement from British headquarters in France tonight, Field Marshal Haig's men fought their way south and east of Sayet, one mile northwest of St. Quentin. The village of Gricourt, one mile north of Fayet was carried at the point of the bayonet. The Germans are reported to have resisted stubbornly and suffered many killed and wounded in addition to the loss of more than 400 prisoners.

The mining center of Lens, now is virtually surrounded on three sides by the advancing British troops. The town of Lievin southwest of and adjoining Liege was captured this morning and the village of Ciete Pierras, northwest of Lens, has been taken. Along the entire front from the Scarpe river to south of Loos the British have pressed forward and have reached points two to three miles east of Vimy ridge. South of the Scarpe river there was heavy fighting in which the Germans employed heavy reserve forces. The German counter attack at short intervals but the British tree maintained the positions previous captured and inflicted serious losses the attackers.

SPECTACULAR OF THE FIGHT.

From a Staff Correspondent of th Associated Press, with the British Armies in France, via London, April 14.—Heavy high explosive shells were pouring into Lens late today and undoubtedly were giving impetus to the German plans to fall back from that central mining city, which has been in the hands of the Germans since autumn of 1914, together with the mineral wealth represented in the surrounding district. Fires in Lens, seen for the first time yesterday afternoon, were smouldering today. There apparently was no general conflagration. Time and time again explosions could be seen within the city.

Lens stretches over several miles, however, and in far distant parts of the country, smoke could be observed pouring from tall chimneys as if the industrial activities of the Germans in the French factories were progressing as usual. British patrols were this afternoon pressing toward the city from all directions.

Looking from Ridge.

From the northern slopes of Vimy ridge, recently captured from the Germans, it was possible through the brilliantly clear atmosphere to see the spires and chimneys of Douai, still a German stronghold. Nearer, Lens seemed to lie almost at the foot of the ridge with its suburb Lievin sprawling well into the new British lines.

Mine towers dot the surrounding country almost as thickly as oil derricks in the petroleum districts of America. Great slag heaps rise here and there like so many Egyptian pyramids. In and around these red buildings and slag heaps shells exploded throughout the afternoon, throwing up dense clouds of brick dust, which caught up by the April storm wind, spread a pinkish yellow pall over the lower section of the city.

Above Lens occasional shrapnel shells broke. With the usual British white puff balls were mingled densely black puffs, the latter being the German 5.9 shrapnel recently captured and turned against the Germans. Several times previous during the war German light field pieces have been turned against them, but this was the first time the heavier calibres were loosed.

Results of Preparation.

At the time set for the Somme bombardment to begin, some of the British artillery officers were seeing large shells fired from their guns for the first time. When the battle of Arras began, the British officers and gun crews handled the weapons like veterans. Behind them lay six or seven months of constant training not only in the schools, but actually in the field with the German positions as practice targets.

All winter long the British guns have roared in order that when the offensive began every artilleryman would have a thorough knowledge of the various phases of the modern school of gunnery. The rapidity and precision with which the bombardment was carried out has been one of distinct fea-

tures of the new success. The small losses suffered were due largely to the co-operation and effective work of the artillery. Every step forward now finds guns of all calibres merely waiting for the word to place destructive fire or a protective barrage wherever the infantry desires.

Canadian patrols pressing far east of Vimy ridge today rescued from the Germans two British officers of the royal flying corps, captured five days ago when forced to descend in the German lines. One had a fractured leg.

A Canadian brigadier patrolling with several of his men entered a German dugout and personally captured the prisoners therein.

DEMOCRATS IN CELEBRATION OF JEFFERSON DAY

CONTINUED FROM PAGE ONE

President Wilson to make a special effort while he was in Germany to secure the return of the Belgians who had been seized and carried away from their country into Germany. Cardinal Farley of New York, he said, also had complained bitterly of the treatment of the Belgians.

"When I spoke of Cardinal Farley to the German authorities and related what he had told me," Mr. Gerard declared, "the only answer I received was 'why, this is because most of the Belgians are Catholics and the Catholics always stick together.'"

Senator James declared he wanted to see Americans fighting for the democracy of the world "so that we might pay a debt to the French people who fought for us; to the Italians who discovered us, and to the British who have helped to make our government."

CENSORSHIP IS NEXT PROBLEM IN GREAT WAR

Two Phases of Publicity Must Be Provided by Officials.

By Associated Press.

Washington, April 14.—Control of publicity in connection with the government's war activities was placed by President Wilson today in the hands of a committee of public information, whose task will be to safeguard secrets of value to the enemy and at the same time see that all affairs of the nation are laid before the people as fully and frankly as possible.

The committee named by the president is made up of Secretaries Lansing, Baker and Daniels, who recommended the step, with George Creel, a magazine writer, as civilian committeeman.

Mr. Creel has accepted the post. The president's action was based on the following letter, signed by the three cabinet officers:

"Dear Mr. President: "Although cooperation of the press has been generous and patriotic, there is a steadily developing need for some authoritative agency to assure the possession of all the vital facts of national defense. Premature or ill-advised announcement of its policies, plans and specific activities, whether innocent or otherwise, would constitute a source of danger.

"While there is much that is properly secret in connection with the departments of the government, the total is small compared to the vast amount of information that it is right and proper for the people to have.

"America's great present needs are confidence, enthusiasm and service and these needs will not be met completely unless every citizen is given the feeling of partnership that comes with full, frank statements concerning the conduct of the public business.

"It is our opinion that the two functions—censorship and publicity—can be joined in honesty and with profit and we recommend the creation of a committee on public information. The chairman should be a civilian, preferably some writer of proved courage, ability and vision able to gain the understanding and co-operation of the press and at the same time rally the authors of the country to a work of service. Other members should be the secretary of state, the secretary of war and the secretary of the navy or an officer or officers detailed to work by them."

OMIT MAIL ORDER ADS.

The Famous has learned that their magazine, The Designer, has decided to admit no longer to its advertising columns the announcements of mail order houses, the plan being to work for local merchants only.

Sure Enough.

Mrs. Flatbush—I see a Ten Hour Bill for domestic servants is now before the California legislature.

Mrs. Bensonhurst—But how are they going to make a cook stay ten hours?—Yonkers Statesman.

Danger.

Little Jane and Josephine were busily engaged in helping mother to dry the dinner dishes.

"But, Jane, you didn't get that plate dry," objected her sister.

"Yes, I did!" exclaimed Jane eagerly. "I dried it so hard that it perspired."—Chicago Herald.

J. R. Knight et al to W. F. Sonneman, lot 8, block 2, Cameron Park Terrace addition, $1250.

H. W. Willis to W. L. Mahoney, one-half acre of land in Galindo grant, $50.

Total, $16,431.84.

MRS. WHITE DIES AFTER EXTENDED ILLNESS IN WACO

Passes Away at 1:10 This Morning at Her Home on Speight Street.

Mrs. Mary Lloyd White, wife of Ernest A. White, 706 Speight, died at 1:10 o'clock this morning, following an extended illness, recovery from which hopes had been given up many weeks ago. The funeral services will be held from the First Baptist church at 3 o'clock this afternoon. Pall bearers have been named as follows: Active, Judge W. H. Jenkins, P. S. Durham, Dr. J. T. Harrington, Mordis Falkner, John F. Rowe, L. B. Smyth; honorary, A. H. Gans, T. D. Whiteman, W. B. Carrington, Dr. A. J. Armstrong, J. R. Spencer Sr., S. P. Brooks.

Mrs. White was the only daughter of Joseph Lafayette and Hary A. Lloyd. Her father was a doctor of divinity and a minister of the gospel in Knoxville, Tenn. Mrs. White was born May 18, 1872, and married Ernest A. White at Bryan, Texas, October 21, 1891. All her life she had been closely associated with church and Sunday school work, being a member of the First Baptist church of this city. She was superintendent of the primary department of the First Baptist church until overtaken by the illness which resulted in her death. She is survived by her husband, Ernest A. White; stepmother, Mrs. J. L. Lloyd, Dallas; her two sons, Lloyd Young White, aged 24; Ernest Gordon White, aged 18; four brothers, B. Lee of Jellico, Tenn.; Elbert J., Payne M., Walter B. Lloyd of Dallas. Mrs. White went to New Mexico in December, 1914, and her recovery was thought to be sure until shortly after Christmas, when she suffered relapse after a visit to San Angelo, which followed an attack of la grippe.

Real Caution.

Knicker—What sort of a chap is Smith?

Bocker—So cautious he burns his bridges in front of him.—Chicago Herald.

A Woman's Idea.

"It's hard to convince a woman that money is hard to get."

"That so?"

"Yes. That wife of mine thinks all I've got to do to get more money is to ask my boss for it."

SOCIETY GIRL WEDS BRITISH DIPLOMAT

Mr. and Mrs. Malcolm Robertson.

A wedding of international interest was that of Miss Gladys Ingalls, a prominent society girl of Washington, and Malcolm Arnold Robertson, first secretary of the British embassy. The marriage took place a few days ago in St. Johns church, Washington, and the photograph shows the pair on their honeymoon.

C. E. HARRIS DIES.

C. E. Harris, age 49, died at his home six miles north of Axtell at 12:30 Saturday. He is survived by his wife, four sons, Horace, Oven, Cliff and Eugene Harris, and his father and mother, Mr. and Mrs. F. J. Harris of McGregor; six brothers, Mack Harris, Arizona; W. C. Harris, Waco; Sam Harris, Dallas; Frank Harris, Texarkana; Jack Harris, Waco; Bob Harris, Waco, and two sisters, Miss Mattie Harris and Mrs. S. E. Horn, McGregor.

The body will be taken to the home of his sister, Mrs. S. E. Horn, near McGregor, in the Compton motor hearse, Sunday afternoon, and the funeral will take place from the home of his sister at 4 p. m. Monday, Rev. McCollough, pastor of the M. E. church, officiating.

SHIP PROGRAM BEGINS MONDAY

U. S. Counts on Merchant Fleet to Aid in Conflict.

By Associated Press.

Washington, April 14.—The administration's program for building a vast fleet of wooden cargo ships to transport supplies to the allies and thus defeat the German submarine campaign will be put definitely under way Monday when the shipping board will form a $50,000,000 corporation to build and operate the vessels.

The corporation will be organized under the laws of the District of Columbia and its entire stock will be held by the shipping board. In legislation to be introduced in congress early in the week, the board will ask authority to increase the stock in the future if needed, to as much perhaps as $225,000,000. For the present the $50,000,000 will suffice.

Private shipyards will construct the ships on a standardized plan, on a basis in most instances of 10 per cent profit. Some contracts will be let for specified sums. The board probably will finance some yards, although private capital already is offering millions for construction of the vessels.

Major General Goethals, who has agreed to supervise building of the ships, will come to Washington to take charge of the work as soon as he can arrange to leave his task of building New Jersey highways. F. A. Eustace, a Boston mining engineer, who with F. Huntington Clark, a New York engineer, conceived the idea of a wooden ship fleet, probably will be associated with him.

The 700,000 tons of German shipping taken over by the government undoubtedly will be put under the corporation, as will the Austrian ships now in custody of the United States. The general opinion is that the German and Austrian owners will be paid for their use during the war and for the ships themselves if they are lost or retained.

Simple Solution.

Passenger—How do you manage to get the men in your car to move forward?

Conductor—I have the motorman let the pretty girls in by the front door.—Chicago Herald.

The Work of the Expert.

"How are you getting along with your new efficiency expert?"

"Remarkably well," the head of a large business firm answered. "In fact, we are still quite friendly, although he has discharged several members of my family."—Birmingham Age-Herald.

Peruna, Only Remedy for Spring and All Other Ailments——

I Have No More Pain, Don't Belch Up Gas, Can Eat Most Anything Without It Hurting Me. Gained Twenty-four Pounds.

Mrs. Wilson Robison, No. 744 Nessle St., Toledo, Ohio, writes: "I feel like a new person. I have no more heavy feelings, no more pain, don't belch up gas, can eat most anything without it hurting me. I have gained twenty-four pounds. People that see me now and saw me two months ago seem astonished. I tell them Peruna did it. I will say it is the only remedy for spring and all other ailments."

No More Stomach Trouble After Taking Fruitola

FEELS TEN YEARS YOUNGER NOW AND ENJOYS THE BEST OF HEALTH.

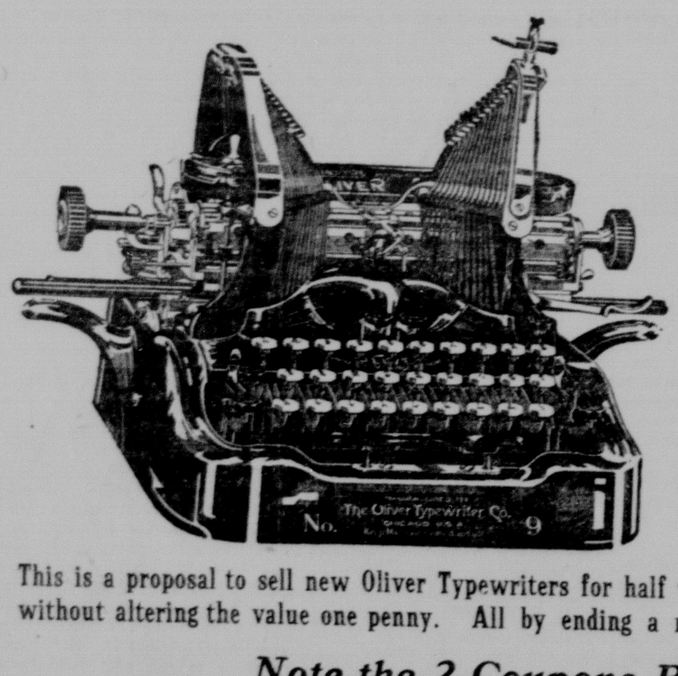

Mrs. H. N. Holbrook.

Mrs. H. N. Holbrook of Arko, Minn., who is seventy years old, has written to the Pinus laboratories that, thanks to Fruitola and Traxo, she is now very well and feels ten years younger. In her letter, Mrs. Holbrook says: "Fruitola relieved me of quite a large number of gall stones and I immediately began to feel better and have had no more trouble since."

Fruitola and Traxo are compounded from the original Edsall formulas at the Pinus laboratories at Monticello, Ill., and can be purchased in Waco at W. B. Morrison's Drug Store; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic alternative that is most effective to rebuild and restore the weakened, run-down system.

A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Ill.

NATION WIDE APPLAUSE GREETS PRICE REDUCTION

The New Oliver Nine

Was $100 ∴ Now $49

A $2,000,000.00 Guarantee that This $49.00 Typewriter was One Hundred Dollars!
SALES POLICY and PRICE Changed—NOT THE MACHINE!

This is a proposal to sell new Oliver Typewriters for half what they used to cost. without altering the value one penny. All by ending a monstrous selling cost. New machines of our latest model—Oliver Nine. That If that interests you, we claim a few minutes attention.

Note the 2 Coupons Below—Fill Out and Mail One Today

The Oliver Proposes to revolutionize the typewriter business. . . .

This is the time when American industries must prepare for the end of the war. New economic adjustments are inevitable.

So we announce here what Oliver proposes to do.

Henceforth there will be no expensive sales force of 15,000 salesmen and agents. No high office rents in 50 cities. No idle stocks.

PRICES CUT IN TWO

By eliminating these terrific and mounting expenses, we will reduce the price of the Oliver Nine from the standard level of $100 to $49.

This means that you will save $51 per machine. This plan, were it to become universal, would save all who buy typewriters over $100,000,000 year.

This is not philanthropy on our part. While our plan saves you much, it also saves for us.

There is nothing more wasteful in the whole realm of business than the old ways of selling typewriters. Who wants to continue them? Wouldn't you rather pocket 50 per cent for yourself?

WM. A. PARKER, Texas Distributor the Oliver Typewriter,
1910-11 Amicable Building, Waco, Texas.

Mail me your book, "The High Cost of Typewriters, The Reason and Remedy," your De Luxe Catalog and further information.

THE SITUATION

On each typewriter for which the user paid $100, more than half has been spent for salaries, traveling expenses, and commissions to an army of salesmen and agents.

Thousands of dollars have been spent in maintaing expensive branch houses and show rooms in many cities.

Our new plan now saves all this useless waste and brings the typewriter business down to a rock bottom basis.

NEW CONDITIONS

Up to now it has cost manufacturers a great deal to educate people to universal typewriting. But that period is past. Large, expensive sales forces are no longer needed.

The time has come when everybody may use a typewriter—not merely experts.

The growth of the Oliver business and the greater use of typewriters give us the opportunity to revolt from old methods.

THE LATEST MODEL OLIVER

This Oliver Nine is a twenty-year development. It is the finest, the costliest, the most successful model we have ever built.

More than that, it is the best typewriter, in fifty ways, that anybody ever turned out. If any typewriter in the world is worth $100, it is this Oliver Nine.

It is the same commercial machine purchased by the United States Steel Corporation, the Standard Oil Company, the National City Bank of New York, Montgomery Ward & Co., the National Biscuit Company, the Pennsylvania railroad and other leading businesses. Over 600,000 are in daily use.

DON'T WAIT—WRITE TODAY

Wm. A. Parker

TEXAS DISTRIBUTOR OLIVER TYPEWRITERS WACO, TEXAS

TEXAS DISTRIBUTION

The Oliver is represented in Texas, Arizona and in all of Latin America by Wm. A. Parker, whose organization and service offices distribute Olivers in a territorial area equal to about half of the world. The Oliver is absolutely guaranteed for life and the service of the Parker organization is free to Oliver users.

You get a new Oliver for $49 because you buy it yourself. We can't afford to SELL it to you at the new low price. You keep the machine for five days, with no slick agents to worry or influence you. You are your own salesman and the selling expense of $51 is what you save. After a five day free trial if you are not convinced that the Oliver is the best typewriter in the world, for any class of work that can be done on a writing machine—if you don't consider it the best machine, even at $100.00, the price at which over 600,000 Olivers have already been sold; just return the machine at our expense. If the Oliver sells itself to you, the price is only $49 f. o. b. the factory, the conditions of payment being about the same as second-hand machines formerly rented for.

We want every business man to read our free book, "The High Cost of Typewriters, The Reason and Remedy." It unmasks the extravagances of the industry. It explains why we have adopted this half-price plan—which has swamped wit horders the greatest typewriter factory on earth and promises to be the greatest commercial success of this age.

W. A. PARKER, Texas Distributor Oliver Typewriter,
1910-11 Amicable Building, Waco, Texas.

Ship me a new Oliver Nine for five days' inspection. If I keep it I will pay $49.00 at the rate of $4.00 cash and $5.00 per month. The title to remain in you until fully paid for.

It is understood that if this machine is not a brand new Oliver Nine, I can return it to you. You agreeing to refund express charges which I have paid.

Danes Are Now Receiving Blows from Kaiser's Subs

By Associated Press.

Copenhagen, via London, April 15.—The comparative immunity that Danish shipping seemed to enjoy in the early days of the ruthless submarine warfare and the limitation of losses because the strike of seamen kept the vessels in port, appears to have passed. Announcement of the destruction of Danish ships now constitute daily red-lettered reports in the Danish press.

Discontent with the situation is growing steadily, although the well disciplined press avoids any pronounced expression of sentiment which might bring little Denmark into the trouble on one side or the other.

"Yep. But not as hard as the average person who has to buy what us farmers raise."—Washington Star.

BEAUTIFUL HAIR, THICK, WAVY, FREE FROM DANDRUFF

DRAW A MOIST CLOTH THROUGH HAIR AND DOUBLE ITS BEAUTY AT ONCE.

Save Your Hair! Dandruff Disappears and Hair Stops Coming Out.

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after an application of Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through the hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

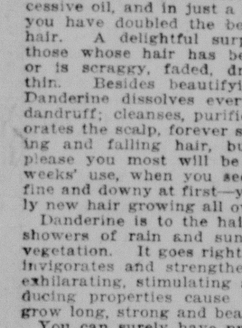

You can surely have pretty, charming, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

Wash Away Skin Sores

D.D.D., the liquid wash, has become a household word. It has proved itself a remarkable remedy. If you are a sufferer from skin diseases, including ulcers, pimples, scales, crust or Eczema in any form, this remedy *will not disappoint* you. It has stood the test and today is the master preparation for all skin diseases. Try D D. D. We *guarantee* it. 25c, 50c, $1.00.

WAR SUMMARY FEATURES ACT U. S. CONGRESS

America Prepares Entrance to Conflict as Lens Falls to English.

By Associated Press.

The bill authorizing the issue of seven billion dollars worth of bonds and certificates to finance the United States' part in the war and to afford a three billion dollar loan to the entente allies was adopted unanimously by the house of representatives Saturday. The measure had been described as the greatest authorization for bonds ever contained in a bill submitted to any legislative body in the world.

Momentous battles involving the fate of Lens and St. Quentin are being fought in Northern France with the fall of these two important towns before the onrushing British and French indicated as probabilities of the near future.

Most vital in the series of engagements are those accompanying the British offensive in the Arras region, now described as a real "push."

General Haig's sledge hammer blows here so far have been too much for the Germans to withstand. The top of the famous Hindenburg line has been turned and all along the front from Loos north of Lens to a point well to the southeast of Arras, the Germans are reported in retreat, fighting as they go to delay as best they can the British advance and give time to complete the preparation of defensive positions in the rear.

Not only Lens with its important coal fields is at stake in this movement. The unrelenting British pressure is causing the Germans to abandon guns and other equipment and apparently there is hope on the part of the British of keeping up the pursuit at such a pace that they may be caught unprepared at some point and a real break in the line effected.

At St. Quentin not so much is as stake for the Germans but the loss of the town would create another serious breach in the southerly sector of their present defensive line. By capturing the town of Fayet, the British have worked to within a mile of St. Quentin on the northwest while to the south the French close by are hammering it with artillery.

In Mesopotamia, the Turks have sustained another defeat at the hands of the British.

A night march across country by the British on the Tigris after General Maude had made a strategical retirement on the Diala, drawing the Turks after him, enabled a quick blow to be delivered which drove the Turks northward with heavy losses. They were still in retreat with the British following when General Maude sent his report on April 13.

Spaniards See Shipping Injured by New Events

By Associated Press.

Madrid, Spain, April 12, via Paris, April 14.—After the meeting of the Spanish cabinet Wednesday, Premier Romanones declared that the government was occupied particularly with the situation created for Spain from a commercial point of view by the attitude adopted by the United States and Cuba toward Germany.

Today the cabinet also considered the possibility of a rupture between Germany and other Latin-American republics and the possible paralysis of Spanish commerce which would be an inevitable consequence as many of these republics form the principal markets for the products of Spain.

Trusty Leads Prisoners in Break at Tulsa, Okla.

By Associated Press.

Tulsa, Okla., April 14.—Carl Hays, a trusty, awaiting trial on a charge of highway robbery, led in an uprising in the county jail late tonight that resulted in eighteen prisoners dashing to liberty.

Men charged with every crime up to murder were included. Hays and several companions overpowered Jailor Gilbert and shoved him into a cell after beating him severely. None had been recaptured at a late hour.

WHITE SHOES MORE IN FAVOR.

And the Kind Made of Fabric Will Be Worn Much, a Dealer Says.

According to George H. Becker, shoe dealer, who has returned from eastern shoe markets, the scarcity of leather has brought into greater vogue the oxford.

"The shortage of leather will be solved here by oxfords and pumps. Fifth avenue is one flood of spats today, white and mustard colored, the former leading. This is to be the greatest white season the shoe business has ever seen—white shoes of kid and fabric, white pumps and white spats. A great many fabric shoes are going to be worn. A Philadelphia firm, after years of experimenting, is putting out a fabric shoe which, after a few times of polishing, cannot be detected from the ki darticle.

Oxfords will make a difference of 35 per cent in the cost of shoes for women, for where a pair of high boots would cost $12 and $14, oxfords will be had for $7 and $8."—Milwaukee Sentinel.

Family Jar.

"I might have done better than to marry you."

"Well, don't blame me for your lack of business acumen. Instead of accepting the first offer that came along you should have advertised for sealed bids and proposals."—Kansas City Journal.

Spaniards in Protest to Acts of Submarines

By Associated Press.

Madrid, via Paris, April 14.—The Spanish note now on the way to Berlin contains an energetic protest against the torpedoing of the San Fulgencio and will ask for a declaration concerning the liberty of commerce between North and South America and Spain. The note was dispatched tonight in a diplomatic pouch instead of by radio in order to avoid errors in transmission. The text probably will be made public within the next five days.

RAISE GUARDS TO 600,000 IN WAR TIME NOW

Washington Reverses Ruling and Permits States to Organize Units.

By Associated Press.

Washington, April 14.—Against the judgment of military experts as to the wise course in the present emergency, the war department was compelled to reverse a previous ruling today and announce that under existing law, states have the right to organize new units of the national guard. This opens the door to expansion of the existing guard force of about 125,000 men to 400,000 at peace strength or more than 600,000 on war footing.

The department has planned to draft into federal service only existing units of the guard plus such auxiliary troops as might be needed. Twenty states have applied for permission to raise new regiments, however, and Secretary Baker ordered a new study of the national defense act to determine whether the acceptance of new units up to the limits set in the act was mandatory.

Judge Advocate General Crowder took this view and his ruling was approved by the secretary.

An effort to prevent immediate organization of new regiments was made simultaneously, however. The governors were asked to see to it that existing units were filled up to peace strength before any new ones are organized. Shortage of equipment prevents the immediate organization of such new regiments, as the department has not had application for reserve supplies and it will take from two to three months to provide even for existing units at war strength.

Secretary Baker made it plain that the department would in no case recognize skeleton organizations, but would require a reasonably full complement of officers and men for each new unit.

The senate military committee today cleared the way for taking up the war army legislation Monday by completing consideration of war amendments to the national defense act to perfect the regular army reorganization.

100,000 BY MAY 1.

By Associated Press

Washington, April 14.—One hundred thousand men by May 1 is the recruiting aim as set by the navy department today by Secretary Daniels. He hopes to signalize the anniversary of Dewey's victory at Manila with the announcement that the enlisted personnel of the navy has reached that figure.

"When we closed the books last night," the secretary said, "a net gain of 1366 men for the day was registered, the heaviest single day's enlistment on record in the navy department—not bad for Friday and the thirteenth.

"The day's enlistments brought the total enlisted strength of the active service, not including reserves or militia who are mobilized and on active duty, up to 68,937, an increase of 6270 since the first of March.

"There will be no modification of the physical, mental or moral qualifications of candidates, as I confidently expect that the navy will be recruiting up to the maximum strength allowed by law, in round numbers 100,000 men, by volunteers who can meet all tests."

These Flimsy Gowns.

"Here's a scientist says that women should eat more than men. They need more food to keep them warm."

"I can see they'll have to depend on something besides their clothes."—Kansas City Journal.

YOU KNOW YOU NEED

A GOOD COURSE OF MEDICINE.

We Recommend Hood's Sarsaparilla and Peptiron Pills.

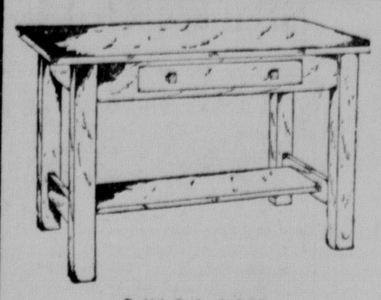

It is found that many people who feel the need of a good tonic, an immediate uplift, of pure blood and strength—get wonderful help, perfect satisfaction, in a course of Hood's Sarsaparilla and Peptiron Pills.

Hood's Sarsaparilla is especially recommended for conditions that are radically or characteristically scrofulous or dependent on impure blood.

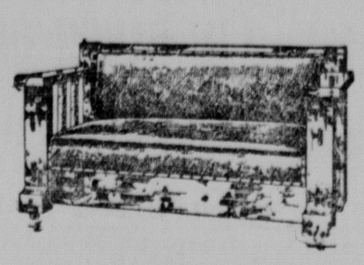

Peptiron Pills are recommended for conditions that are radically or characteristically anemic and nervous.

All the ingredients in this combination work together in harmony, and are absolutely harmless. No opiates, no heart-depressants, no habit-forming drugs.

Why not begin taking these two medicines—one before meals, the other after—as soon as you can get them.

PROTECT GRAIN-CORN, IS PLAN

National Board Fire Underwriters Co-operates.

By Associated Press.

New York, April 14.—Officials of the national board of fire underwriters are co-operating with the national council of defense and various government officials, it was announced today in an elaborate plan to safeguard the country's vital resources notably protection of the grain and cotton crops from fire.

The services of close to 5,000 surveyors, inspectors and appraisers have been offered to the government for the purpose of making local investigations and submitting reports on conditions from whatever section information may be desired. In addition, it was stated, a fund of classified information on the nation's resources has been submitted to the federal authorities.

Full particulars of the water supply systems in every city with a population of twenty thousand persons already has been given to the government, it was announced.

Consider Plan to Permit Allies to Recruit in U. S.

By Associated Press.

Washington, April 14.—Brief consideration was given by the house late today to the Webb bill to permit the entente nations to recruit their own citizens and subjects in this country for their own country. Objection by Representative Greene of Massachusetts, stopped the debate and the bill went over for further consideration later.

The *Skeptic* About Corns

Some years ago a famous chemist invented the Blue-jay plaster.

In a bit of red wax he combined ingredients which no corn can resist.

Through us he offered to all people this sure ender of a corn.

But people said, "We've heard such claims before." They had used harsh, old-time methods which proved inefficient.

The same folks tried this Blue-jay, and each told others. Since then this method has removed some 80 million corns.

Here is a way that's gentle, scientific, sure. It is applied in a jiffy. It costs but a few cents per corn.

It stops the pain instantly. It ends the corn in two days—that is, nine corns in ten. The stubborn ones need a second application.

It makes corns forever needless. Corn aches become unknown. For your own sake, prove this. Stop paring corns. Learn how easy it is to end them. Prove it tonight.

H. M. BAINE NOW FINANCE HEAD OF IOWA FIRM

Former President of Waco Chamber of Commerce Locates in Iowa.

H. M. Baine, formerly president of the Waco Chamber of Commerce, is the financial director of the Iowa Packing company, capitalized at a million dollars, and to be located at Des Moines, Iowa.

The following extract from the Register, published at Des Moines, gives the details of the proposition with which Mr. Baine is connected:

"Filing of articles of incorporation for the Iowa Packing company, a million dollar concern which is to be established in Des Moines in the near future, is expected to bring an end to a situation that has long troubled Iowa stock men.

There has been frequent protest against the fact that calves are born in Iowa, shipped to Chicago as feeders, bought there by Iowa men who bring them back to this state to feed, shipped to Chicago again to be sold to the packers and finally returned to Iowa as meat to be eaten by the men who raised them, the ultimate consumer paying the expense of several long railroad trips for the animals.

The Iowa Packing company has as its incorporators Fred T. Fuller and George J. Sayer of Chicago and H. H. Stipp of Des Moines. Mr. Stipp announced yesterday that the company is not yet ready to announce its complete plans but will make them public probably next week.

Mr. Fuller was for many years the executive head of Swift & Co., and is generally credited with being the man who created the foreign market for American meats. He is known to all of the European buyers. When the National Packing company was organized by fourteen of the largest packing plants in the country Mr. Fuller was placed in charge and operated the trust until it was dissolved by the federal government under the Sherman act.

Mr. Sayer is also an experienced packer, being connected with the Wolfe, Sayer & Hellar firm, doing business over the entire world.

The new corporation has several real estate deals under consideration and has not yet definitely selected its location. The purchase will probably be culminated this week.

Mr. Stipp, senior member of the law firm of Stipp, Perry, Bannister & Starzinger, is in charge of local arrangements at this time. Mr. Fuller was in Des Moines several days ago.

He declared at that time that the failure of former attempts to make a fortune from the packing industry in Iowa was that no one had yet undertaken the task with sufficient capital. The new firm has incorporated for $1,000,000 and it is said that that amount is only a start. A number of Chicago men are to be interested in the company financially and some stock is to be held by local capitalists.

Speegleville Men Buy Waco Property

An exchange of property has been effected whereby F. E. McLarty of Waco sells to J. T. and W. D. Lawson of Speegleville a two-story brick building on South Third, No. 205, known as the McCrosky Drug store. The consideration was $18,500. The property is in a busy section of Waco, where every foot of ground is occupied. Mr. McLarty bought from the Messrs. Lawson 230 acres of fine black waxy land known as the J. T. Lawson home place, located four and one-half miles from Waco on the Speegleville road. The consideration was $30,000.

Texas Travelers to Meet Raleigh Today

In order to extend the eligibility for membership rules of the Texas Travelers a proposed change in the by-laws will be discussed this morning at the meeting of the organization beginning at 9:30 at the Raleigh.

Several matters in connection with the final perfection of plans for the inauguration of the emergency death benefit feature for the immediate payment of $1 per capita to the beneficiary of members in good standing in case of death will be wound up.

AUTO LICENSES.

Automobile licenses issued yesterday were as follows: No. 5454, O. N. McCarrey, Maxwell; George Gefferles, No. 5536, Overland, Waco; No. 5537, W. O. Van Wche, Dodge, Waco; No. 5538, T. S. Nichols, Ford, McGregor; No. 5539, B. F. Garrett, Ford, China Springs; No. 5540, S. Roscoe, Ford, Waco; No. 5541, R. E. Wille, Buick, Waco; No. 5542, J. F. Fickey, Chevrolet, Leroy; No. 5544, Herrick & McLarty, demonstration car, city.

V. C. M'INTIRE IN FAVOR OF CITY MANAGER

Says It Has Been Tried Out Elsewhere With Eminent Success.

V. C. McIntire is an enthusiastic advocate of the city manager plan proposed for Waco. He said last night that many large cities are adopting the plan and many have tried it successfully. He urges organization in Waco with a view to making certain that the city manager plan is adopted here. He suggests that the plan should be secured as soon as possible, and urges that full explanation of the plan be made so the people will know how to form their opinion of its practicability. Regarding the matter Mr. McIntire said:

"Under the new plan (city manager) as I understand it, the people would elect on a non-partisan ticket five or six commissioners and these five commissioners in turn would employ a city manager.

"The city affairs might then be divided into departments, as, public service, finance, public safety, law and public welfare. The commission to constitute the judicial body of the city, the responsibility being vested in one man (city manager).

"The initiative could be invoked on petition of 10 per cent of the registered voters, the referendum and recall requiring 25 per cent of the registered voters.

"Dayton, Ohio, a city of about 125,000 population, which only three years ago was almost wiped off the map by flood, comes forth to say we have installed a business accounting system and a continuous audit of the books by an outside certified accountant, and public hearings are had on the city budget, so that the taxpayers are fully informed as to just what their money is to be spent for, and how.

"A city purchasing department is operated at a cost of less than $5,000 a year, and saved the first year $23,000.

"Again, until August 9, 1916, while citizens of Dayton were paying as high as 24c a gallon for gasoline, the city of Dayton was buying some gasoline for 9c.

"A garbage plant in Dayton at a cost of $60,000 is returning the city a net profit each year of $15,000.

"In the past two years approximately $500,000 has been spent for new artesian well and extensions to the water system, which reduced the cost to consumers from $5 a month to less than $5 a year."

PEOPLE YOU KNOW

Mr. and Mrs. John W. Tabor will spend several days in Houston this week.

H. H. Hoffman of Chicago spent yesterday in Waco.

W. J. Geisler has returned from a visit to San Antonio. He spent a week in the Alamo City.

J. M. Milstead of Dallas, formerly of Waco, was here yesterday.

Thos. P. Grant of Brady was a Waco visitor yesterday.

Son of Col. Roosevelt Weds at Noon Saturday

By Associated Press.

Boston, April 14.—A. B. Roosevelt, son of Colonel and Mrs. Theodore Roosevelt, and Miss Grace Lockwood, daughter of Mr. and Mrs. Thomas S. Lockwood of this city, were married at noon today in Emmanuel Episcopal church.

Among those attending the ceremony were Colonel and Mrs. Roosevelt, Mr. and Mrs. Theodore Roosevelt, Jr., and Mr. and Mrs. Kermit Roosevelt, Dr. and Mrs. Richard Derby and Quentin Roosevelt, who acted as best man.

The date of the wedding was set forward because of the expectation of an early call to the colors by Mr. Roosevelt.

ROCKEFELLER'S BROTHER ILL.

By Associated Press.

Cleveland, Ohio, April 14.—The condition of Frank Rockefeller, youngest brother of John D. Rockefeller, became worse tonight and physicians declared his death near. He became ill several days ago, the result of an operation he underwent a month ago.

TEXAS GUARD

By Associated Press.

Gilmer, April 14.—While trying to board a Cotton Belt freight train early today, Judson Robertson, F. company, Texas national guard, fell under the wheels and sustained the loss of a foot. Robertson enlisted at Marlin.

Thrift.

A member of parliament for a Scottish constituency, seeing one of his supporters emerging from the local postoffice, thought he would have a little joke over the man's thriftiness.

"Halloa, Sandy!" he remarked. "I guess you've been in there to buy more war savings certificates."

"You're wrong, mon," was the quick reply. "I've only been in to fill ma fountain pen."—Tit-Bits.

Perhaps It's Here

Francis Wright, daughter of Mrs. Luella Wright, died at the home of J. J. Powell, 501 Preston street, Friday night. Funeral services were held yesterday afternoon at 5 o'clock at Bole's Springs cemetery, near West. The body was taken to Bole's Spring in the auto hearse of the John Fall Undertaking company.

There will be a meeting of the Minute Men Monday night at 8 o'clock in the county court room, it is announced by Capt. R. S. Ross. Old and new members are urged to be present.

At the meeting yesterday of the Lawyers' Luncheon club, at the Hotel Raleigh at 12:15 an address was delivered by E. W. Hander on "The Right of the Judiciary to Reform Judgment After Adjournment of Court."

A meeting of the finance committee of the Chamber of Commerce was held yesterday afternoon at 4:30 o'clock at the rooms. A number of matters received attention. W. G. Lacy is chairman of this committee.

Bluebonnets almost by the acre may be seen on the aviation field at Highland Place. Weeds there have been cut, giving the bluebonnets full sway.

Pat Cleburne camp, U. C. V., will hold a meeting at 3 o'clock this afternoon at the armory. Sons of Veterans, Daughters of the Confederacy and the public are invited.

Banks which are members of the Waco Clearing House association began closing yesterday at 1 o'clock. This will be kept up on Saturdays until next fall.

A barn belonging to Seth Reed, on his farm near Mart, was burned by lightning which accompanied the rain storm the past week. In the barn was a lot of hay, some corn and various articles in the way of tools.

The Waco Society of Architects and Engineers of which Roy E. Lane is president, visited West yesterday afternoon by the auto route. A lunch was served at West by Nemechek Brothers.

Texas Police Chiefs Get Orders from Washington

By Associated Press.

Dallas, April 14.—All chiefs of police in Texas have received orders from Attorney General Gregory to collect arms, ammunition, code books, etc., from all alien enemies.

Chief of Police Ryan of Dallas, who received one of the orders today, announced that "all alien enemies" would be given until 6 o'clock Monday evening to turn over to him all weapons and munitions which they may have in their possession.

One Killed, One May Die as Result Street Duel

Seymour, April 14.—One man was killed and another will probably die as a result of a street duel at Red Springs today.

C. H. Parham, a merchant, was instantly killed by a bullet fired by Gilley Owens. Jim Breland fired on Owens, breaking the latter's leg. Owens returned Breland's fire and Breland received a bullet in the bowels, which is expected to cause his death.

The shooting grew out of family troubles, it is said.

WOULD JOIN ROOSEVELT.

By Associated Press.

Denton, April 14.—When Alvin C. Ousley announced at a meeting here last night that he wanted to raise a company of 125 or 150 men to join Colonel Roosevelt's proposed regiment to go to France, ten men volunteered immediately. Mr. Ousley said he expected no difficulty in raising his proposed company.

Another Donald Story.

Donald and four grown-up relatives attended divine service one Sunday morning. Donald selected the aisle seat, and when the contribution plate was passed deposited in it the combined offerings of his family. The verger, not realizing this, moved as though to pass the plate to the others in the pew, when he was arrested by a highly pitched, distinctly audible stage whisper announcing: "I paid for five."—Harper's Monthly.

Hubbard Physician to Make Home in Waco

Dr. W. A. Wood and wife of Hubbard have bought the J. N. McFarland place, 1604 Columbus street, paying $20,000, and have named the place Lynd-wood. Dr. Wood will enter the practice of medicine here. The family has been prominent in the social, commercial and school life of Hubbard. Mr. and Mrs. Wood were educated in Waco at Baylor university.

Rotarians Will Meet Monday Noon Raleigh

At the meeting of Rotarians Monday at 12:15, Hotel Raleigh, there will be two short and interesting talks. J. J. Owens of the Waco Electrical Supply company, will talk on "Wiring a House," while a talk on "Rotary" will be given by J. M. Penland. The prize for the day will be given by Postmaster C. B. McCollum, and will be a gold Rotary button. A report will be made on the flower garden contests.

GRAY, BLEACHED FADED HAIR

MADE EVENLY DARK, LONG, LUSTROUS.

La Creole Hair Dressing.

Will bring back to all your gray or faded hair its youthful, original dark color and leave your hair fluffy, clean, full of life and luster. La Creole is not a dye, but revives the color glands. Absolutely harmless and impossible to detect; without odor or stickiness. Hair can be washed or curled without affecting the restored color. Sold by druggists everywhere, or send $1 to Van Vleet Drug Co., Memphis, Tenn. Guaranteed to darken all your gray hair so evenly that not even a trace of gray shows. Stops dandruff and falling hair and promotes its growth. Give La Creole a trial. Has been used for past 30 years by ladies and gentlemen to restore all their gray hair to original dark color, luster, freshness and fluffiness.—Advertisement.

CALOMEL IS MERCURY, IT SICKENS! CLEAN LIVER AND BOWELS GENTLY

Don't lose a day's work! If your liver is sluggish or bowels constipated take "Dodson's Liver Tone."

You're bilious. Your liver is sluggish. You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated; breath bad; stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick, you may lose a day's work.

Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel crashes into sour bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced, just take a spoonful of harmless Dodson's Liver Tone tonight. Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful; full of vigor and ambition.

Dodson's Liver Tone is entirely vegetable, therefore harmless and cannot salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.

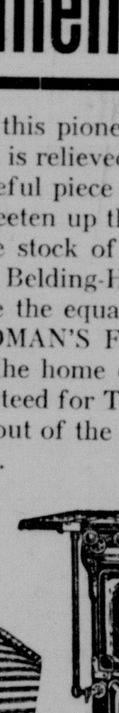

To Stop Hair Loss and Rid Your Scalp of Dandruff, Use NEWBRO'S HERPICIDE

Do you have dandruff? Does your hair fall out? Is it getting thinner and the parting more pronounced every day? If so, we advise you to get busy right away and before it is too late.

We are not trying to scare you. We are simply telling you the truth. If you would ward off impending baldness you must check that hair loss and rid your scalp of dandruff.

Start right and start now with the right remedy and stick to it—Newbro's Herpicide.

Use Herpicide daily for a while, then three times a week will be sufficient. Watch the change which takes place in the condition of your hair and scalp.

The scalp is clean and free from dandruff. The hair looks strong and healthy and does not fall out. There is vigor and snap where before the hair was dead, dull and brittle. The itching which is so annoying stops and you enjoy a feeling of coolness and cleanliness hitherto unknown.

Any dealer will sell you Newbro's Herpicide either in 50 cent or $1.00 size. It is guaranteed by The Herpicide Co. The first application will convince you that Newbro's Herpicide is the very thing for the hair. Its odor is delightful.

Applications may be obtained at the better barber shops and hair dressing parlors.

Special agents, Powers-Kelly Drug Co.

Don't Fool Yourself About Paint

On account of the high price of Linseed Oil caused by the failure of the South American crop and a short crop in North America, some people are tempted to sell adulterated Linseed Oil and a great amount of it is being sold, much to the detriment of the Paint in which it is used. Don't FOOL YOURSELF BY USING CHEAP OIL. To be sure you get the best ask for Minnesota Linseed Oil, which is made from the finest seed and is properly aged.

WALL PAPER PICTURE FRAMES GLASS

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong---According to Dr. Lewis

Guaranteed to Strengthen Eyesight 50% In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for 15 days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes which induced fierce headaches. I have worn glasses for several years both for distance and work, and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription. Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or misfit glasses. I can highly recommend it in case of weak, watery, aching, smarting, itching, burning eyes, red lids, blurred vision or for eyes inflamed from exposure to smoke, sun, dust or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto, referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is sold in this city by W. B. Morrison and other druggists.

If YOU Like Candy

PLANS FORMING FOR "Y" CAMP

Will Be in Charge of Messrs. Braun, Montgomery and Flowers.

The boys' camp of the local Y. M. C. A., which is in charge of Charles Braun, T. S. Montgomery and A. J. Flowers, will be held on the Bosque near Speegleville June 1 to 10 and will be of greater interest this year than in any in the past. A new club house is being built on the club ground large enough for all the boys to eat their lunch in and the kitchen, which will be screened in, will make everything sanitary.

The object of the camp is to give opportunity to the boys for an outing under the most helpful influences, affording the boys companionship of other boys and of men who can help them retain their refinement and at the same time engage in wholesome recreation.

The camp is located on the Bosque ten miles from Waco near Speegleville. Fine trees cover the camp site, giving an abundance of shade. Space for athletic sports of all kinds is almost unlimited.

The swimming hole is equipped with spring boards and swinging rings and safety during swimming hours will be insured by careful supervision of the adult leaders. After supper each night the campers will have various programs, each camp squad will have a camp reporter who will read each night around the camp fire the happenings of his group during the day.

ASTOR HEIR SPENT $75 A DAY.

But the 3-Year-Old Lad Hasn't Lived Within His Allowance.

Cornelius J. Sullivan, special guardian of little John Jacob Astor, has filed in the surrogate's court his report on the accounting of her guardianship recently rendered by the boy's mother, Mrs. Madeleine Force Dick. Mr. Sullivan completely approves of her expenditures for the child's maintenance, which have averaged more than $75 a day since his birth three years ago, and adds words of commendation for her care of the son of the late Col. John Jacob Astor.

"She, in fact," Mr. Sullivan says, "disbursed her own money to defray all the expenses and taxes on the house, 840 Fifth avenue. The moneys paid to her by the trustees out of the infant's income she has invested in sound securities, which she holds in trust for him, and which, with the accumulations thereof, are to be turned over to him upon his majority. She intends to make similar use of any other moneys that may be paid to her by the trustees.

"Under such circumstances," the report continues, "for the special guardian to refuse to sanction the general guardian's (the mother's) account would show that he was lacking in appreciation of a generous and disinterested affection on the part of a mother toward her child."

A year after the child was born the courts directed his mother to spend not more than $20,000 a year on him from the income of the $3,000,000 trust fund established by Colonel Astor for any children of his marriage with Miss Madeleine Force. The amount spent for the child, however, exceeded $24,000 annually, Mrs. Dick making up the difference out of her own pocket.—New York Sun.

An Observant Lad.

School Teacher, to Little Boy—If a farmer raised 1,700 bushels of wheat and sold it for $1.17 a bushel, what will he get?

Little Boy—Automobile.—Motordom.

NEW BOOKS OF PUBLIC LIBRARY

Number of Excellent Additions Made to Local Shelves.

The public library has recently added a number of excellent books to its collection of business books. There is now at the library a book, and in many cases a number of books, on any subject in which the business man is interested. These books are being used more every day, but those in charge of the library are anxious that every business man in Waco should realize the value of this collection and derive the benefit from them that is his due. The books may be borrowed for two weeks with the privilege of renewal for two weeks more. The library is open daily from 9 a. m. to 9 p. m. and on Sundays, for reading only, from 2 to 6 p. m.:

"Indexing and Filing," by E. R. Hudders. Detailed and practical work on the latest methods of indexing and filing. Principles are laid down and sample documents illustrated by excellently clear sketches.

"Retail Selling and Store Management," by P. H. Nystrom. Deals with the every-day problems of the retail merchant and his clerks in a notably intelligent and practical way. Will be of interest to the successful merchant as well as the man who is new in the business.

"The Art of Collecting," by R. J. Cassell. A concise work dealing with the collection of accounts, written by a man who has had a great deal of experience in collecting, the collection manager of Grinnell Brothers, Chicago.

"The Law of Commercial Paper," by L. J. Tompkins. Clear statement of law governing notes, checks, drafts, etc.

"Letters That Make Good: A Desk Book for the Business Man." A compilation of several hundred facsimile form letters that have been used successfully by business houses. Shows letterheads and use made of colored inks. Letters are all written by men who know.

"Why the Dollar Is Shrinking: A Study in the High Cost of Living," by Fisher. An unusually compact and thorough discussion of a much discussed problem.

"The Private Secretary, His Duties and Opportunities," by E. J. Kilduff. Gives specific information and instructions about the routine work and broader duties of the secretary. A book for the employer and the employe alike.

"Commercial Correspondence," by C. L. Altmaier. A book which will be helpful to the beginner because of its information regarding the technique and general composition of the business letter and its directions for writing particular kind of letters.

Custodian of the Treasure.

"Have you a servant whom you can trust?"

"Absolutely. We even let her peel the potatoes."—Washington Star.

DIGNITY AND IMPUDENCE.

A trawler one evening came into a port where lay at anchor a destroyer flotilla. She dropped her "hook" foul of the first and second ships, and the efforts of the officer of the watch on the leading ship to move her were fruitless.

On the matter being reported to the commodore, he went aft and hailed the intruder.

"Hullo, there. You're foul of my billet, and you must clear out and anchor elsewhere. I am in command of this flotilla—who are you?"

Back came the answer, appalling in its audacity and disregard of service convention:

"A'hm the Star o' Bethlehem—and Ah've set for th's night.—London Opinion.

Discreet.

"You make your heroines singularly unattractive, old chap."

"Well, I don't like to do it, and I presume it hurts my vogue. But my wife is a trifle jealous—you know—safety first." — Louisville Courier-Journal.

A Modest Requirement.

Gerald—May I kiss you?

Geraldine— — — — — Not much!!

Gerald—Well, I only wanted one or two.—Awgawan.

SHOULD MAKE A MILLION FOR HIM

CINCINNATI MAN DISCOVERS DRUG THAT LOOSENS CORNS SO THEY LIFT OUT.

Local druggists are having a tremendous call for freezone, the drug which is said to shrivel a corn, root and all, without any pain.

A few drops applied directly upon a tender, aching corn relieves the soreness at once, and shortly the entire corn, root and all, lifts right out with the fingers.

This new drug is being dispensed at small cost in quarter ounce bottles, which is sufficient to take off every hard or soft corn from one's feet. It is a sticky substance which dries at once, and does not inflame or even irritate the surrounding tissue or skin. There is no excuse for anyone inviting death by infection or lockjaw from cutting their corns now.

No Cost If This Fails To Remove Hair Roots

(New, Wonderful, Instantaneous Method.)

You who are annoyed with embarrassing growths of superfluous hair have waited long for something that would do more than merely take off the surface hair temporarily—something that would really remove the hair roots. And now—at last—your wish is realized.

The new phelactine process is far different from, far better than electrical, depilatory or other methods, because it actually removes the hair entire, roots and all—before your very eyes—easily instantly, harmlessly! Get a stick of phelactine, follow the simple directions, and you will be surprised and pleased beyond words—or the druggist will return your money without question. It has no odor, no irritating element, and is so non-injurious a child could safely eat it. It leaves the skin so soft, smooth, hairless, that not the least sign of your former trouble remains.

THE LLOYD GEORGE MESSAGE.

IN reading the historic Lloyd George greeting to America on her entrance into the war of democracy, the sentence that brings home the truth is the simple statement of the English prime minister, "I am a democrat."

As a democrat, Lloyd George is ruling England with power not exceeded by President Wilson in his gradual mental dominance of congress, cabinet and country. Lloyd George is the equal of Wilson in the democracy of his ideals and in the force with which he makes them realities.

* * *

REPUBLICAN France and Republican Russia are joining their democracies with the virtual democracies of England and Italy in winning (we hope, forever) the world victory over autocracy. Germany, headed by booted and gold-laced Prussia; Turkey, her grafting, Christian-murdering catspaw, and Austria, decaying with the poison of inefficient bureaucracy, are being ridden to their red doom by a Frankinstein of military absolutism.

This war undertaking may be the last great force-trial of a world seeking the full light of freedom. Kings that remain will be as useful as an appendix and as mentally powerful as the extinct dodo.

As the real leader of England, Lloyd George, the Welsh lawyer, did not consult King George when he said: "I am a democrat." Perhaps his king thinks the statement rude. But the big fact is that King George will not challenge the statement for fear of his job. Lloyd George might fire him.

* * *

IF this war ends with the recognition of the political equality of human beings, including women, to make war, declare peace, conserve happiness and provide machinery to insure employment and eliminate want, the millions that have died will not have perished in vain.

WACO WAKING.

THE practically unanimous approval voiced of the City Manager club movement to modernize the city government must be encouraging to the men who are giving time and thought to the work.

It is significant that any undercurrent of opposition that may develop is of the silent kind that grows out of the personal desire to hold jobs.

Wherever the city manager plan of city government has been established it has been only with silent or voiced opposition of politicians attached or aspiring to the payroll. The News cannot but feel, however, that a part of the present city government is at heart cognizant of the inefficiency and waste that is inherent in the divided authorities of the councilmanic and commission plans. And knowing some of the men active in the present city government, The News believes in the final test they will be found shoulder to shoulder fighting in the ranks of the forward-looking men who will carry the burden of the city manager campaign.

They have evidenced their patriotism for country; they will hardly do less in showing their patriotism for city.

FOOD PREPARATION.

WITHIN a week special committees of the Chamber of Commerce will pilot auto parties thru the country for a series of night meetings urging the farmers to raise feed and foodstuffs this summer.

Carl Vrooman, assistant secretary of agriculture, is telling Texas audiences that Texas may be called upon to feed practically the entire United States while the surplus of the rest of the country goes to our allies in Europe.

Selfishness does not entirely rule the world and the government of the people for all the people is becoming more and more of a reality.

If Texas is not to be stripped of its livestock by the prohibitive prices that may prevail upon feed imported into the state, Texas farmers must forget in some measure the probable high prices of cotton and remember high prices of feed will be equally profitable both as a matter of permanent farm upkeep and protection for their own livestock.

Foods undoubtedly will be higher should Germany hold out. The farmer that studies the food-growing possibilities of his land will reap a reward greater than the farmer who with short-sighted selfishness puts every available acre into cotton.

The News hopes that the Chamber of Commerce meetings will be largely attended and that the farmers of McLennan county will take the message of feed and food growing seriously.

Much Ado About Nothing

By Roy K. Moulton.

CHARITY.

'Tis no time for intolerance.
We are too big for that.
Democracy's in self-defense
Against an autocrat.
'Tis not a racial war that we
Have made our plans to wage.
A record of sincerity
We'd write on history's page.
A system, not a people, is
The object of our wrath.
Our honor has been pledged to this.
We tread a well-marked path.
Your peaceful German neighbor needs
Your help. His eyes are dim
With sorrow from a heart that bleeds
And so—be kind to him.

An Explanation.

R. K. M. Lewis phones that your package has arrived.—S. T.

We believe that we owe the public an explanation of this note, which we found on our typewriter this morning. The package referred to is not the stereotyped sort of package that many gentlemen carry home, but contains one battery for starting and lighting.

Other packages can be used for starting and lighting also, but we haven't received one of those in many years.

Every time we begin to think we're against capital punishment we suddenly remember the fellow who carries a moistily-gnawed and gone-out cigar into a street car.

* * *

Now some one asks: "Does woman equal man in brain power?" Married men, all together, please—"Yes."

* * *

Driving the Turks out of Europe seems to be a good deal like getting rid of red ants in the pantry.

Pointed Paragraphs.

It's a good thing the child doesn't know that he is father to the man or he might get discouraged and quit.

When women are paid wages that will enable them to support husbands in luxury the millennium will be at hand.

A girl always likes to express her opinion, but a widow never tells a man her opinion of anything until she finds out his opinion of it.

It always arouses more or less suspicion in a man's mind when he expects a scolding from his wife and she fails to deliver the goods.

A woman can never understand how it is possible for a smart man like her husband to get the short end of it in a lawsuit.

Many a man has to pocket his pride so often that his trousers get baggy.

It takes a lot of wil lpower to enable a man to save himself from himself.

NEW-YORK-DAY-BY-DAY.

By O. O. McINTYRE.

New York, April 14.—In the vernacular of Broadway what is New York's "slant" on the war? I asked myself this question and then set out to find out just how much patriotism there is in O. Henry's City of Five Million. My jaunt began on Fifth avenue and there were very few flags there except in front of the clubs where bored millionaires look out over the traffic while quaffing the succulent highball.

In justice to Fifth avenue, however, it might be said that many of the so-called idle rich young men have already offered their services to their country. I dropped into one club (while the doorman wasn't looking). There were several groups about the lounge. Most of them were well-fed, well-dressed looking persons who were long past the recruiting age.

There seemed to be signs of life in one group. And I caught snatches of conversation about "General Motors," "Monster Chief," "Torpedo Boat" and "Wireless" and I thought it was war stuff—but when I edged a little closer I learned that it was just about stocks.

I went from Fifth avenue to the crowded East Side section. I never knew there were so many flags. They were flying from every window. Children carried them. Boys had them entwined in the wagon wheels and in their bicycle wheels and everybody seemed to be reading pink war editions.

One saloon had a sign out reading, "Uncle Sam's Punch," and the price was ten cents. But while I was there a policeman made the owner take the sign down. It occurred to me that the flag makers must be making money. So I tried for twenty-five minutes to get one of the larger firms on the 'phone to inquire. After a fruitless wait, the trouble department informed me that it was impossible to get them.

In fact, they are so busy that you have to put in your phone calls at least an hour ahead. From the East Side I got on a street car to go down in the downtown business district. I stood out in the vestibule with the conductor and inquired if he was going to enlist. "Yes," he said. "And so is my son, 24 years old." Incidentally, he told me he was of German extraction.

Down on Park Row I found four newspapermen who were preparing to leave their jobs and families to give their services to their country. Wall Street is fairly alive with flags and bunting. In front of 27 William street the entire front of the building was draped with flags and the same was true in front of 30 Broad street.

Many of the curb brokers and Wall street clerks, I learned, are quitting to join the colors. I went from the financial district a little further uptown near Fourteenth street and peeped into several German restaurants where for some time they have been draining their steins to the success of the Fatherland. These places were all decorated with American flags and in one place a large picture of the kaiser that adorned the wall had been removed.

On Broadway the theatres have tried to outdo each other in patriotic demonstrations. All the lobbies are filled with flags and the orchestras take advantage of the situation by playing only patriotic tunes.

Nearly everybody on Broadway had a patriotic emblem in the buttonhole. In the cafes there seemed to be little war talk—but there was a brooding silence over these places that made one wonder if the war had made Broadway lose its "pep." One bartender at a large hotel told me that he noticed people didn't berate the Germans so much. They just put all the blame on the kaiser.

A peeved subscriber writes to a newspaper that a barber in New York recently said to a customer: "I wish the Kaiser would send a warship over here and blow New York off the face of the earth." If the peeved subscriber would just think the matter over he would realize that if barbers had their wishes most of us would have the fastest growing beards in history.

A phonograph is a machine that talks back and no married man feels that he needs one.

Letters from the People

To the Editor:

An interesting event happened in our high school several days ago which shows the tendency to patriotism among our school children. The children of the high school had been called upon to sing the patriotic songs of several nations. They selected "The Watch on the Rhine." But when called upon to play the accompaniment, the pianist refused to play and no persuasion upon the part of the students and teachers could prevail upon her to do so.

Hoping this may be of interest to you, I beg to remain, yours truly,

J. R. L, Rosebud, Texas.

To the Editor:

It is a peculiar situation that confronts the judge of the corporation court in the trial of persons charged with violating the traffic ordinances of the city. Particularly is this condition presented in the matter of violations of the ordinance fixing the speed limit.

Very few citizens are arraigned who intentionally transgress this ordinance, and the corporation judge in many of the cases submitted to him for determination is aware that the citizen has no desire or intention to transgress the law.

If the lack of wilfulness or intent is entertained by the court as a defense, the law might as well be stricken from the book, for it would virtually be a nullity.

The present city judge, for several months, has uniformly imposed the minimum fine, and many admirable lectures on the necessity for observing the traffic laws upon those who violate the speed ordinances. In the matter of lectures, the court has about filled his chautauqua engagement; and the effectiveness of the $10 minimum fine has been tried out.

In view of the manifest danger to the traveling public, occasioned by violations of the traffic laws, and the absolute certainty of punishment therefor, the corporation judge takes this occasion to request the co-operation of all the people of this city in the observance and enforcement of the traffic regulations.

R. H. KINGSBURY,
Corporation Judge.

To the Editor:

From 7 to 8 o'clock each weekday morning there is a fog of dust on the downtown sidewalks, due to the maneuvers of the broom brigade. As a result of their endeavors, which are necessary but ill-timed, hundreds of people on their way to work are compelled to breathe visibly contaminated air.

Now such dust, containing, as it does, plain dirt, dried mucous and many other more or less undesirable ingredients, is the recognized carrier and the chief means of spreading the respiratory diseases. Without it such dangers as tuberculosis and pneumonia would lose their most useful ally.

Seventeen per cent of the 1916 death claims paid by the Aetna Life Insurance company were due to diseases caused by impure air.

It is not necessary that our morning walk should expose us to such dangers. This daily dust fog is effecting a lowered vitality among an important number of our citizens. Why continue it?

Yours truly, J. M. HENSHAW.

Moving Picture Headaches.

"I cannot go to a moving picture show, a theatre, picnic or any other public gathering without having a severe pain in my head and temple. It cannot be caused from my eyes, for I can see just as good as anybody," remarked a prominent Waco lady.

Our Dr. Georgia examined the lady's eyes and found that her vision was "just as good as anybody's," but the muscles of her eyes had become so badly cramped in their efforts to give her this vision that the entire nervous system was disturbed.

The glasses which he prescribed for this lady did not magnify and make her see better, but they did make her see natural and at the same time relaxed the eye muscles which immediately overcome every bit of the headache and neuralgia pains which she had formerly suffered.

If you can not attend a moving picture show without eye fatigue and subsequently suffering with headache, consult us. Our glasses will afford you the same relief that they have in over thirty thousand other cases in Waco and vicinity.

Why not you too?

Follow This Man's Example. Mail the Coupon *Today*. After Wednesday, April 25th, it would be useless to send it

BECAUSE—

the sets of the Encyclopaedia Britannica, "Handy Volume" issue, now on hand will be so nearly all sold by that time that it will be too late for us to send out any more of these descriptive books.

We do not ask you to buy the Britannica without finding out *for yourself* just how it will be of practical value to you, but get the descriptive book now so you'll be able to make an intelligent decision, so you will know for yourself whether or not the Britannica will be useful to you. *NOW* is the time to send the coupon.

More than a hundred and seventy-five thousand men and women in America are *today* using the Britannica. The representative big business men, bankers, lawyers, railroad executives and educators own the Britannica and find *practical* use for it. And for every prominent man there are ten comparatively inconspicuous men or women who own and use the Britannica. Don't you think that if all these thousands of progressive people find the Britannica valuable, *you* ought to at least find out what this great library of the world's knowledge really is and whether *you* could use it to advantage? Then, and only then, can you decide *intelligently* whether or not you ought to own it.

Send the Coupon Today

Fill it in and get it in the next mail. Don't put it off until the very last day. The sooner you ask the better, for no more "Handy Volume" sets of the Britannica can be printed on India paper. No more of this paper can be obtained. And if you do decide to buy the Britannica, you *surely* want it on this wonderful, thin India paper. Send for further information right away. These last remaining sets are all that can be offered, printed on this *genuine* India paper.

$1 down puts the complete Britannica right in your home where you can use it while you are paying for it at the reasonable rate of $3 a month (for the cloth binding) during a limited number of months. Send the coupon *today*.

Or go and see sets at:

GOLDSTEIN—MIGEL CO.
"Waco's Greatest Department Store"

The Encyclopaedia Britannica, 120 West 33rd St. New York, N. Y.

Gentlemen:—Please send me at once your free, illustrated, descriptive booklet about the "Handy Volume" issue of the new Encyclopaedia Britannica, printed on genuine India paper.

I want this so that I can learn whether the Britannica will be useful to me in my work and my home, and so that I can decide before all the remaining sets are sold whether or not I want to buy.

Send me full information as to the smallest monthly payment I will have to make for one of these remaining sets; also the lowest cash price.

CALL FOR YOUR TICKETS

GRAHAM-JARRELL CO.
609 AND 611 AUSTIN STREET
"THE WOMAN'S DEPARTMENT STORE"

Graham-Jarrell Not Only Conserve the Best Interest of Their Customers, but of Their Employes as Well

GRAHAM-JARRELL, in conjunction with its big wholesale and retail stores in Dallas, is one of the largest operators in the Southwest—buying in large quantities direct from the manufacturer and in many instances importing many lines from Europe through our office at 7 Rue Berge, Paris, France.

—We own our merchandise on a basis that enables us to quote unusually low prices to our customers, thereby conserving their best interests.
—For Our Employes: We conserve their best interests in the home-like atmosphere of this store—short hours, kindly treatment and fair wages.

—The letter below is self-explanatory:

DEALERS' MERCANTILE CO.
Wholesale Millinery.

Dallas, Texas, April 6, 1917.

Mr. W. G. Harris, Manager,
Aetna Life Insurance Co.,
Dallas, Texas.

Dear Sir:

I am handing you herewith applications from:

Dealers Mercantile Co.	Dallas
Our Best Store	Dallas
Graham-Jarrell Co.	Waco

three Texas corporations of which I am president, covering all of the permanent employees in each of these three institutions on which you are to write group form insurance to the amount of One Thousand ($1000.00) Dollars for each employee.

I am deeply concerned for the welfare of those under me and realize that, in a very large degree, I am 'My Brother's Keeper.' They are giving me their best physical and brain energy and it is but fair that I should provide for them and their families against misfortune.

Truly,

L. O. DANIEL, President.

LOD—IME

130 FIRMS IN TRADE TRIP OF MAY TO DE LEON

Will Also Take Part in Entire Series of This Season's Excursions.

One hundred and thirty business firms and individuals have signed for the entire four annual trade trips on the first call made by the Young Men's Business League. Two of the business excursions will be made in May and two in June.

De Leon will be the objective point in the first spring drive of the Waco trade party—May 10. This trip will carry the Wacoans through Whitney, Morgan, Hico, Dublin, De Leon and a number of smaller towns, and will touch the counties of McLennan, Hill, Bosque, Hamilton, Erath and Comanche.

The Y. M. B. L. special on its initial tour will travel 240 miles over the Texas Central branch of the M., K. & T. Season tickets for the big quartet of trips sell for $18. Individual trips will cost $5. In view of the fifty per cent increase in excursion rates made by the railroads, this season rate is considered very reasonable by the committee.

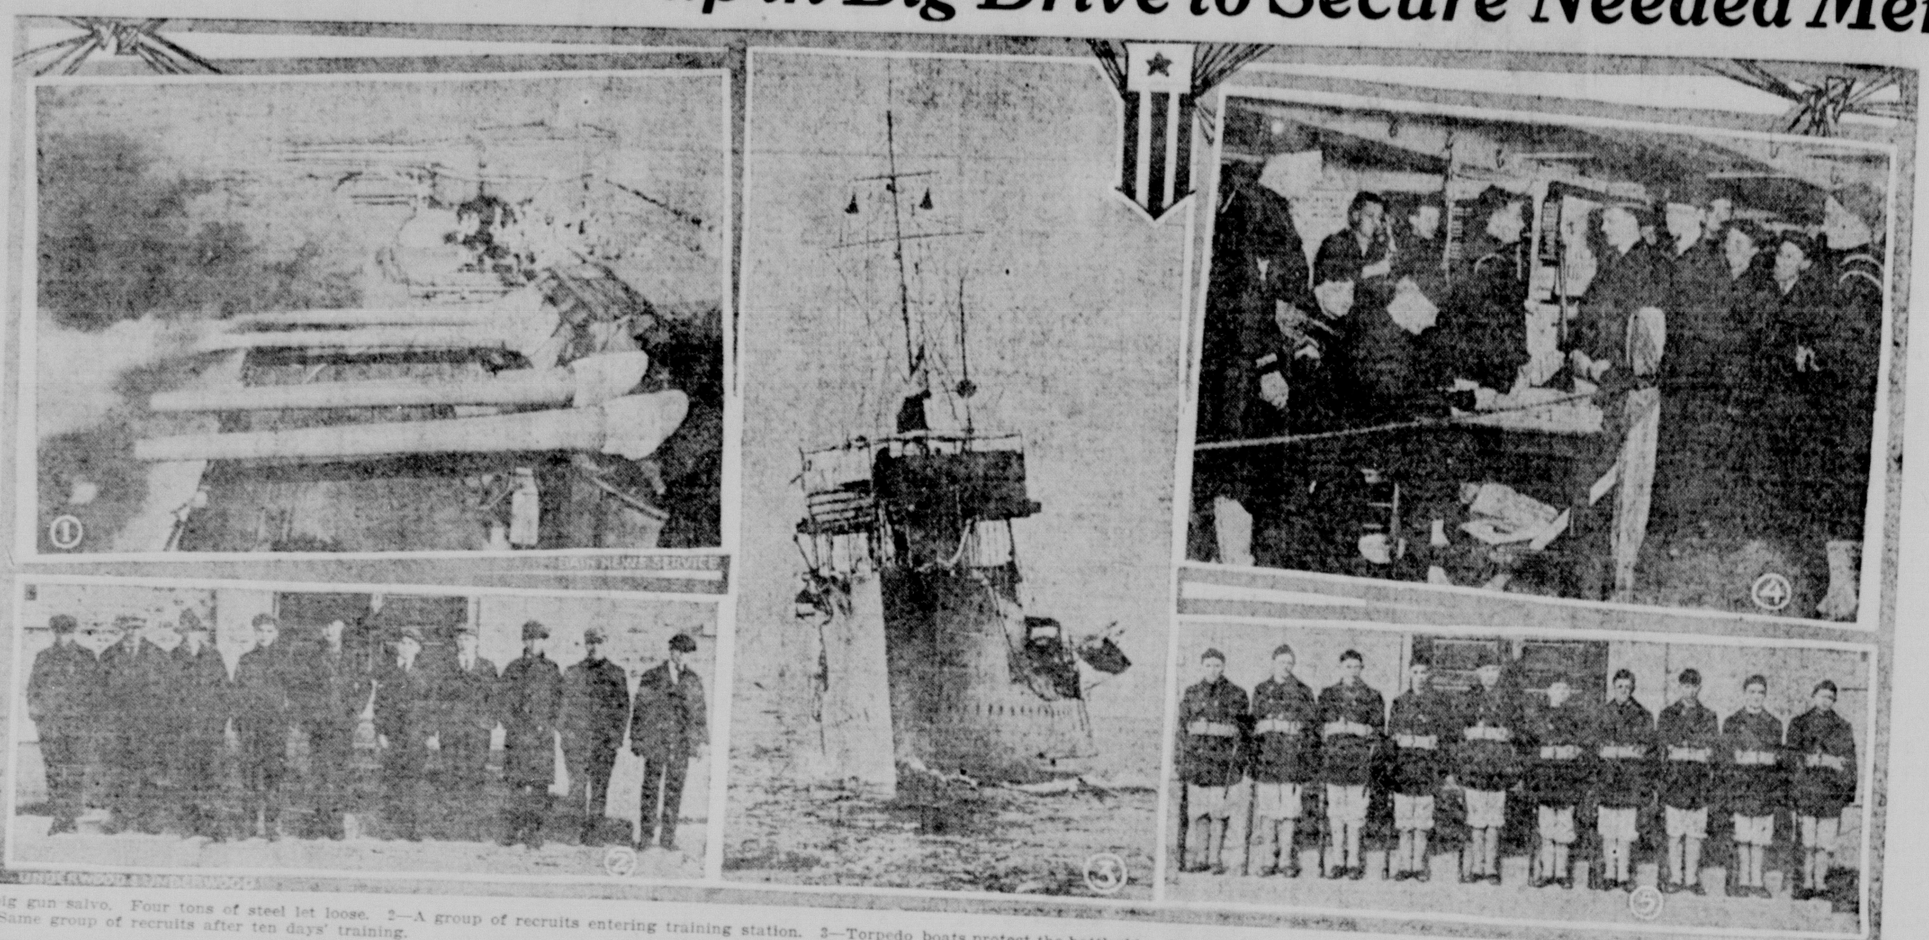

Frank J. Trau is general chairman of the trade trip committee, and F. B. McPeak is head of the ticket selling committee.

The itinerary of subsequent trips will be announced two weeks before the date the excursion is to be run.

Following is the list of firms and individuals who have contracted for the season's trips:

Amicable Life Insurance Co., Armour & Co., American Express Co., Aug. A. Busch, Co., Big Four Ice and Cold Storage Co., Brazos Laundry, Brown Auto Co., Battery Service Co., W .W. Brown Supply House, Aug. A. Busch Co.—Bevo Dept., Baby Percy Medicine Co., Behrens Drug Co., Wm. Cameron & Co., Inc., Citizens' National Bank, Chris's Cafe, Cotto-Waxo Co., Central Motor Co., Central Texas Exchange National Bank, Clement Grain Co., Carter's Drug Store, Cooper Grocery Co., Crow Bros. Laundry, Mayor John Dollins, A. J. Dossett, Dr. Pepper Co., Texas Publicity Bureau—M. B. Davis, Mgr., Dugger Grocery Co.—Gold Plume Coffee, First National Bank, Sheriff S. S. Fleming, The Famous, First State Bank & Trust Co., Walter V. Fort & Co., General Insurance, Thos. Goggan & Bros., Fred A. Gildersleeve—Commercial Photographer, Goldstein-Migel Co., B. F. Big Rush to Join Sets in--Enlistments Boom as Congress Acts--Patroits Line up in Big Drive to Secure Needed Men

1—A big gun salvo. Four tons of steel let loose. 2—A group of recruits entering training station. 3—Torpedo boats protect the battleships day and night from surprise attack. 4—Recruiting stations besieged by applicants for enlistment. 5—Same group of recruits after ten days' training.

Boy Scouts of Waco in Week of Activities

Boy Scout activities of the past week include the following: Fifteen tenderfoot and eight second-class examinations were taken; ten merit badges were given to George Caufield, ten to Cecil Caufield, seven to LeBaume Elliott, eight to Reginald Kepler and eleven to Robert Lee Henry; more than twenty boys drilled on the athletic field Friday night, the number staying out at the scout park that night was unusually large; Mr. Terry is taking charge of troop 12. Friday afternoon the scout team defeated Bosqueville, 3 to 2.

Waco Adwriters to Meet Thursday Night

The Waco Ad Writers league membership meeting will occur at the Y. M. C. A. Thursday evening beginning at 6:30 to decide the ad writing contest for the Waco Electrical Supply company for a thirty-inch display ad featuring electric fans and their use. A general discussion of the various ads submitted will ensue.

The mid-week trade day committee, of which T. M. Sappington is chairman, will have a report to make of progress made on this proposition.

A nonsinkable lifeboat which is equipped with doors that automatically close upon its occupants should it upset has been invented in Germany.

PAST WEEK SAW NAVY DRIVE TO GAIN RECRUITS

Uncle Sam Is After 38,000 Healthy Young Americans for Service.

Special to The News.

Washington, April 14.—Pacifists must have been finally lulled to sleep by the call of the navy during the week of April 9-14. The six days have been called "Navy Week" and a concentrated effort was made in every city and town to obtain the 38,000 young and healthy Americans necessary to bring the country's first line of defense up to its full strength of 100,000 men.

"Enlist Now—Your Navy Needs You!" is the slogan that rings throughout the land.

An interesting and but little known feature of the enlisted man's chances for promotion in the navy is the appointment to the naval academy. The law provides that eacn year 100 enlisted men may be appointed to Annapolis. The applicant must be under twenty years of age at the time of appointment and must have been in the navy at least one year. Entrance is obtained by competitive examination which is held on board ship, and when the men are graduated from the academy they receive commissions in the navy.

Table of physical proportions for height, weight and chest measurement of adults:

Height (barefoot)	Weight (without clothes)	Chest mean Ccircumference
64	128	32
65	130	33
66	132	33½
67	134	34
68	141	34½
69	148	34¾
70	155	35¼
71	162	36
72	169	36¼
73	176	36¾

Buy War Bonds, His Advice to Waco Women

"Waco women who wish to render real service to their country in the present crisis, can do so by investing their savings in the new war bonds," suggested Louey Migel, of the Goldstein-Migel company, in an interview yesterday.

"Many women, both single and married, have money in the banks, either without interest or on savings accounts at three per cent. The bonds will pay three and one-half per cent. With thousands of men going to the army and navy, the women will want to do their part and they can do no better service than by helping to absorb this great bond issue which will furnish the money to finance the military program.

"Women who are interested can secure the bonds by making application through any Waco bank."

Mr. Migel expressed the opinion that Waco and McLennan county would make a splendid showing of patriotic spirit by a large bond subscription from the women who have savings.

move that would provide a plant owned by the city.

The council adopted a resolution demanding that Mayor Edwards name a labor representative on the new board of freeholders. A speech by L. A. Brown tended to show union representatives had been discriminated against and would suffer similarly under the next board of freeholders if they did not assert themselves.

A GREAT LOSS TO GERMANY.

Bagdad's Fall Leaves Empire a "Stony Cul de Sac" in Mesopotamia.

Bagdad fallen has much more than a sentimental significance. It is a landmark in the progress of the Brtish design to place a final quietus upon Germany's Levantine ambitions.

In an ultimate sense, the valley of the Euphrates and Tigris, with its potential agricultural and mineral resources looming vastly greater in German statesmen's calculations than in the reality, was the cause of the world war. Serbia has to be reduced to vassalage. Russia had to be driven out of Balkan politics, not because the Balkans are valuable in themselves but because they lie on the road to Bagdad.

If the war had ended last December, with the status quo re-established on all European frontiers, Germany would have regarded the war as won. The prize of Mesopotamia would have remained to German designs, and the fear of God and the kaiser would have been thrown into the hearts of any Balkan nation that might have sought to block the way.

But now the prize is being torn to pieces by the British invader. The war might end leaving Germany paramount in the Balkans. If the British succeed in consolidating their conquests in Mesopotamia, Germany will still have lost, gaining nothing but a stony cul de sac.—New Republic.

Her Day Out.

Servant—Please, mum, Mary 'as been trying to light the fire with parraffin an' she's been blown out of the window.

Mistress—Well, well; it is her day out, is it not?—The Tatler.

Food Souring Causes Indigestion, Gases, Heartburn--Pape's Diapepsin

Instant Relief! Neutralizes acid in stomach, stopping dyspepsia, pain, belching—It's fine!

You don't know what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened, and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapepsin which costs only 50c for a large case at drug stores. It's truly wonderful—it stops food souring and sets things straight, so gently and easily, that it is really astonishing. Your stomach will digest your meals if you keep acids neutralized.

NOW IS THE TIME TO BUY

Luggage of any sort—just before the summer vacation traffic sets in. Now you have the largest stock to select from—and deliveries of any type of Trunk can be made immediately.

Wardrobe Trunks

Are ideal for travel. Ladies, especially, appreciate the crisp freshness of garments taken from a Wardrobe at the destination end. No wrinkles, no need to press suits or dresses before they are worn.

One special lot of Fibre Wardrobe Trunks—$30 values—while they last **$21.40**

These Trunks are made from materials purchased before the price advances, and on today's market would cost at least $30.00.

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

HURRY, MOTHER! REMOVE POISONS FROM LITTLE STOMACH, LIVER, BOWELS.

GIVE "CALIFORNIA SYRUP OF FIGS" IF CROSS, BILIOUS OR FEVERISH.

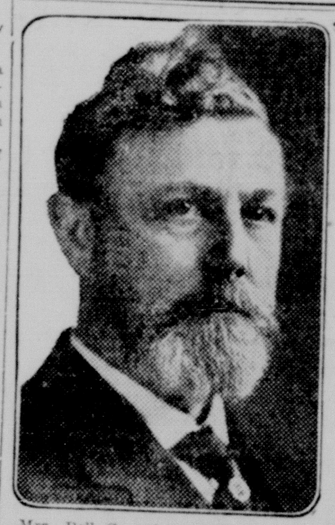

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out of sorts, half sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that the little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the constipated poison, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach, and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

The DOCTOR'S ADVICE by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply in any case of similar nature.

Those wishing further advice, free, may address Dr. Lewis Baker, College Bldg., College-Elwood streets, Dayton, Ohio, enclosing self-addressed stamped envelope for reply. Full name and address must be given, but only initials or fictitious names will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

Mrs. Bell C. writes: "I am informed that I have kidney trouble and that it is fast approaching a serious stage. What would you prescribe?"

Answer: If your symptoms are the usual ones, such as puffs under the eyes, swelling ankles; scant, copious or foul-smelling urine, accompanied by headaches, pains, depressions, fever, chills, etc., I would advise the immediate use of balmwort tablets, a very fine remedy for such difficulties, sold in sealed tubes with full directions for self-administration.

* * *

Miss Daisy B. writes: "I have what people call liver spots on my skin. I am sallow, almost like a person with jaundice and I know my liver is not right. Have sour risings, coated tongue and get terribly sleepy after eating. Am constipated and seldom feel good.

Answer: Such symptoms indicate the need of a good tonic for stomach, liver and bowels, and I advise cardiol tablets as superior to calomel and of lasting benefits. Your druggist can supply in sealed package with directions thereon.

* * *

Miss Bertie L. asks: "What remedy can you recommend to reduce obesity safely? I want to reduce about thirty pounds."

Answer: I rely on five-grain arbolone tablets as being the most effective and convenient treatment to reduce abnormal fat. Druggists supply this in sealed tubes with complete directions. After the first few days a pound a day is not too much reduction.

* * *

Mr. G. R. writes: "Please tell me what to take to get rid of pimples, boils and bad blood. I know I need a constipation remedy."

Answer: It is probably neglect of constipation that has made your blood bad. Begin a thorough treatment of three grain sulpherb tablets (not sulphur tablets.) Continue for several months.

* * *

M. J. B. asks: "My hair is too oily and my scalp itches with dandruff and of late it is combing out too much. What is a good treatment?"

Answer: Obtain plain yellow minyol from your druggist in 4-oz. jars and apply as per directions. This cleans, purifies, cools and invigorates the hair and scalp, thus stopping the death of the hair. Dandruff and itching are at once relieved. Men and women all over the country now use it regularly.

"Laura" says: "Some time ago I contracted a very severe cold and cough. I have tried many remedies, but they do not seem to help me at all. I wish you would advise me what to do."

Answer: What you need is a laxative cough syrup, one that will drive the cold from your system. The following prescription will check your cold and cough: Get a 2½-oz. package of concentrated essence mentho-laxene and make according to directions on the bottle. Take a teaspoonful every hour or two or until your cold is better. This will relieve you in a very few days.

* * *

Miss C. W. B. asks: "I have tried for two years to diet so as to increase my weight and improve the quality of my blood, but in vain. Please prescribe for me."

Answer: Thin, scrawny, bloodless people need assistance in absorbing nutrition from the food eaten, and for this particular purpose I always prescribe three-grain hypo-nuclane tablets, a most effective preparation if regularly and persistently used, as it seems to increase the red and white corpuscles of the blood, thus affording health, strength and increased weight.

* * *

Geo. V. G. writes: "Perhaps you can prescribe for me, as I am at a loss to understand my condition. For the past year have suffered extreme nervousness, trembling and extremities are cold. Have poor appetite, am weak, listless and no ambition to work or seek recreation. Am tired all the time and in no sense the strong capable man I was a few years ago."

Answer: A powerful rejuvenating nerve medicine should revive the dormant sluggish condition and put new ambition and energy into your blood and nerves. Obtain three grain cadomene tablets in sealed tubes, take as per directions.

NOTE: For many years Dr. Baker has been giving free advice and prescriptions to millions of people through the press columns, and doubtless has helped in relieving illness and distress more than any single individual in the world's history. Thousands have written him expressions of gratitude and confidence.

ANOTHER WEEK FOR BAPTISTS' REVIVAL WORK

Pastors of Seven Churches Feel Encouraged Over Past Week's Work.

Two professions and two additions by baptism were the results of a sermon preached last night by Rev. L. J. Mims of Brownwood, who is conducting a revival at the Clay Street Baptist church in connection with the seven Baptist churches of the city, making a simultaneous effort in evangelism. The attendance was large. "Two Builders and Their Houses" was the subject of the evangelist's sermon. Twenty-six conversions and about twenty-five additions to the church are the results of the meeting to date. "The Glories of Salvation" and "The Home of the Damned" will be the themes of the morning and evening sermons.

At Brook Avenue.

"Old Time Religion" was the subject of Rev. J. E. Billington's sermon at the Brook Avenue meeting last night, which brought one conversion and one addition to the church's credit. The total additions thus far during the revival were six. "Stopping Half Way" and "Christ, the Power of God" will be the themes of the morning and evening sermons respectively. Special music will be featured at both services today. Miss Luna Walton will sing at the 11 o'clock hour.

"Begotten Again" will be the theme of the Seventh and James Street revival service this morning at 11 oclock which will be conducted by Rev. W. W. Melton. Nathan Morgan will direct the choir, and the quartet which sang last Thursday evening has been requested to sing at the morning service today. Fifteen additions, seven by baptism and the remainder by letter were the results of the revival last week. It will continue through another week.

At First Church.

Twenty-three additions were secured at the First Baptist church evangelistic campaign since the revival meeting began. Rev. J. M. Dawson is conducting the services. The pastor will deliver a message upon the subject "Perilous Patriotism," at the 11 o'clock hour and "Daniel Refusing in Babylon" at the evening service, which will conclude a series of sermons that he has been preaching on, "Crisis in the Lives of Old Testament Characters."

Plan Noon Service.

From 12:15 to 1 o'clock noon union services will continue at the Hippodrome theatre every day next week. The pastors of the seven Baptist churches which are conducting the simultaneous revival meetings have asked that Rev. J. M. Dawson and Rev. W. W. Melton lead the services. Rev. Melton will preach Monday. The evangelist singer, Chas. O. Cook, who is conducting the song service at the First Baptist church during the revival, will lead the singing.

Rev. J. P. Harrington will preach at the Provident Heights revival service today at 11 o'clock. Rev. J. W. Mayfield of Mart, who is assisting the pastor in the meeting, went home last night but will return for tonight's service and continue to preach through next week. Eighteen additions have been made thus far during the revival.

LEMONS BRING OUT THE HIDDEN BEAUTY

Make this lotion for very little cost and just see for yourself.

An attractive skin wins admiration. In social life and in business the girl or woman whose face and hands show evidence of constant care enjoys a tremendous advantage over those who do not realize the value of a healthy skin and a spotless complexion.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin.

Miller's Antiseptic Oil, Known as

Snake Oil

Will Positively Relieve Pain In Three Minutes.

Try it right now for Rheumatism, Neuralgia, Lumbago, sore, stiff and swollen joints, pains in the head, back and limbs, corns, bunions, etc. After one application pain disappears as if by magic.

A never-failing remedy used internally and externally for Coughs, Colds, Croup, Sore Throat, Diphtheria and Tonsilitis.

This oil is conceded to be the most penetrating remedy known. Its prompt and immediate effect in relieving pain is due to the fact that it penetrates to the affected parts at once. As an illustration, pour Ten Drops on the thickest piece of sole leather, and it will penetrate this substance through and through in three minutes.

Accept no substitute. This great Oil is golden red color only. Every bottle guaranteed: 25c and 50c a bottle, or money refunded. At Old Corner Drug Store and leading druggists.

PROPERTY OF INTERNED GERMAN SAILORS ON WAY TO GEORGIA

UNDERWOOD & UNDERWOOD

Marines guarding cars containing baggage of interned German sailors.

The German sailors interned at the Philadelphia navy yard, together with their baggage and effects, have been moved under guard of two companies of United States marines to Forts Macpherson and Oglethorpe in Georgia. The sailors are members of the crews of the Prinz Eitel Friedrich and Kronprinz Wilhelm. They have been placed in big stockades enclosed with electrified barbed wide.

ENDEAVORER OF BOSTON COMING TO WACO SOON

CLARENCE C. HAMILTON.

For the first time since the first Christian Endeavor society was organized in Waco, the Christian Endeavorers of this city and adjoining community are to have the privilege of meeting one of the most foremost Christian Endeavor officers and workers in the United States. Clarence C. Hamilton of Boston, representing the United Society of Christian Endeavor, will address the Junior Christian Endeavorers at the Central Christian church Tuesday, April 17, at 4 o'clock. The principal address will be at 8 o'clock at the same place. An informal banquet at the Y. M. C. A. at 6:30 o'clock is another feature.

The Unlucky Soldier.

"For a long time," said the fat plumber, "I have been trying to locate the most unlucky gink in the whole world."

"And now——"

"I have found him at last."

The thin carpenter showed curiosity.

"He is a soldier down on the border," the fat plumber continued.

"Do you mean that you think all of the boys down here are to be pitied?"

"I should say not!"

"Then you have to furnish a diagram with your joke."

"This particular soldier is wealthy and has everything he wants, back home."

"And still he is unlucky?"

"Yes. He wrote to his wife, one day, and told her she ought to do something for the boys at the front."

"Yes—"

"And the wife immediately bought 500 fresh fish and had them shipped to the border."

"That was fine of her."

"Now comes the unlucky part."

"I have been waiting for that."

"On the very day that the consignment reached the company the woman's husband happened to be assigned to duty in the mess tent——"

"Yes——"

"And blamed if he didn't have to clean every one of those 500 fish."—Youngstown Telegram.

That it is more easily cleaned is the claim of the English inventor of a table fork, the tines of which are diamond shaped instead of flat.

FITZSIMMONS FILLS A PULPIT.

In His First Sermon He Brought the Congregation to Tears.

(Portland Oregonian.)

Bob Fitzsimmons, one time heavy weight champion pugilist of the world, appeared for the first time in the pulpit as an evangelist at the First Baptist church of San Jose, Cal., recently. He broke down and cried in the midst of his sermon, and tears were general all over a packed house as he stumbled through the opening words of his address. He told the congregation that he had been through a hard fight with whiskey and that his wife left him because he made the saloon his headquarters.

"She left me and went to Los Angeles," he said, "and reporters showed me clippings, sayingthat she had tried to commit suicide. I told them I hoped she would try again. Then she came to Tacoma and I met her, and she 'knocked me dead.' We decided to go into evangelistic work together."

Fitzsimmons told a little of his ring career.

At the night service he lost the thread of his speech and was forced to revert to his ring career—a speech he has often delivered in vaudeville. It was full of good advice to the young about clean living.

Disappointed.

"Had any burglars out your way?"

"No," replied Mr. Growcher, "I have set my boy's new cornet and his shotgun where no burglars could fail to find them but so far I haven't had any luck."—Washington Star.

Repeat Advice About Spring Blood Purifier

Proves Many Serious Ailments Due to Poisons in System.

Says Nothing Better Than Sulphur, Cream of Tartar and Herb Extracts in Tablet Called "Sulpherb Tablets."

The wisdom of ages placed in a little sugar coated tablet—Sulpherb Tablets! Remember grandma's remedy—sulphur and cream of tartar mixed in molasses—it was a nauseous dose, but it saved thousands of lives by purifying the blood in the Spring. Thousands avoided rheumatism and serious fevers by taking it. Now you can get the benefits by taking a little tablet regularly containing the blood purifying, system regulating medicines that grandma relied on.

Constipation, inactive kidneys are overcome and catarrh, neuralgia, rheumatic pain and many other "poison symptoms" vanish after a course of Sulpherb Tablets. The best medicine for spring lethargy and thick, sluggish blood. Every package is guaranteed to satisfy or money back. 50c in sealed tubes of druggists everywhere. Be sure to get genuine Sulpherb Tablets (not sulphur tablets).

GIVING DEMOCRACY NO CHANCE.

Poor City Government Result of Stupidity, Not of the Principle.

(Chicago Post.)

A big city—whose affairs are more complex than those of any private corporation; whose revenue and expenditures are counted in many millions; whose administration affects the prosperity, health and morals of a million or more people—selects from among its citizens a politician, good fellow, joiner, and makes him its mayor. He appoints to office men of his own kind, chosen for personal or political reasons.

And then we wonder that extravagance, inefficiency, and worse, mark municipal government.

A big city elects to its council saloonkeepers, ward politicians and individuals who have never displayed a capacity for any useful occupation, and we wonder that the public interest is neglected.

A big city puts on its school board men who have no knowledge of educational problems, and we wonder that our schools are mismanaged.

It is the inefficiency of democracy, we say. Rather it is the stupidity of people who have never tried to realize the possibilities of democracy; who have never given democracy a chance.

It is no essential principle of democracy to ignore the necessity of training for service. But that is what we have been doing. We persist in regarding public positions as political jobs rather than as occasions for the employment of trained men in the doing of highly specialized work.

Mayor Mitchel of New York declares it to be his experience that trained men are practically unobtainable for municipal office. And that will remain true until we provide for their training and provide a popular demand for their service.

The Wisconsin legislature is considering a bill to establish in the state university a training school for public service under a professor of public administration.

Every university has departments of political theory, but this school will deal with the practical problems of government and administration—municipal engineering, lighting, street making and cleaning, transportation, parks and playgrounds, health, drainage, education and the rest. It will endeavor to develop the practical expert in such matters.

The plan is one of great promise in its possibilities. The growth of the commission and city manager idea is slowly creating the demand for such men. Some day Chicago will recognize the need and will no more think of electing an untrained politician mayor than a great railroad would think of taking a clerk from a corner grocery and putting him at the head of its traffic department.

LOCAL COURTS.

County Court—State of Texas vs. Al D. Brown, charged with assault and battery, found guilty and fined $100. Buck Campbell, charged with theft, was found not guilty. N. Davis pleaded guilty to theft and was fined $50 with thirty days in jail. No cases were tried in the district court yesterday.

AMICABLE LIFE AUDITS REPORT

Company Heads Set at Rest All Past Criticism.

At a meeting of a joint committee of the Chamber of Commerce and Y. M. B. L., held yesterday morning at 10:30 o'clock, to make a report upon the audit of the Amicable Life Insurance company, a report was submitted which was prepared after the audit had been submitted to the committee.

The committees were headed by the presidents of the two organizations, and the audit was made to set at rest criticisms which several weeks ago were heard concerning the company, and also to arrive at an understanding of the affairs of the company so that stockholders might be informed. The books were all opened to the auditors, it was stated, and the auditors' report stated that the affairs of the company were found to be on a sound basis.

The full findings of the committee are set forth in another place in this paper.

UNBELIEF.

"And why are you in prison?"

"I'm the victim of unbelief, ma'am."

"Unbelief?"

"Yes, ma'am. I couldn't convince the jury that I was telling the truth."—Detroit Free Press.

Good News for Fat Folks

IF YOU WANT TO REDUCE TEN TO SIXTY POUNDS EASILY AND QUICKLY, READ THIS.

Most fat people would like to enjoy healthful, normal weight. After unpleasant experiences with starvation dieting, drastic drugging and tiresome exercising, most of those burdened with surplus weight give up hope of ever finding relief.

At last a home treatment has been evolved, which is so simple that some may doubt its efficacy for that reason alone. But don't pass judgment until you know more.

A very easy requirement of this unique system of fat reduction is that you take ten deep breaths each morning and evening in the open air or standing by an open window. Take one oil of korein capsule after each meal and before retiring at night; also follow the other simple directions that come with the capsules.

This treatment often shows a noticeable reduction in a very few days. Its consistent use should greatly improve the general health, overcome sluggishness and reduce your weight to normal. Beautify figure; add to vitality and efficiency; become genuinely happy! The oil of korein capsules may be obtained at the drug store. It is certainly a happy feeling to have a lithe, natural figure.

STOMACH AGONIES DUE TO POISON

One Dose of Remedy Sweeps Pain Away—Hundreds of Thousands Restored.

Mayr's Wonderful Remedy is unlike any other. It sweeps the Bile and Poisonous Catarrhal Accretions from the System. Soothes and allays inflammation in the Intestinal Tract—the cause of serious and fatal ailments, such as Gall Stones, Appendicitis, Acute Indigestion, Cancer and Ulcers of the Stomach and intestines, Yellow Jaundice, Constipation, Gastritis, Autointoxication, etc., etc. In every locality there are grateful people who owe their complete recovery to Mayr's Wonderful Remedy. Thousands say it has saved them from the knife. The most thorough system-cleanser known. Contains no alcohol or habit-forming drugs. FREE booklet on Stomach Ailments. Address Geo. H. Mayr, Mfg. Chemist, Chicago. Better yet, obtain a bottle of Mayr's Wonderful Remedy from W. B. Morrison Drug Co.

Corns Shrivel and Loosen Off By Using Magic "GETS-IT"

2 Drops Do the Work. Forget the Pain, Lose the Corn!

"I tell you, before I heard of 'Gets-It' fingers!" I used to try one thing after another for corns. I still had them. I used bandages and they made my toe so big it was murder to put on my shoe. I used salves and other things that ate off more of the toe than they did the corn. I'd cut and dig with knives and scissors, but now no more fooling for me. Two drops of 'Gets-It' does all the work. It makes the corn shrivel and get so loose that you can just pick it right off with your fingers. There has been nothing new discovered for corns since "Gets-It" was born. It's the new way—the common-sense, simple, sure way.

Corns Drive You Mad? Try "Gets-It" and They'll Peel Right Off!

"Gets-It" is sold everywhere. 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Waco and recommended as the world's best corn remedy by Powers-Kelly Drug Co., O. K. Stetler, and Provident Drug Co.

CIRCUS PLANS OUT WHEN BIG SHOW UNLOADS

"Humbug Circus and 66 Ranch" Arrives Waco Saturday.

(By the Press Agent.)

The circus is here! The big tents, the gorgeous cages and all the other paraphernalia which goes to make up an honest-to-goodness circus, arrived in Waco yesterday on the Katy Limited, in charge of Henry Roquemore and George Mundlin, who have been engaged by the Waco Ad club to have charge of the equipment and rehearsals.

The cars were backed out on the siding, and the Weatherred Transfer company's big yellow wagons immediately began the task of transferring load after load of the equipment to the circus grounds at Tenth and Franklin.

This morning will find the tents all up and everything in readiness for the big event, which takes place on Tuesday afternoon and evening. The 185 buckets of water required to saturate the thirst of the elephant from Saturday until Monday was carried to the grounds Saturday night by the elephant trainers, L. L. South and S. P. Jones, in order that they might not have to perform this arduous duty on Sunday. Fortunately, the camel was watered in Dallas about the middle of the week, and will not require any water during his stay in Waco.

Oh! That Circus Comes—

Rehearsals are being held daily, and the performers are becoming very proficient. There will be so many things going on at once under the big tent that the services of two ringmasters are required to properly superintend the program. Mayor John Dollins, of course, is chief ringmaster, and he will be assisted by Charles Percival Link as announcer.

Two beautiful white horses have been secured for the bareback riders, Mademoiselle de Horseradish and Mademoiselle de Plug. Two prominent young Waco newspaper men will do thrilling feats of bareback riding in this act.

V. M. Washam, the renowned trainer of wild animals and vendor of docile automobiles, has greatly enlarged his manegerie during the past few days, until it now includes three elephants, two camels, a trained giraffe and numerous bears, tigers, lions, leopards and lesser species. These beasts will all be securely caged, so there will be no danger of their injuring any of the spectators.

Four fiery steeds, each capable of a speed of at least four miles an hour, will be driven in furious fashion in the great chariot race by Langdon Luedde and B. F. McPeak, as Ben Her and Ben Him.

But Once a Year.

J. C. Killgore, as "Buffalo Bull," assisted by "Parson" Davis as "Rain-in-the-Face," will astonish the assembled throng with marvelous feats of markmanship and horsemanship.

Rare musical talent is displayed in the concert program—those who have attended rehearsals declare that the talent is exceedingly rare. Harry Bahl and C. H. Anderson are directors-in-chiefs of this feature.

Of course every real sure-enough circus has a side show; and the big "66 Ranch and Humbug Circus" is no exception to the rule. In fact, Manager J. P. Everett of the side show claims that the side show is as big and attractive as the main circus.

The side show will present a marvelous aggregation of curious freaks and monstrosities, in variety limited only by the inventive genius of the promoters. There will also be a brilliant galaxy of star "performers," among whom are Little Omar, the Oriental dancer; Lallapalloza, the Australian wild woman; Yaakahula, the Hawaiian Hula dancer; Princess Whatsit, the Hindu snake charmer, and Percival Algernon, the strong man. Although there seems to be considerable reticence in some quarters as to who is taking these interesting parts, it is said that the side show cast include Oscar Moore, C. K. Chambers, Ross Padgitt, E. C. Blomeyer and several others equally well known to the local public.

Harry Swoboda, local athlete and wrestling promotor, is arranging an elaborate acrobatic act which will feature, among other things, the much-discussed Japanese art of Jiu-jitsu.

The free street parade will be a marvel of spectacular pageantry. The managers of the "66 Ranch and Humbug Circus" state that they usually make a charge of $5 to see this street parade, but that Mayor Dollins insists no charge be made in Waco, and the parade will therefore be absolutely free to anyone who can secure standing room along the line of march.

Two performances of the circus will be held in the big tents at Tenth and Franklin. The afternoon show will be at 2:30 and the night performance at 8 p. m.

WILLIAM BLACK COMING.

William A. Black of San Antonio, secretary of the Single Tax league of Texas, will visit Waco on May 16. Mr. Black will probably speak several times while here. He generally arranges a few dates while in Waco, speaking before various bodies of men.

Services in Waco Churches

Morrow Street Methodist.

Rev. H. L. Munger will preach at 11 a. m. and 7:45 p. m.

Sunday school at 9:30 a. m.

Young Peoples' society at 6:45 p. m.

Church corner of Morrow and Eleventh streets.

Clay Street Methodist.

Revival services will continue all next week. Rev. W. T. Singley of Fort Worth is doing the preaching. D. A. McGuire, pastor.

Herring Avenue Methodist.

The pastor, Rev. R. F. Brown, will preach both morning and evening. The subject for the morning hour is "The Perils of the City." The evening subject is "The Young Man of the Future." A special sermon to young man. At 3:30 in the afternoon the pastor will preach at Pecan Grove.

Sunday school at 9:45; Sealy Schaefer, superintendent. There will be special music by the Herring Avenue orchestra at the evening service.

Elm Street Methodist.

Sunday school at 9:30 a. m.

Rev. W. J. Mayhew of Lorena will preach at 11 o'clock. Rev. John R. Morris will preach at 8 p. m.

Two Wesley Bible classes from Temple expect to visit the Elm Street Sunday school this morning. They will launch with the young men's and young ladies' classes of Elm street at Cameron park. After lunch Sunday school work in general and Wesley class activities in particular will be discussed.

Provident Heights Baptist.

Revival continues. Sunday school at 9:30 a. m. B. Y. P. U. meets at 7 p. m.

The pastor will preach at 11 o'clock and Rev. J. W. Mayfield will preach at 8 p. m.

First Baptist.

Today at the First Baptist church, South Fifth and Webster streets, Rev. J. M. Dawson will preach at 11 a. m. and 8 p. m. Bible school at 9:30 a. m., P. S. Durham, superintendent.

After the classes the pastor will hold a short evangelistic service and at 11 o'clock will preach on the subject "Perilous Patriotism," and at night on "Daniel Refusing in Babylon." The chorus choir will be under the direction of Professor Cook of Abilene, who is leading the singing during the meeting.

Columbus Street Baptist.

Rev. Dr. F. S. Groner will preach at 11 o'clock. The duet, "The Lord Is My Light," by Dudley Buck, will be sung by Miss Pauline Crawley and Mr. Pool.

At the evening hour there will be a special musical program rendered by the choir.

Seventh and James Baptist.

Sunday school at 9:30 a. m. Special services in junior department.

Preaching at 11 a. m. and 8 p. m. by Rev. Melton, subject for morning hour, "Begotten Again."

The revival meeting will be continued through the following week, preaching each evening at 7:45.

Christian Church.

Lord's Day, April 15.

Bible school, 10 a. m.

Preaching at 11 a. m. and 8 p. m.

Morning subject, "Jesus Knocking at the Door." Evening subject, "The Gospel Invitation."

St. Paul's Episcopal.

7:30 a. m., Holy Communion.

9:30 a. m., Sunday school.

11 a. m., Morning prayer and sermon by the rector, Rev. W. P. Witsell.

Offertory anthem, "Hark! Hark, My Soul," Shelley.

7:45 p. m., evening prayer and sermon by the rector.

Offertory anthem, "If Ye Abide in Me," Nevin.

Fred E. Eggert, organist and choirmaster.

Christian Science.

First Church of Christ, Scott building, Eighth and Washington streets. Services today at 11 a. m., subject, "Are Sin, Disease and Death Real?" Wednesday evenings testimonial meeting at 8 o'clock. A free reading room adjoining the church auditorium, open daily, except Sunday and holidays from 12 to 5 p. m. The public is cordially invited to all these services and to visit the reading room.

Chorus, "From Afar, Gracious Lord," choir.

Sermon by pastor.

Pianist, Mrs. G. M. Walden; director, Prof. Geo. M. Brierley. Baptismal service, 6:30 p. m.

Austin Avenue Methodist, Twelfth and Austin streets:

Sunday school at 9:30, C. C. Lewis, superintendent. Preaching at 11 a. m. by the pastor, Dr. Frank P. Culver. Evening service at 8 o'clock, preaching by the pastor. The following musical numbers will be given:

"More Love to Thee"—Speaks. "How Beautiful Are Thy Dwellings" (trio)—Pflueger. Evening: "The Day Is Ended"—Marks.

HOME GUARD TO MEET.

At the general meeting Monday night of the Waco Home Guard permanent organization will take place, and four companies will be formed.

With the formation of the four companies drilling will begin. Thus far only a temporary organization has been in evidence. Elections will be held for the various companies Monday night.

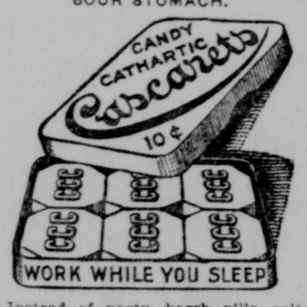

Y. M. B. L. DIRECTORS TO MEET.

The matter of a mobilization camp near Waco and of a government training camp in case Colonel Roosevelt should get his plan on foot, will be considered by directors of the Y. M. B. L. at the regular meeting of directors Tuesday night. Also trade matters will be considered and delegates or representatives to the meeting of the state Y. M. B. L. at Houston will receive attention.

BEST LIVER AND BOWEL LAXATIVE FOR FAMILY USE

CASCARETS REGULATE WOMEN, MEN AND CHILDREN WITHOUT INJURY.

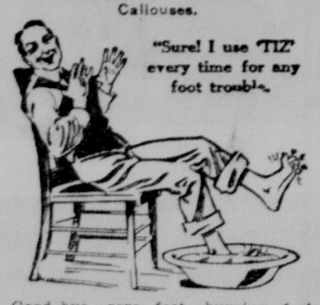

TAKE WHEN BILIOUS, HEADACHY, FOR COLDS, BAD BREATH, SOUR STOMACH.

Instead of nasty, harsh pills, salts, castor oil or dangerous calomel, why don't you keep Cascarets handy in your home? Cascarets act on the liver and thirty feet of bowels so gently you don't realize you have taken a cathartic, but they act thoroughly and can be depended upon when a good liver and bowel cleansing is necessary—they move the bile and poison from the bowels without griping and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine, the headache, biliousness, bad breath, coated tongue, sour stomach, constipation, or bad cold disappears. Mothers should give cross, sick, feverish or bilious children a whole Cascaret any time—they are harmless and safe for the little folks.

"TIZ"--A JOY TO SORE, TIRED FEET

Use "Tiz" for Aching, Burning, Puffed-Up Feet and Corns or Callouses.

Good-bye, sore feet, burning feet, swollen feet, tender feet, tired feet.

Good-bye, corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony. "Tiz" is magical, acts right off. "Tiz" draws out all the poisonous exudations which puff up the feet. Use "Tiz" and wear smaller shoes. Use "Tiz" and forget your feet misery. Ah! how comfortable your feet feel.

Get a 25-cent box of "Tiz" now at any druggist or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

Prevent Flood Waters and Brazos Overflows

Declaring it is possible to stop all flood waters in the Upper Brazos from flowing by Waco, and to prevent overflows from the upper reaches ever touching this section, A. D. Jackson has returned from a trip of investigation on this river above Waco. He accompanied Col. J. C. Sanford of New Orleans, engineer in charge of a great district which includes the Brazos. An investigation disclosed sites for dams and reservoirs sufficient to impound waters of all tributaries of the Brazos above Waco, said Mr. Jackson, who regards the matter as one of great importance.

Hard Wheat.

"I just stopped to tell you about that flour you sent me the other day," said Mrs. Newlywed.

"Why, madam," answered the grocer, "that was the best flour I carry in stock. What was the matter with it?"

"Matter, indeed! Why it was so tough my husband couldn't eat the biscuits I made with it."—London Fun.

TIME ..6 ..6 ..6 ..6

Remarkable.

One time when Whistler was walking about London with a friend, he was accosted by an unspeakably dirty street urchin who asked him for a penny.

"How old are you, my boy?" asked the artist.

"I'm seven, sir," replied the gamin.

"Oh, no, my lad, you must be more than seven years old."

"Gar on!" answered the youngster pertly. "I ain't no more nor seven."

Whistler turned to his friend. "Do you really believe," he inquired anxiously, "that he could have got as dirty as that in seven years?"—Everybody's Magazine.

Police Salary Increase Becomes Effective Today

The increase in salaries granted the police department of the city will become effective today, April 15. Mounted men will receive $100 per month, patrolmen $85 and speed officers $90. This is in conformity with action taken by the city commission several weeks ago.

German experts have succeeded in sending wireless messages through the earth between mines 1,600 feet deep and a mile and a half apart.

Report of Chamber of Commerce and the Young Men's Business League on the Amicable Life Insurance Co.

To the stockholders of the Amicable Life Insurance Co. and to the public:

A few weeks ago our attention was directed to some adverse criticism of the management of the Amicable Life Insurance Company, of this city, which criticism, if not founded upon facts, seriously tends to weaken, if not entirely destroy, one of Waco's greatest institutions.

In order that no injustice might be done to any of the parties involved in that controversy, but that the stockholders might know the true condition of the affairs of their company and thus be in a position to act intelligently toward protecting their own investment and in doing so guaranteeing to Waco the maintenance of an institution the beginning of which marks an epoch in the commercial history of this city, the directors of the Chamber of Commerce and the Young Men's Business League authorized their presidents to appoint a committee to take immediate steps towards securing a complete audit of the books and records of the company by competent auditors whose reputation was beyond question, or even criticism.

In line with that purpose, these committees called on the officers of the Amicable Life Insurance Company and advised them of the action of their respective organizations and asked permission to employ auditors to audit the books and records of the company, with the understanding that the report of such auditors would be furnished to the stockholders and the public generally. This request was readily granted and the firm of Marwick, Mitchell, Peat & Co., auditors with an international reputation, were employed to make a complete audit of the affairs of the company.

This examination has been made and the report thereon showing the condition of the affairs of the Amicable has been furnished to this committee and the same is now a part of the records and archives of the Chamber of Commerce and the Y. M. B. L., and is open to inspcetion to any stockholder of the Amicable Life Insurance Company.

It is not practical in view of the length of the report to have same printed in full, but we are gratified to say that the result of this examination conclusively shows that the Amicable Life Insurance Company is on a sound basis.

We quote from the report of the auditors:

"We are pleased to report that we found the books and records of the company in good condition.

"The value of the capital stock as per the balance sheet is $18.75 per share. If the non-admitted assets are included at the figure as shown, this value is increased to $19.40 per share.

"It should also be pointed out that the stockholders have an equity in the amount of insurance in force, which on December 31, 1916, was $16,130,362. Without an investigation of the business, by experts, it is not possible to estimate its true value, but it is generally accepted amongst life insurance men that the cash value of good average business is about $10 per $1000 insurance. On this basis the company's outstanding insurance in force may be regarded as worth approximately $165,000.

"After taking into consideration the value of the admitted and non-admitted assets, together with the equity of the stockholders as mentioned above, the value of the capital stock is $21.41 per share."

The financial standing of the company on December 31st, 1916, as is shown by the report of the auditors, is as follows:

BALANCE SHEET.
As at December 31, 1916.

ADMITTED ASSETS.		LIABILITIES.	
Mortgage Loans	$ 944,934.31	Policy Reserve—Lee Reinsurance $7749....	$ 905,548.99
Real Estate and Building	920,753.59	Policy Coupons With Accrued Interest Left to Accumulate	120,569.78
Cash in Banks	551,220.44	Death Claims to Be Paid in Installments	5,329.00
Policy Loans Within Reserve	100,736.17	Death Claims Reported, No Proofs	6,000.00
Premium Notes and Net Uncollected and Deferred Premiums Within Reserve	94,658.41	Interest, Rents and Premiums Paid in Advance	35,183.79
Accrued Interest and Rents	49,284.52	Taxes Payable on the Business of 1916	31,462.70
		Other Liabilities—	
		Capital Stock, Authorized and Issued, 82,000 Shares at $10 each $820,000.00	
		Surplus ..... 717,144.00—	1,537,144.00
		Total Liabilities	$2,661,587.44
		NOTE—Assets Not Admitted:	
		Furniture and Fixtures	$51,823.50
		Premium Notes i nExcess of Net Value	1,996.70
Total admitted assets	$2,661,587.44	Total Assets Not Admitted	$53,820.20

The Chamber of Commerce and the Y. M. B. L. have had this audit made upon their own motion, upon the suggestion of men who are in no way financially interested in the Amicable Life Insurance Company, but whose sole purpose is to protect the integrity of the commercial institutions of Waco.

The commercial organizations of this city wish to take this opportunity to say that they stand ready now, as they have in the past, to extend a cordial welcome and to lend a helping hand to any man or association of men who desire to come among us and assist us in building enterprises worthy of this great city in this wonderful state. Their interests and their progress shall be our interests and our progress.

It is the purpose of the commercial organizations of this city to create and maintain the confidence of the outside investor in Waco enterprises. And we invite only those enterprises whose merit will permit of our being loyal to them and about whom we can say to any man, anywhere, the enterprise is a meritorious one, the field is one that will permit of success.

Respectfully submitted,
WACO CHAMBER OF COMMERCE,
E. W. MARSHALL,
W. G. LACY,
J. M. PENLAND,
Committee.
YOUNG MEN'S BUSINESS LEAGUE,
ROBT. B. DUPREE,
WILLIAM L. EDMOND,
FORREST E. GOODMAN,
Committee.

WACO BUNCHED 2 HITS, WALK- BEAT DALLAS

Dallas Errors in the Seventh Aid Navigators to Victory Saturday.

Dallas, April 14.—Waco bunched two hits with a walk and two Dallas errors in the seventh inning today and won 5 to 3. Seven doubles and one triple kept the outfielders busy. Score:

Slugger-Y. M. H. A. Game at Katy Park Sunday

The regular semi-monthly meeting of the Young Men's Hebrew association will be held tonight in the basement of Temple Rodef Sholem, beginning promptly at 8 o'clock. Business matters of importance will be discussed and several entertainments are to be planned for. An interesting program has been arranged to follow the business session. It will consist of piano solo by Bernard Sachs, talk by W. W. Naman, vocal solo by Harry Levy, paper on "Russian Jewry" by Morris Kolber, piano solo by I. P. Fred and vocal solo by Monte Lawrence.

At Katy park this morning at 9:30 o'clock a matched game between the Sanger Sluggers and the Y. M. H. A. Braves will be played. Manager Strauss has been putting the boys thru strenuous practice and the team is now in fine shape.

PIRATES BEAT BAYLOR

Slow Game at Georgetown Yesterday.

Special to The News.

Georgetown, April 14.—In a slow game with few features, Southwestern defeated the Baylor Bears 9 to 6. Edens, pitching for the Pirates, allowed ten hits, walked five men and struck out five batters. Duncan was knocked out of the box for Baylor and relieved by Farrington who went the remainder of the game. The batteries: Baylor—Duncan, Farrington and Kellog. Southwestern—Edens and Brauer. Score 9 to 6. Time of game 2:10.

ALL TEAMS PLAY HEAVY SCORING IN AMERICAN

New York, April 14.—Barry sent a left-hand pitcher against New York today for the third straight time, but New York rebelled and knocked Pennock out of the box in the sixth inning, winning their first game of the season 7 to 2. Score:

MERIDIAN HIGH WINS.

Special to The News.

Meridian high school defeated Walnut Springs high school yesterday on the latter's diamond by the score of 9 to 0. The feature of the game was the pitching of Hughes for Meridian, who allowed only two hits and secured a large number of strike outs.

TEMPLE HIGH TAKES HONORS AT TRACK MEET

Over 100 athletes from four counties competed in the university district interscholastic track meet, held on the Baylor athletic field yesterday afternoon. Temple won first place with a record of fifty-six points. According to all indications this team is going to be the favorite for the state championship.

Marlin carried off second honors with thirty-one points, Waco third place with thirty. Rosebud made six points, Mart five and Gatesville scored two times. In class B (schools under 600 scholastic population), Tokio won first place, McGregor second and Chilton third.

Waco won the relay in fast time, three minutes and thirty-one seconds. Waco also won first place in the 220-yard hurdles and tied for first in the high jump at five feet and five inches.

Results by events in Class A follow:

One hundred and twenty yard hurdles, Irvin, Temple; pounds, Waco; Knox, Waco; time fifteen and four-fifths. Second event, 220-yard hurdles, Pounds, Waco; Snell, Marlin; Kunke, Marlin; time, 29 2-5. Third event, 100-yard dash, Bergin, Temple; Connally, Marlin; Levy, Marlin; time, 10 2-5. Fourth event, 1-mile run, Weems, Temple; Tabb, Waco; Wright, Temple; time 55 4-5. Fifth event, 440-yard run, Patrick, Marlin; Eichelberger, Waco; Furst, Marlin. Sixth event, 220-yard dash, Rowland, Temple; Levy, Marlin; Patrick, Marlin; time 25 2-5. Seventh event, 880-yard run, Weems, Temple; Miracle, Marlin; Scudder, Waco; time 2:18 2-5. Eighth event, relay, Waco team, Tabb, Scudder, Pounds and Eichelberger; Temple second and Marlin third; time 3:31.

Field events: Broad jump, Irvin, Temple; Smythe, Mart; Bryant, Temple, 19 feet, 7 1-4 inches. High jump, Knox, Waco, Sapp, Rosebud; Irvin, Temple, height, 5 feet 5 inches. Shot put, Woffard, Temple; Levy, Marlin; Beckers, Temple; distance 36 feet and 8 3-4 inches. Pole vault, Keeling, Temple; Megarity, Waco; Webb, Temple; height 10 feet and four inches.

These results are very gratifying for Waco, considering the fact that all of them except one are first year men. They expect to take this team to Dallas for the S. M. U. North Texas meet Friday and Saturday. This meet is only preparatory to the final state championship meet to be held in Austin May 4 and 5.

LEOPOLD-HOOKS BEAT GHOLSON IN FAST GAME

Yesterday afternoon the Leopold & Hooks "Y" baseball team went to Gholson for a game on the latter's diamond.

The game opened with the L. & H. boys at the bat, with Birkhead up as lead-off man. Birkhead was walked to first, but caught off, when the pitcher balked. Leo Meyer went out on a liner to short, Lambert Meyer flew out to centerfield, retiring the side. High, the first man up for the Gholson team, struck out, Crow went to first on a hit, when Salter came up with a drive to second base, and went out on a double play, Oates to Birkhead to Hunter. Second Inning—Prinzing hit over third base, Oates sacrificed Prinzing to second, Hunter hit to deep center, but was caught out on second, Weathers hit thru short stop, Hill flew out to right field. The game rocked along 0 to 0 until the beginning of the fourth when Birkhead hit over second base, Leo Meyer popped up, Lambert Meyer hit over third, advancing Birkhead to second, Prinzing sacrificed Birkhead to third, and Oates brought in the first run with a clean hit to right field. The Gholson boys came back in this same inning, tieing up the score 1 to 1, when Bresler hit for a two-bagger and Ryals followed with the same, the other three men waived. The score remained 1 to 1 until the first of the eighth, when Weathers started ball to rolling with a two-bagger to deep center, Hill hit to right field, advancing Weathers to third, Priddie hit to right, bringing in one run; Birkhead hit over third base, Leo Meyer hit to center, Hunter hit to deep center, Oates hit thru third and when the inning was over the boys had knocked Chatam out of the box, Hopkins relieving him. The game closed with the L. & H. team leading 6 to 1.

The line-ups:

T. C. U. TO PLAY BAYLOR

Two Games, Monday and Tuesday, Carroll Field.

Texas Christian university baseball team arrives in the city tomorrow for a two days' contest with the Bears of Baylor on Carroll field. The games are scheduled for 4 o'clock Monday and Tuesday afternoon. These two games will probably close the season of the Bears at home, as the games with Texas and Oklahoma A. & M. will very likely be cancelled on account of the men of these two schools going into the army as officers. All study hours of the two latter schools have been shortened, allowing more time for drilling of the prospective officers now attending school.

Cooper Grocery Company to Play Prairie Hill

Cooper Grocery company, city league, team will play the Prairie Hill baseball club this afternoon at Edgefield park. There is no league game in Waco today and a large crowd is expected to be at the contest. The game will be called at 3:30 p. m. The line-up is as follows: Cooper Grocery Co.: Costley, 1b; Williams, 3b; Caples, lf; Glenn, ss; Traub, cf; Burk, 2b; Weathers, c; McDaniels, rf; Erwin, p; Lee, p; Pearson, utility. Prairie Hill: Hargrove, 2b; H. Wayland, c; Roberts, rf; Calvery, cf; J. Wayland, ss; Jackson, 1b; Moody, 3b; Jones, lf; R. Wayland, p; Oliver and Bower, utility.

PITCHERS' DUEL AT CINCINNATI, ST. LOUIS WINS

Cincinnati, April 14.—In a pitchers' duel between Watson and Schneider, St. Louis won from Cicinnati here today 2 to 1. The score:

WEEK'S FILM AND SHOW NEWS OF WACO

Majestic vaudeville stars at the Auditorium Wednesday: Top, left to right—Allan Dinehart in "The Meanest Man in the World;" Bert Fitzgibbon, "Original Daffy-Dil;" Frank Crumit, "One-man Glee Club;" Martin and Fabbrini in "A Flight of Fancy." Bottom, Mr. and Mrs. Gordon Wilde, Shadowgraphists.

A.—POPULACE OF THE MOORISH CITY BEFORE THE PALACE OF THE SULTAN IN WILLIAM FOX'S MILLION DOLLAR PICTURE BEAUTIFUL "A DAUGHTER OF THE GODS." B.—ANNETTE KELLERMANN, THE WORLD'S GREATEST SWIMMER, WHO IS THE STAR IN "A DAUGHTER OF THE GODS." C.—ONE OF THE DANCING GIRLS WHO LEND BEAUTY AND GRACE TO THE SULTAN'S COURT, AT THE AUDITORIUM, APRIL 20-21.

HIPPODROME PROGRAM.

Sunday, Monday, Tuesday—"Idle Wives," six-reel Universal special, with Lois Weber and Mary McLaurin. Also Pathe News.

Wednesday—"A Mortal Sin," five-reel Metro, with Viola Dana.

Thursday—"Patria," chapter 12, with Mrs. Vernon Castle. Also "Great Secret," chapter 12, with Francis X. Bushman and Beverly Bayne.

Extra, Wednesday and Thursday—"Her Finishing Touch," one-reel Triangle comedy.

Friday—"The Girl of the Timber Claim," 5-reel Triangle, with Constance Talmadge.

Saturday — "Greed," third of "Seven Deadly Sins," with Nance O'Neil.

Extra, Friday and Saturday, "Margie's First False Step," two-reel Keystone, with Charles Murray and Louise Fazenda.

"GREED" AT HIPPODROME.

It is said that Shirley Mason, one of the McClure stars featured in "The Seven Deadly Sins," the third of which is "Greed" and will show at the Hippodrome theatre Saturday and Sunday, is such a happy little girl that she finds it difficult to shed real tears in her emotional scenes. Sad, soft music usually is employed to bring sorrow to her little souls during such scenes. Nance O'Neil, the star of "Greed," during one such scene remarked that Shirley has never had the proper experience to bring tears, and that when most actresses want to weep all they have to do is to think of what the critics said about them when they were first breaking in. Miss O'Neil plays the role of a society woman of wealth and influence who is blackmailed by a broker who knows that when younger and a telephone operator, she accepted a check for $10,000 as a bribe to keep quiet concerning an illegal deal in the market. The broker is influencing Eve Leslie, her little friend, to plunge in the market, but holds her powerless to stop him. The climax comes when after a gay party a murder mystery is uncovered and Adam Moore is accused. The story in detail is one of the most tensely exciting of the seven, and will be sure to please because of its clever story and splendid cast.

WEEK'S NEWS OF REX PROGRAM.

Monday and Tuesday—Alice Brady in "The Hungry Heart."

Wednesday and Thursday—George Walsh in "High Finance," a Fox production.

Friday and Saturday—Clara Kimball Young in a new edition of "Trilby."

An unsurpassed program of pictures is offered Rex patrons. "The Hungry Heart," with Miss Alice Brady in the leading role, is the first offering, showing Monday and Tuesday. Taken from the famous play, "Frou-Frou," this entrancing offering is extremely effective. A consistent, highly interesting story is told in a very pleasing manner. Miss Brady wears the very latest thing in clothes, made by New York's highest priced dressmakers, for this reason every lady will be particularly interested.

George Walsh in "High Finance" is a William Fox production, a rollicking comedy drama that will please, yes, more than please every patron on Wednesday and Thursday. It's the second William Fox picture to be shown at the Rex, all of which are now coming exclusively to this theatre.

Friday and Saturday, Clara Kimball Young in a new edition of "Trilby," new scenes, new sub-titles, and altogether a very satisfactory story for this most popular screen star.

"THE MORTAL SIN" AT HIPPODROME.

The aided interest of a story within a story is a feature of "The Mortal Sin," the new Metro picture showing at the Hippodrome theatre Wednesday only. Sweet-faced little Viola Dana is the star of this production and her role is one difficult of portraying, but carrying sympathetic interest throughout. She is seen as the young wife of a novelist who has not yet attained fame and whose health is failing because of his work in a publishing house during the day and application to his writing far into the night. In vain the devoted girl pleads with him to cease "burning the candle at both ends;" his heart is set on the completion and publishing of his work. The publisher, however, refuses to accept the novel because of his objections to the ending, and the young writer gives up to a bad spell of fever. Jane, the wife, then takes the work and seeks to have it published. Her sacrifices and her difficulties are vividly portrayed, and the climax leading to the surprising ending is a powerful one. Miss Dana is supported by an excellent cast, the leading man being Robert Walker. Augustus Phillips, Henry Leone, Lady Thompson, Louis B. Foley and many others have good roles in the support.

MAJESTIC OFFERS GENUINE "NUT."

All the squirrels in town are going to be caged Wednesday. For the nuttiest nut in America holds forth then at the Auditorium, with a brand-new assortment of irresistible squirrel food.

He is the one and only Bert Fitzgibbon, the original "Daffydil of Vodevil," who makes bankers human while they laugh at his antics and throws plain people into paroxysms of mirth with his eccentricities.

The act that Bert Fitzgibbon offers on this tour of the Interstate is entirely different from that in which he was seen last season, when he scored one of the most notable comedy hits of the theatrical year. He is expected to be one of the best drawing cards of this season.

Bert Fitzgibbon can be seen over and over again without growing tiresome, because he never does the same thing twice. He cannot sing, he cannot dance, he cannot do any number of things that a comedian is expected to do—but he can make hilarity reach the tidal wave stage immediately upon his appearance and keep mirth at that pitch until he chooses to leave the stage.

There is not, and never has been, another funster like Bert Fitzgibbon, and there probably never will be. For mimics cannot mock the thing that has made Bert world famous, because it is his personality that has won him success and all who have attempted to impersonate him have failed.

In "The Meanest Man in the World," Allan Dinehart, who several weeks ago offered "The Highest Bidder," returns to the Auditorium as the headliner of Wednesday's notable program. He is the first artist ever to be booked for two consecutive tours of the Interstate circuit. "The Meanest Man in the World" never has been offered at the Auditorium.

Dinehart, in "The Meanest Man in the World," is declared to be seen in the greatest role he ever played. Upon his first tour of the Interstate circuit, in "The Highest Bidder," there were three people in his company, including himself. In "The Meanest Man in the World," Dinehart appears only with lovely, titian-haired Marie Louise Dyer, who was his leading lady also in the other sketch.

"The Meanest Man in the World" is declared to be one of the most delightful playlets ever produced. The plot is about a young attorney, who, considering himself "the meanest man in the world," essays the collection of a big account.

But a wonderful girl comes into the deal and then a comedy, sparkling, scintillating, with a delightful touch of romance and pathos, is enacted. And the young attorney demonstrates whether he is "the meanest man in the world."

Local theatregoers are agreed that "The Highest Bidder" was a wonderful little playlet. But they'll also agree that "The Meanest Man in the World" is twice as wonderful.

Frank Crummit, "The One-Man Glee Club," is a graduate of the University of Ohio, where he was a prominent figure in athletics and from which college he graduated with honors. He is a Phi Delta Theta. As one of the big features of this week's program, Crummit is playing a return engagement in a new cycle of songs and stories, with a touch of instrumental music, presented in novel manner and irresistible fashion. He is expected to be a bigger hit upon this visit than last year, which is some expectation.

MILLION DOLLAR FILM AT AUDITORIUM

In "A Daughter of the Gods," the William Fox $1,000,000 picture beautiful, featuring Annette Kellerman, the coming attraction at Auditorium theatre April 20 and 21, may be seen, some results of the best engineering feats ever attempted by an individual.

In order to attain a perfection of artistic detail, Mr. Fox caused hills to be razed that plains might be made for the accommodation of spear bearing warriors, and a river's course diverted that a mountain torrent might form the finishing touch to a scene in which gnomes govern.

This last piece of engineering was seen by several representatives of the British government, located at Kingston, Jamaica, who, after a thorough examination of the same, described it as one of the most pretentious works of the kind ever undertaken successfully by one man. To accomplish these results, Mr. Fox found it necessary to take from the United States all the way to the tropics a corps of expert engineers and a working force of skilled laborers, which in itself cost a fortune.

In Gnomeland, where the most perfect woman in the world is taken captive—one of the most important scenes in this screen fantasy—there is something that will appeal to the younger folk; for, amid the bewildering thickets of this mythical kingdom of dwarfs may be seen the little folk carrying on their form of government, religious worship and their daily household duties, which for the purpose, have been carried to the extremes of fantasy.

The engagement in this city will positively close on the date originally set as contracts with other cities must be filled, and the ever increasing demand from all over the country for this picture make it imperative that no extension of time be made.

Alice Brady in "The Hungry Heart," at the Rex.

ORPHEUM'S NEW OFFERING

One night a little five year old girl named Marie Osborne went to bed. She was unknown except to a privileged few. In the next twenty-four hours she had become famous. The Pathe Gold Rooster play, "Little Mary Sunshine," in which she was the star, had been shown that day in all the big cities of the country. Soon the vast world-wide organization of Pathe began to send her in round tin boxes to the ends of the earth, and the entire civilized globe took her to its collective heart. Then came "Shadows and Sunshine," and "Joy and the Dragon" and "Twin Kiddies," in which she was again starred. Her latest vehicle is entitled "Told at Twilight," and is to be shown at the Orpheum theatre April 16, 17 and 18.

It is a wonderful story of laughter, tears and thrills in which Little Mary Sunshine as she has now become known, wins the heart of a wealthy old "grouch" and saves her father from all sorts of trouble.

"IDLE WIVES" AT HIPPODROME.

"Idle Wives," a dramatization of James Oppenheim's nocel by the same name, shows at the Hippodrome theatre today and tomorrow, and surely it will be adjudged by the patrons as one of the truly great moving pictures ever made. It is a story of life, a beautiful story on the one hand, a breakinng tragedy on the other, and as a whole just as life is and deals with different ones of the world's children. There is the woman who marries wealth and is in nature far finer than the mere hollow display of wealth and live. Lois Weber and her husband, Philip Smalley have added another idleness; the woman who marries a poor man, and through rough, hard work and despairing poverty almost loses sight of her blessings. There is the young girl who seeks pleasure in ways she knows not of, but who turns back at a mother's pleading. Then there is the young girl who does not turn back but slips from a father's kindly-meant but stern-seeming rule and awakes to find pleasure gone and the dregs of the cup the bitterest gall. Mary McLaren, Lois Weber, Philip Smalley, Ben Wilson, Maude George, Neva Geber and Seymour Hasting are but a few of the splendid artists who portray the roles of the very real people of the story and make them live.

Francis X. Bushman in Chapter 12 of "The Great Secret," Hippodrome, Thursday only.

Viola Dana in "The Mortal Sin," at the Hippodrome Wednesday only.

It Just Works Like Magic On The Skin!"

"Easy Secrets That Make the Mirror Tell Wonderful Stories of Beauty," Says Valeska Suratt, the Fashion and Beauty Queen of America's Stage.

BY VALESKA SURATT.

THE possibilities of an exquisite complexion are in every skin. It exists in your face, just the same as in that of the most beautiful woman in the world. It's simply that the beautiful tints of the skin are hidden as by a veil. Some of the results accomplished in a few days by a method which I adopted long ago read almost like a fairy tale, the magic of it is so astounding. And I find that it succeeds even on the most muddy, disfigured, ugly skins, making blemishes disappear as clouds flee from the face of the sun. A skin, spotless as the purest marble, adorable to the eye and the touch—that is the sure result I can promise you. Mix the formula yourself at home. It takes but a few moments to make and is far more economical than any prepared cream you can buy at the stores. Now, get one ounce of zintone from the drug store and mix it with two tablespoonfuls of glycerine in a pint of water. A cream is quickly formed, and there you have this little wonder ready to apply.

* * *

MARIONETTE—I wasted several years of my life using up "hair tonics" that did about as much good as water. Finally I devised my own formula, which has produced remarkable results. I'll say here that I am known as the only woman on the American stage who needs to make no use of hair switches or other makeshifts. So you can get an idea now of what this formula has brought me. My friends are a unit in saying it is magic in its power, making hair long, silky and beautiful, without fail and stopping falling of hair. Just mix one ounce of beta-quinol with a half pint each of water and alcohol, or one pint of bay rum instead of the water an dalcohol. It is then ready to use.

* * *

MRS. P. E. C.—Cheer up, you can go to that dance, without blackheads. Get from your druggist some powdered neroxin. Sprinkle some on a wet sponge. With this rub the blackheads rather briskly for a few moments. Now prepare yourself for a surprise. Look in the mirror and the blackheads will be gone. This is the only thing that will do this.

* * *

MAGNETIC—Brittle hair, you know, is caused by alkali in soaps and soap shampoos. I think too much of my hair to use any of these things. If you want a head-wash that is positively glorious, that dissolves away every bit of greasy film from the hair and scalp as no soap shampoo can ever do, just dissolve a teaspoonful of eggol in half a cup of water and use. In this way from 12 to 15 head washes can be obtained from twenty-five cents worth of eggol.

* * *

MISS ANXIETY—Why, it's a shame for you to have all those wrinkles even at your age. So if you only knew how easy it was to get rid of them, yes, wonderfully easy. There are thousands who know how easy it is by the use of the formula which I will give here. You'll see the difference not in months, but in days. Those wrinkles about the eyes and sagging of flesh will disappear, your skin will become vigorous and plump. You'll not fail if you try it. It's simple, and remarkably economical. To a half pint of water, add a tablespoonful of glycerine and two ounces of eptol. Use it liberally every day.

* * *

ONE BROW—Two eyebrows grown in one certainly look "fierce." Whatever you do, don't use any of the "burning" hair removers sold. Use a common-sense method, and that is to dissolve away those superfluous hairs on the face, arms, in fact anywhere on the body. It never fails and never leaves a red "burned" spot. The skin is left smooth and soft. You dissolve away the hairs by moistening them with sulfo solution in a few moments. This removes every hair, no matter how thick, or how sensitive the skin.

* * *

MRS. F. T. C.—It is very seldom a druggist hasn't sulfo solution for dissolving away superfluous hair quickly and surely, but should you still find difficulty in obtaining it, just send the price, one dollar, to "Secretary to Valeska Suratt, Thompson Bldg., Chicago," and my secretary will see that you are supplied.

* * *

HOME LIKE—So you heard about them, too. Yes, the new "movie" pillow tops in orange and purple, with my photograph and signature in the center, are certainly elegant. I have made arrangements to supply a certain number of them at the special price of fifty cents each. Just send the price to my secretary as indicated in the address in the preceding paragraph.

* * *

CHALK-CHALK—That's the big trouble, all too chalky. So I have now my own face powder, if you please, finer in texture than anything ever before produced. It stays on beautifully, gives a soft flesh and brunette, and called "Valeska Suratt Face Powder."

* * *

MRS. LOST—The only safe way to try for bust development is to dissolve two ounces of ruetone and half a cup of sugar in half a pint of water, and of this mixture take two teaspoonfuls after meals and at bedtime. Nobody can promise you success absolutely, but this is the surest way.

* * *

MRS. G. H. L.—For arm pit perspiration, get from your druggist some hydrolized talc and apply to the arm pits. You'll get relief at once, and the odor also will immediately disappear. This is safe and sure.

(Advertisement.)

J. W. Butler, Banker, to Talk to "Baraca"

J. W. Butler, president of the Texas Bankers' association and president of the First Guaranty State bank of Clifton, is the guest of W. W. Woodson today and will address the Baraca class of young men at the Austin avenue Methodist church, which meets from 9:30 to 1030 a. m.

The Sort He Buys.

"I want to look at some note paper."

"Watered stock, madam?"

"I should say not. My husband has wasted enough money on that kind."

Phone 159 any time during the night for drugs. Free delivery. Stetler's Drug Store.—Adv.

Consistent.

"Mary," said the sick man, "I wish you'd take my dress suit out in the yard and burn it."

"Why?" she asked.

"Well, I never did like that outfit, and if I should die I want to be absolutely sure that you won't bury me in it."

GOLDSTEIN—MIGEL CO.

"WACO'S GREATEST DEPARTMENT STORE"

SANGER GOLDEN WEDDING EVENT OF THE SEASON

Celebrated Last Evening at Raleigh With Hundreds of Guests Present.

The Sanger golden wedding anniversary was celebrated last evening at the Raleigh hotel. A host of invitations had been issued and one hundred and twenty relatives and close friends of the family banqueted at 6 o'clock in the banquet room of the Raleigh.

The room was lavishly decorated with golden chrysanthemums and roses and other yellow flowers. The large "50" in gold was at one end of the banquet hall and a golden fence and gate at the other separated the tables from the reception room. The tables formd an immense horseshoe, and tables inside the horseshoe formed the letter "S." The windows were banked with flowers. On the tables were baskets representing nuggets of gold. These baskets were filled with flowers. The maids who served wore gold-colored aprons.

The toastmaster was C. L. Sanger and the speakers were Alex Sanger and Dr. William Greenburg of Dallas, Miss Nora Wormser of Dallas, E. M. Kahn of Dallas, Dr. M. Faber of Tyler, Mrs. Sam Sanger, Sam Sanger, Dr. I. Warsaw, A. T. Godshaw of Waco.

After dinner the party passed into the reception room, where it was later joined by a multitude of guests. Punch was served throughout the evening in the Gold Room. Later the ball room was cleared for dancing.

The dinner guests were:

Sam Sanger, Mrs. Sam Sanger, Mrs. C. L. Sanger, C. L. Sanger, Miss Leta Mai Sanger, Edwin Sanger, I. S. Sanger, Mrs. I. S. Sanger, Malcolm Sanger, Asher Sanger, Mrs. Asher Sanger, Morton Sanger, Alex Sanger, Mrs. Alex Sanger, Elizabeth Sanger, Mrs. Alfred Godshaw, Alfred Godshaw, Elva Godshaw, Mrs. L. Emanuel, Alex Sanger, Miss Rhea Hubchman, Mrs. Charles Bensinger, Charles Bensinger, Charles Nathan Bensinger, Alex Cohn, Joe Joseph, Miss Norma Wormser, Mrs. Cornelia Sanger, Eli Sanger, Mrs. Eli Sanger, Mrs. Edgar Pike, Edgar Pike, Mrs. Clarence Linz, Clarence Linz, Mrs. Joe Linz, Elihu Sanger, Mrs. Elihu Sanger, Albert Pick, Mrs. Albert Pick, Miss Pick, Dr. Warsaw, E. M. Kahn, O. Seligman, Mrs. O. Seligman, Mrs. Theo. Mack, Theo Mack, Harry Mack, Herman Marx, Mrs. Alex Friend, Dr. W. M. Greenburg, Mrs. William Greenberg, Dr. Faber, Mrs. Bella Sanger, Mrs. D. E. Hirshfield, D. E. Hirshfield, I. L. Sanger, Mrs. I. L. Sanger, Mrs. J. Kahn, J. Kahn, Mrs. P. J. Sanger, P. J. Sanger, Joe Sanger, Mrs. Joe Sanger, Mrs. Stern, Mrs. Morris Lieban, Morris Lieban, Mrs. Eli Newburger, Eli Newburger, Miss Phyllis Pike, Miss Fannie Sanger, Edmund Kahn, Joe Haber, Miss Nettie Haber, Miss Elsie Haber, Mrs. C. BRIDGE JUNIORS WITH MISS NORMA BONNER

The Bridge Juniors were guests of Miss Norma Bonner Tuesday. The club unanimously agreed to stop playing cards for the present and to go to the Cameron building instead on Thursday at 3:30 o'clock to sew for the Red Cross society. This change in program is only temporary. Miss Julia Smith, a visitor with Miss Duncan from Paris, was awarded guest prize, a pot of hyacinths. Miss Enrique Smith won club prize, which she immediately presented to Miss Sallie Thompson, who announced her engagement on Tuesday.

Guests of the club were Miss Sallie Thompson, Miss Julia Smith, Miss Emma Farrell, Miss Jenny Lazenby, Miss Beuna Clinton and Mrs. John Davis.

The club members who are now a Red Cross sewing club, are Misses Norma Bonner, Enrique Smith, Mabel Chambers, Marion Duncan, Sue Edmond, Ethel Foster, Mildred Fort, Mary Farrell, Dixon Holloway, Anna Frye Jones, Elizabeth Patton, Anna Risher, Virginia Rose.

MRS. J. O. JACKSON HAS SERIES OF PARTIES

Mrs. J. O. Jackson invited several friends Friday evening for a patriotic party, with forty-two as the diversion. The house was decorated with many flags, red and white roses and buffalo clover. The score cards bore the flag and eagle, and the tables were covered with red, white and blue bunting. The table markers were tuny troop trains for head table, a bugle for second and tiny weapons of warfare for the third. Miniature Uncle Sam hats held the red and white mints. The brick cream was in the national colors as was the cake. Those who came were Mr. and Mrs. W. H. Lazenby, Mr. and Mrs. N. H. Church, Mr. and Mrs. C. K. Durham, Mr. and Mrs. G. W. Oliver, Mr. and Mrs. A. R. Lawson, Mr. and rs. Charles Watson, Mr. and Mrs. George Stubblefield.

On Saturday afternoon at 3 o'clock Mrs. J. O. Jackson invited friends in for an informal game of forty-two, car-

rying out the same idea in decorations. Those invited to enjoy the favorite game were Mesdames J. W. Holloway, Reisner, Clayton, Durham, Luckett, Delaney, Gage, Oliver, Church, J. B. Smith, H. W. Smith, Carver, D. M. Wilson and Miss Alva Malone. Guests calling later in the afternoon were Mesdames E. E. Fitzhugh, N. S. Hill, J. B. Sawtell, B. H. Horn, E. V. Stearnes and Miss Bratton.

MISS RUTH BUCHANAN FOR MISS CLARA EVANS

Miss Ruth Buchanan opened her country home yesterday afternoon to the friends of Miss Clara Evans, who is to be married on April 25 to John Todd Willis.

Miss Buchanan showed delightful originality in her choice of entertainment, which proved to be a handkerchief shower. Miss Evans was presented with a book and was told that they would take a trip with her to San Antonio. As he turned the leaves of the book, she found handkerchiefs bearing verses inscribed by her friends.

The rooms were exceptionally pretty with their red and white roses and pot plants. A salad and ice were served by Miss Buchanan.

Those attending were Misses Helen Olenbush, Jennie Forsgard, Ruth Damron, Rowena Barnett, Clelia Peek and Lucille Peek, Mae Jones, Hazel Spencer, Laurine Gay, Jamie Strange, Zoe Fitzhugh, Clara and Lucille Evans. Mesdames Henry Quinius, R. B. Van Hook, Roy Koos, Gladden Hall, Howard Sanger, W. G. Evans, Carl Sherman, Charles Evans, Jr., J. B. Naylor, Will Ligon, Hall and W. H. Maloney.

PARENT-TEACHERS TO GIVE PROGRAM

The Parent-Teachers' association of the South Waco school will entertain next Friday evening, April 20, at the school building on Fifteenth and James streets.

The program:

Part I.

Song, "The Black Bird," Fifth Grade, South Waco school.

Folk dance, (a) Soldier Boy; (b) Did You Ever See a Lassie?

Selection, Hoffmanetts.

Story, Mrs. Nelle Whitman Gurley.

Song, Fourth Grade, South Waco school.

Folk dance—Dance of Greeting.

Intermission.

Reading, "Betsy Hawkins Goes to the City, Miss Brooks.

Double duet, Ruth Bates, Beatrice Colbert, Drennan Prince, Lawton Marshall.

Vocal solo, Miss Amy Campbell, of Temple.

Piano duet, "Vowtentrain," Kitter, Mrs. Arthur Wade and Miss Dorothy Shepherd.

Comedy, "Missionary Work at Home," Miss Lois Bedford and Ernest Overby.

NATIONAL WOMEN LEAGUE NOTES.

The National League for Woman's Service is urging the women of the country to increase and conserve the nation's food supply. Here are some of the striking points emphasized by the league:

Bread and bullets are equally essential.

A nation fights on its stomach.

Victory depends on the food supply.

Every woman can serve her country effectively by helping to solve the food supply problem, which is already becoming acute.

Plant a kitchen garden; encourage your neighbors to do likewise.

Avoid waste in buying, preparing, cooking and serving.

Do without food that you don't need.

MRS. H. H. SHEAR HAS GARDEN PARTY

Mrs. H. H. Shear gave a garden party Friday afternoon in compliment to her guests, Misses Grace Dexter and Constance Ball. Mrs. Shear received her guests on the lawn from 6 to 7 o'clock. At 7 o'clock the young people were admitted to the big ball room, and they danced until 9 o'clock when a bountiful buffet supper was served. Exquisite Killarney roses and masses of ferns were in all the rooms.

Those who assisted Mrs. Shear in entertaining her guests were Misses Grace Dexter of Dallas, Miss Constance Ball of San Antonio, Miss Polly Hughart of Detroit, Miss Elizabeth Bolinger, Mrs. Harold Shear, Mr. and Mrs. Walter Greff, Mr. and Mrs. Ben Gray Kendall, Mr. and Mrs. Walter Fort, Mr. and Mrs. Charles Hamilton, Mr. and Mrs. George McLendon, Mr. and Mrs. Frank Wheeler and Mr. and Mrs. Luke Moore.

SHAKESPEARE LAND TOURED IN TRAVELOG SATURDAY

The second afternoon in the Shakespeare land was enjoyed by the members of the Travel Class yesterday afternoon. In addition to the members there were privileged the Shakespearettes and members of the Shakespeare club. The last Travelog toured the little Stratford village on the Avon as the scene of birth, school and haunts of the Immortal William Shakespeare. Saturday the romance of Kenilworth castle, Warwick castle as suggestive of "Macbeth," the legend of Lady Godivas' ride through Conventry, the crabtree of Shakespearean fame, Charlecote hall, where Shakespeare stole the deer, all these and other outlying scenes of Shakespeare land will be pictured by Miss Kate Friend. The Travelog season is nearing its close, the first of May being time for adjournment.

EUTERPEAN CLUB TO GIVE RUSSIAN PROGRAM.

In the gold room of the Raleigh on Monday evening at 8 o'clock, the Euterpean club will give the following Russian program:

Piano—"At the Spring".....Arensky
Mrs. Virginia Ryan.

Mrs. Theo. Ray.

Voice—"Lilacs" .....Rachmaninoff
Mrs. Jack Sanger.

Piano—"Spinning Song"....Pachulski
Mrs. H. W. Nevin.

HOFFMANNETTES GIVE DANCE AT PROGRESS CLUB.

The Progress Club was filled on Friday afternoon with a gay crowd of dancers, the pupils of the Misses Hoffmann. The dancing of the children was especially beautiful. One dance, "The Nightingale," danced by nearly fifty children, imitated the movements of the nightingale in flight. The parents and friends of the children who had been invited were delighted with this display of grace by the little dancers.

The older members of the classes had been permitted to ask one guest, with relatives, and the floor was crowded with pretty girls in afternoon frocks.

The ball room was patriotically decorated with Red Cross and United States flags.

SOCIAL NEEDLECRAFT WITH MRS J. L. MARTIN.

Thursday afternoon found the Social Needlecraft in the home of Mrs. J. L. Martin of Ross avenue. A contest of crochet and embroidering was conducted with Mrs. Joe Stewart victor in the crochet and Mrs. Hollis Barron for embroidering. The domestic science demonstration, which is regularly conducted by Mrs. Teaff, consisted on that occasion of the cooking and serving of sweet potato custard. A frozen fruit with whipped cream also was served.

The meeting also proved a pleasant surprise to Mrs. Lee Bassett, who recently suffered a loss by fire. A kitchen shower to her proved most acceptable. Miss Myrtle Goodglohn was a guest. The club meets next time with Mrs. J. A. Moore of Burnett street.

THURSDAY BRIDGE COMPLIMENTS MRS. HINES.

The Thursday Bridge club was entertained on Thursday in the home of Mrs. Frank Clarke, who had as honor guest her visitor, Mrs. J. B. Hines of Houston. The Easter idea dominated the decorations, the rooms showing Easter lilies and the score cards having reminders of the season. The refreshments were served on pretty Japanese trays, little enameled baskets carrying the coated almonds to resemble Easter eggs. The baskets were tied with green maline.

Mrs. Frank Wells carried off the club plate as head prize among the club members; Mrs. Booth, as consolation, was presented with a hand-embroidered guest towel, and Mrs. J. W. Orand of the guests was given an Easter lily as head prize. Mrs. Hines, the honoree, was given two pretty bud vases. Miss Gross was presented with a pair of silk hose as the guet consolation prize.

Guests outside the club for Mrs. Clarke's pretty compliment to her guest were: Mrs. J. W. Orand, Mrs. Clint Padgitt, Mrs. George Rotan, Mrs. Robert Dupree, Miss Gross, Mrs. Quitman Finley, Miss Dorothy Finley, Mrs. Dossett and her guest from Cameron, Mrs. Wilson; Mrs. Thomas Padgitt and Miss Mabel Chambers, Mrs. W. H. Jones and Mrs. Eva Glover-Prendergast.

Y. W. C. A. FOR THE WEEK.

Next Tuesday at 7:30, Dr. Eastland will give his second lecture on "First Aid." The subject is "Sprains, Dislocations and Fractures." The last part of the hour will be used for practical bandaging.

The C. O. D. Y team has challenged any team in the association for a game of volley ball to be played next Friday night at 7:30.

There will be a meeting of the field day committee next Tuesday at 6:30.

The classes have been using the outdoor field this week for volley ball and as soon as the jumping pit is ready we will use it for a field day practice.

COX PICTURES FOR WACO HIGH SCHOOL.

The Waco Art league has arranged for the placing of a memorial tablet in memory of Waco's beloved artist, the late Mr. Cox. Mr. Cox had presented to the old Central school a number of beautiful pictures illustrating "Evangeline." These have been taken down and cleaned and will, together with the memorial tablet, be placed in one of the assembly rooms of the new high school. The classes in "Evangeline" and the whole study body will enjoy this nook which has been arranged by the Art league.

KILL-KARE WITH MRS. ALVIN STRANGE.

The Kill-Kare Klub was entertained in the home of Mrs. Alvin Strange Thursday afternoon. A color scheme of pink and green was carried out in all the decorations. The favors were little green baskets topped with pink roses and filled with pink mints. The salad course was also faithful to the color scheme of pink and green. The head prize in the game of bunco went to Mrs. E. A. Kinney and the consolation to Mrs. Charles Bryden. The next meeting is with Mrs. J. J. Akin.

DARRAH-MERYS WEDDING APRIL 9.

On the evening of April 9, 1917, at 8 o'clock in Fort Scott, Kan., Rev. Harry A. Gordon united in marriage Miss Ruth Darrah of Waco and J. W. Merys of Osawatomie, Kan., at the parsonage of the First Methodist church. They were attended by the groom's sister and husband, Mr. and Mrs. E. B. Jones of Fort Scott, Kan. Miss Ruth Darrah is the youngest daughter of Mr. and Mrs. George Darrah of 1924 Webster.

MISS HONORA SILBERT IN GRADUATION RECITAL.

On April 23, the music and expression departments of Baylor university will present Miss Honora Silbert in a double recital of music and expression. Miss Silbert will give her abridgment of the story, "The Music Master," by Klein. The public is cordially invited to attend this program. Miss Silbert studied three years with Prof. Rudolf Hoffman, dean of the department of music.

CANTATA AT FIFTH STREET METHODIST.

A cantata which was enjoyed as one of the musical treats of the spring was given in the Fifth Street Methodist church last Sunday evening. Special praise for the success of the evening was given Mrs. Marion Bishop, leader of the choir, and Miss Edna Hutchenrider, the organist.

AT HOME TO BAYLOR FACULTY AND FRIENDS.

Mrs. J. R. Collier, Mrs. Arthur Jackson Hall and Miss Lillie Louise Martin were at home last Saturday evening to friends of Baylor and the faculty and their wives, from 8 to 11 o'clock. Mrs. S. P. Brooks poured tea.

Prof. Navratil, accompanied by Prof. P. Arthur Johnson, gave eight violin selections: "Orientale," by Cui; "The Bee," by Schubert; "Traumerei," by Schumann; "Humoresque," by Dvorak; "Tervetgro Mobile," by Ries; "Air in G String," by Dach; Concert No. 7, by Deriot; "Abagiette," by Vizet.

Dr. A. J. Hall gave two readings, which were very much enjoyed.

Professor Johnson gave "A Boat Song," an original composition, and another "Boat Song," by his Leipsic teacher.

Among those present were Dr. and Mrs. S. P. Brooks, Mrs. J. L. Kesler, Prof. and Mrs. W. H. Pool Mrs. J. C. McElhannon, Mr. and Mrs. A. P. Hickson, Mr. and Mrs. Sims Allen, Mr. and Mrs. Fred Rogers, Prof. Navratil and Prof. P. Arthur Johnson.

MISS FOSTER'S LUNCHEON FOR MISSES DEXTER AND BALL.

Miss Ethel Foster entertained with luncheon yesterday in her home for Mrs. H. H. Shear's guests, Miss Grace Dexter of Dallas and Miss Constantine Ball of San Antonio.

Patriotism furnished the idea for the decorations. One room was in red carnations, another in Easter lilies and a third in blue bonnets. Flags were used wherever possible in the rooms, and the courses showed tiny flags. The luncheon was served buffet style.

The guests included Misses Grace Dexter, Constance Ball, Pauline McLendon, Nora and Mary Gorman, Mildred Fort, Ruth Hubby, Ruth Evans, Mabel Chambers, Enrique Smith, Anna Fry Jones, Elizabeth Patton, Polly Hughart, Maizie Turner, Kathryn Raynolds, Dorothy Finley, Genevieve Carver of Wichita Falls, Thelma Ashburn, Mabel Bunch of Marlin, Mesdames William Abeel, John Davis, Harold Shear, Louis Stephens and Miss Ethel Foster.

DE CORDOVA-JONES WEDDING A SURPRISE.

Miss Myrtle De Cordova surprised her friends by her marriage on Saturday, April 7, to Percy C. Jones, late of Mexico City. The young couple was married at the home of Rev. H. L. Munger at 10:30. They expect to make their home in Mexico when the present disturbances are past.

Miss De Cordova is a daughter of the late Tom G. De Cordova, and on account of the recent bereavement, the wedding was a very quiet one, only relatives being present.

Mr. and Mrs. Jones will be at home for the present at 1901 Franklin.

TEMPLE SISTERHOOD TO GIVE BRIDGE PARTY.

The Temple Sisterhood will give a card party on Thursday afternoon, April 19, at 2:30 o'clock, at the Progress club for the benefit of their charity fund. Each member is expected to provide a table of guests. Refreshments will be served, and very pleasant afternoon is promised by the Sisterhood.

LADIES OF FIRST PRESBYTERIAN TO HAVE COIN TEA APRIL 20.

The Social circle of the First Presbyterian church is to give a coin tea at Mrs. Charles T. Caldwell's, 1004 Washington, April 20, from 4 to 6 o'clock. A free-will offering will be accepted.

MISS PAULINE McLENDON IN FOR WORTH WEDDING

Miss Pauline McLendon returned Friday from attending and participating in the Lehane-Johnson wedding. Miss Lehane has visited in Waco several times and was duchess from Fort Worth to the Cotton Palace last year.

NEIGHBORHOOD CIRCLES OF THE SECOND PRESBYTERIAN.

The Neighborhood circles of the Women's Working society of the Second Presbyterian church will meet at 3:30 o'clock Monday.

PRESS CLUB WITH MRS. J. W. CARROLL.

The Press club will meet at the home of Mrs. J. W. Carroll, 603 North Seventeenth, at 3 o'clock, Tuesday, April 17.

Y. W. H. A. SUNDAY THIS AFTERNOON

The Young Women's Hebrew association will meet in the Temple this afternoon at 3:30 o'clock.

An attachment for knitting machines invented by an Ohio man to make imitation fur knits a tuft of hair into each needleful of thread.

EAT YOUR SUNDAY DINNER at the

PEOPLE YOU KNOW

Mr. and Mrs. August Brockschmidt and daughter, Hermione of Brenham, have been here on a visit with the Misses Hutchenrider of Washington street. They have returned to Brenham, taking with them as their guest Misses Edna Hutchenrider and Nina Bohannon, who will go from Brenham to Houston for a few days.

Mr. and Mrs. J. F. Dudley yesterday celebrated their sixtieth wedding anniversary. They are the parents of Mrs. A. F. Sonntag. Mr. Dudley is a Confederate veteran.

Dr. W. A. Wood and wife of Hubbard have bought the J. N. McFarland place on Columbus street and will reside here permanently. Dr. Wood will practice medicine.

Prof. P. S. Hargrove, who has spent the winter with his mother, Mrs. Hargrove Day, has returned to his old home, New Haven, Conn.

Miss Genevieve Carver of Wichita Falls is visiting Miss Pauline McLendon of Austin street. Miss McLendon has just returned from a visit to Fort Worth, where she took part in a wedding.

Mrs. H. M. Minier and her mother, Mrs. J. M. Rider, have just returned from a seventeen weeks' tour through the North and West, stopping for visits with relatives and friends in New York, Niagara Falls, Washington, D. C.; Ithaca, N. Y.; Chicago, where they were entertained by the famous sculptor, Laredo Taft; Omaha, Neb.; St. Louis and Springfield, Mo. Mrs. Minier visited her two sons, Rider and Julian, who are in Cornell.

Miss Mabel Bunch of Marlin is visiting Miss Alice Brazelton.

Mr. and Mrs. Gus P. Rosenthal left Saturday for a visit with relatives and friends in Elgin and Austin. They will attend the Bassist-Goudchaux nuptials in Elgin on April 22. Mr. and Mrs. Henry Auerbach and daughter will also attend the wedding.

Mrs. A. J. Dossett of Columbus street has as a guest in her home Mrs. Wilson of Cameron.

Rev. R. F. Brown of Herring Avenue Methodist church received a telegram yesterday from his son, Robert E. Brown, who is in Georgetown attending Southwestern university, saying that he had been elected delegate to the National Fraternity convention of the Pi Kappa Alpha, which is to be held at Jacksonville, Fla., on Monday, April 16.

MOVIES TO STIR PATRIOTISM.

Big Producing Companies Will Aid Recruiting in Case of War.

The movies are being mobilized for preparedness publicity by a committee of the Associated Motion Picture Advertisers, composed of the publicity men of the big producing companies. The aim of the movement is to fight apathy in case of war, with the movies as an agency for putting before the people a clear statement of the dangers which confront the nation.

The program for the campaign follows:

"The organization of a quick acting, easily handled, fully responsible bureau in New York City which shall immediately prepare two feature motion pictures to be shown before 20,000,000 people in the 20,000 motion picture theatres in the United States. The immediate use of smaller reels, picturing army maneuvers, battleships with their crews, views of the West Point and Annapolis cadets on review and other patriotic subjects, now available from the libraries of the motion picture companies. The idea is to get these without cost and their exhibition, with the co-operation of the National Association of the Motion Picture Industry.

"Fourteen slides will be prepared with proper slogans and patriotic appeal which will induce recruiting, these slides to be changed daily and two to be used each day. There will be prepared posters of twenty-four sheets, six sheets, three sheets and one sheet by poster artists of exceptional ability. The posters would bear, for example, such appeals as, 'Every man who is a man will do his duty;' a second one picturing a woman with a child in her arms standing at a cottage door with the inscription beneath, 'It is for these your country needs you,' and a third, with the American flag and the inscription, 'All you can do for it is none too much.'"—New York Sun.

In Asiatic Russia there are 188 rivers with a total navigable length of 13,558 miles and four lakes that can be navigated for 707 miles.

"But, aren't they very expensive?"

WE often smile at this question when some of our lady patrons have heard the Aeolian-Vocalion—"that very latest scientific type of phonograph"—that draws the hidden beauties from your records.

Its new standards of "beauty in phonographic form," its unique ability to develop beautiful tones heretofore inaudible in records—and to make each record sound *new*—all naturally create the "expensive impression."

As a fact, Vocalions are no more expensive than other phonographs.

People are frankly surprised at the convenience of the terms by which any model of the Vocalion can be obtained. They often do not know, even, that exchange arrangements for their own machines are quite easily possible.

Priced from $35.00 upward

THE

Aeolian-Vocalion

"THE PHONOGRAPH THAT CALLS FORTH HIDDEN BEAUTIES FROM YOUR RECORDS"

Do not forget that you are invited to try your own records on any of our Vocalions—without obligation to yourself.

Why Look Wrinkled and Old? To Renew Youthful Beauty

Try This French Recipe Tonight

Transform a wrinkled, aged-looking complexion into fresh, glowing loveliness with Creme Tokalon Roseated—entirely different from any other cream.

Mlle Simone Marelx

Many a wrinkled, hollow-cheeked, faded-looking woman who, after countless vain trials with soaps, creams and treatments, had given up all hope of ever regaining her youthful charm has made herself beautiful with every sign of wrinkles and complexion blemishes gone by means of the following French beauty recipe. Are you as beautiful and youthful looking as you should be? If not you owe it to yourself and to those who care most for you to appear at your best. Make this test tonight. Look at your face in the mirror, under a bright light and see if you have crowsfeet or pouches around the eyes, deep lines or furrows in the forehead or about the mouth, enlarged pores, blackheads, or a coarse, mottled complexion. Then wash your face in clear warm water and rub in a teaspoonful of Creme Tokalon Roseated, which you will find entirely different from any other cream. In the morning wash the face with cold water and rub in more cream, after which use a pure, specially adherent face powder like Poudre Petalias or Poudre Fascination de Tokalon. Instantly you will note the improvement. Day by day watch how the old, hardened, coarse, rough skin becomes new, fresh, soft and beautiful, simply because you have helped it in the Right Way to act freely and renew its youthful activity. But don't expect to accomplish this with creams, soaps or lotions containing a large amount of free alkali, as it is only a question of time when this will destroy the delicate skin tissues and completely ruin the complexion. You must use a pure, neutral, specially prepared product, such as Creme Tokalon Roseated, to rebuild the worn-out cells so as to bring back a true girlish freshness and glowing loveliness to the skin. If you have bad wrinkles, get a box of Japanese Ice Pencils from your druggist and use them in connection with the cream, and you can get quick action on the deepest wrinkles, no matter of how long standing.

For giving an indescribably beautiful effect to the neck and arms as well as suppressing almost immediately the appearance of all smaller wrinkles and marks of age, many women use a little Santonex.

Note: The above is one of a series of articles on beauty specially written by Mlle. Marelx of Paris who after originating this recipe, won two great international beauty prizes. She is so positive that it will banish every complexion blemish and enable any woman between thirty and sixty to quickly make herself look from five to fifteen years younger that she personally guarantees success in every case or will refund the amount paid for any products she recommends, provided you take your dealer's receipt at the time you make your purchase. Furthermore, she offers to forfeit $200.00 to any charitable institution if it can be shown that this method will not give most astonishing new beauty to wrinkled, careworn, aged women in three days' time. Her American Address is Simone Marelx, 20 West 22d Street, New York. Creme Tokalon Roseated and the other articles mentioned can be obtained at small cost from Morrison, Powers-Kelly, Provident Drug Co., Goldstein-Migel or most any good druggist or department store.

Complying With the Urgent Request

You and the Hoosier together can do in half the time the work that is taking you twice as long to do without it.

This marvelous convenience has places for four hundred articles, **all within arm's reach.**

But's its more than a tool house for your kitchen. The Hoosier is an **automatic servant** with forty labor-saving inventions—**each like a helping hand.**

Some cabinets have copied a few of them, but seventeen of these vital Hoosier features can't be found in all others combined.

Stop Being a Slave to your kitchen.
Nothing tells on a woman so quickly.

Come in at once and let us demonstrate the new Hoosier models that have just arrived. Let us show you our low prices, easy terms and money-back offer. Please don't hesitate—it's a pleasure for us to show the Hoosier whether you buy or not.

R. T. Dennis & Co.

4TH DISTRICT FEDERATION OF WOMEN'S CLUBS

Sixteenth Annual Convention at Temple April 19 to 21.

"The Fourth District of the Texas Federation of Women's Clubs will hold the sixteenth annual convention at Temple, Texas, April 19-21.

"There is quite an interesting bit of sentiment connected with the occasion in that it is a sixteenth birthday party. In Temple sixteen years ago was held the first district convention ever held, the State Federation having been divided into districts during the administration of Mrs. Percy V. Pennybacker. The Temple woman who was sponsor in chief for the first meeting is taking an active interest in the present one—and will be one of the speakers on ex-presidents' evening as an ex-district president. This gracious lady is Mrs. W. S. Banks and it will be welcome news that after several years' retirement from club work she is again to be an active participant. Mrs. M. W. Sims of Bryan, who presided over the first district meeting, will respond to the addresses of welcome. Mrs. Pennybacker will give an address. Aside from these interested from an anniversary standpoint, our state president, Mrs. Fleming, will tell of the biennial council which she attended last week in New Orleans.

"Temple has come back to us with seven live clubs joining as a City Federation. Through the courtesy of Mrs. C. L. Myers of the homes committee and Mrs. Banks of the program committee, and their assistants we are assured of a royal welcome to that enterprising little city. All district chairmen, members of the ex-board, presidents and one delegate from each club are to be entertained and those who have not done so should send their names immediately to Mrs. C. L. Myers, chairman homes committee, Temple, Texas.

"The program aside from the topics mentioned above, has several interesting speakers in connection with various department reports.

"Mrs. J. C. Terrell, the mother of the library movement in Texas, will tell us how we can more effectively serve our state in connection with the new county free library law.

"Mrs. Nat Jackson of A. & M. college extension department will speak on the extension work for rural women.

"Miss O'Connell of West, chairman of Made-in-U. S. A. committee, will provide an expert to tell of the 'Buy-It-Made-In-Texas association.' Otherwise we have tried to have club reports and informal discussion the chief feature as is required by the constitution. The social features planned by the Temple women will be charming opportunities for seeing old friends and making new ones, that delightful experience that enables Texas women to work in such complete harmony for the betterment of our state.

"Transportation rates of one and one-third have been provided by the railroads. Meeting begins April 19, 8 p. m.; adjournment April 21, 4 p. m.

"We are hoping for a visit from the president of the general federation, Mrs. Josiah Evans Cowles of Los Angeles, Cal. The state president has, of source, invited Mrs. Cowles for the state convention in November, but as she was to pass through Texas en route home from the council meeting in New Orleans, it occurred to your district president she could render you a service by trying to secure Mrs. Cowles for our district meeting. No sooner thought than the invitation had winged its way heartily, seconded by the hostess city. Mrs. Cowles responded most gracious that she would be with us if the dates could possibly be arranged—her final answer to be wired from New Orleans. Should she come, the Fourth district will have scored a triumph. If she comes not, at least we have shown our ardent desire and ambition to feel that we are a little cog in the machine of the general federation.

"Hoping to meet representatives from every club in the district. Cordially, "DECCA LAMAR WEST,
"President."

FOURTH DISTRICT CLUBS T. F. W. C.

Dear Members:

Our president, Miss West, urges that the following points be especially considered in your preparations for the convention in Temple on the 19th and 21st, where an interesting program will be rendered.

The Informal Discussions: Give your views in the briefest manner on all subjects presented. Please favor me with ideas on the value of press publicity for the clubs.

Delegates: Send your president and one delegate, forwarding their names now to Mrs. C. L. Meyers, Temple, Texas, who will assign homes and look after their entertainment. These names and one dollar dues must go also to Mrs. T. W. Robertson, district secretary-treasurer, Waco, 1501 North Fifth street. Delegates must have three copies of reports for the various record keepers.

Press Women Scholarship Fund in the School of Journalism, University of Texas: If possible send the one dollar pledge for this worthy cause. (Mrs. J. A. Jackson, Austin Texas, West Twenty-third street, treasurer.) Let us keep up our good record in the educational work, and help some worthy Texas girl.

Memorial Roll: Send names of sacred dead to your district secretary, Mrs. Robertson, Waco.

Periwinkle Week: Plant seeds now and set the plants with ceremonies if possible in honor of our beloved Pauline Periwinkle; carrying forth her work of making this old world brighter.

Let every club be represented if possible. Temple will shower her kind hospitality in a royal way. Meet us at the convention to review in a free, informal manner, the year's work and plan for another, even greater.

Thanking your secretaries for their prompt replies to my recent letter concerning club conditions, I am,
Cordially yours,
MRS. J. M. F. GILL,
Press Chairman.

SUFFRAGE NOTES FROM FAR AND NEAR.

The Waco Suffrage club is planning for the entertainment of the state suffrage convention, to be here May 15, 16 and 17. There will be a meeting in public library on Wednesday afternoon at 2:30 for the discussion of plans.

The Texas State Suffrage association has moved its headquarters from Austin back to Galveston.

With one exception, all of the past presidents of the Texas Federation of Women's clubs are working valiantly for woman suffrage.

Hon. and Mrs. Cone Johnson were given a rousing cheer or welcome by the suffragists over the state on their recent removal from Washington to Tyler. Both Mr. and Mrs. Johnson have long been known among the pioneer workers for votes for women in Texas.

Miss Julia Lathrop has been numbered among the national suffrage workers for many years. She believes that suffrage is a step toward child welfare.

The Houston Women's Political union frequently conducts several meetings a week in different parts of the city. A pleasing feature of the meeting is the heckling which is always permitted.

All over Ohio the suffragists are holding jubilees to celebrate the passage of the woman suffrage bill. In one town they planted a tree in the public square which will be watched and tended by the suffragists, and used as a community Christmas tree.

The New Jersey legislature had a visit last week from the Hon. Jeanette Rankin, who urged the passage of the suffrage bill.

"Women of Montana take voting seriously," Miss Rankin told the legislators, "and the men are glad we are voting. In Montana the participation of women in elections has done much for the women and children of the state. I hope as a member of congress to be able to further the cause of the women and children of the nation. You men have enough to do if you attend to your own business, so why not give women the ballot, and then have women representatives to look after the interests of women? I am sure you will like women in politics once you have them there."

How Our Representatives Voted on Suffrage.

Baker of Hood said all other great reforms have been accomplished only after years of persistence, and that he intends to continue his advocacy of woman suffrage till it wins.

Beard of Harris objected to dragging women into the mire of politics.

Mendell spoke of the 300,000 negro women who, he said, would be given the ballot in Texas. He characterized woman suffrage as a "fad."

Blackmon said the cause is just and finally certain to prevail; that we will have better schools, purer politics and better living conditions with woman suffrage.

Miller of Dallas urged that Southern women not be taken down from the pedestal where the chivalry of Texas and the South has placed them.

Laney of Dallas said the first question to be considered in a political matter is, is it morally right; that this question is right; that Texas led the South in the railroad commission and many matters of legislation, and should take the lead in adopting woman suffrage. He said it was a transparent fallacy and a fundamental absurdity to say woman has not the capacity to cast a ballot.

Mr. Peddy said if our politics is so "rotten" we cannot trust our mothers therein; we had better get out ourselves. He favored letting the women come in and help the men clean up.

Upchurch said he could see no reason for the opposition. Mr. McCoy argued that it is fundamentally just, and a thing to which women are entitled, not as a privilege, but as a right.

Mr. Yantis defied any person to show a right that men have to vote where that same right cannot be shown for women. He also stressed the fact that woman suffrage is a national democratic platform demand.

Mr. Dunman said woman has special privileges already of far greater value than a vote, but failed to state just what these privileges were.

Mr. Woods argued that woman is entitled to the ballot as a matter of right.

Mr. Bagby spoke of the crumbling Roman empire, beginning with the appearance of women in the galleries and corridors of the Roman senate, and the assumption by those women of roles outside their sphere. To take woman from the sphere in which God has placed her, might bring about the undermining of the home, the church and the government.

Mr. Thompson of El Paso said 30 per cent of the women of this country are now making their own living. When these women are put back in homes by the opponents of woman suffrage, he will be ready to listen to their arguments about woman's sphere being the home. He considered it the height of absurdity to say that although women are earning their living in almost all lines of human endeavor they have no right to help make the laws of the country. He added that Texas has a white man's primary, and suggested that possibility of having a "white woman's primary" in answer to the argument of negro women voting. He appealed to representatives to submit the resolution to the voters. The final vote stood 76 for to 56 against.

HELPFUL LIST OF BOOKS GIVEN BY LIBRARIAN.

In a lecture given to the West Avenue Parent-Teacher association recently, Miss Pauline McCauley referred to the following books as the best of their kind. The list is given in the hope that it may be of use to those who have been in doubt as to just what sort of literature to use in guiding their own thought and to place in the hands of their children:

On Eugenics—"The Coming Generation," by W. B. Forbush; "Being Well-born," by M. F. Guyer; "The Heredity of Richard Roe," by David Starr Jordan.

Infants' Care and Feeding—"Care of Baby," by J. P. Griffith; "Care and Feeding of Children," Dr. L. E. Holt; "Better Babies and Their Care," A. S. Richardson; "The Young Mother's Handbook," Mariana Wheeler.

Child Training—"Fathers and Mothers," by George Herbert Betts; "The Boy Problem," W. B. Forbush; "The Boy and His Gang," J. A. Puffer; "Training the Boy," "Training the Girl," William A. McKeever; "Study of Child Nature," Elizabeth Harrison.

Reading—"The Children's Reading," by Frances J. Olcott; "What Shall We Read to the Children," by Clara Hunt; "A Mother's List of Books for Children," Gertrude Arnold.

"MUSIC gives a soul to the universe, wings to the mind, flight to the imagination, a charm to sadness, gaiety and life to everything."
—PLATO

IT IS our earnest desire to demonstrate to you that the genius of Thomas A. Edison has placed it in your power to have in your own home an instrument which will give your family all of the benefits of music which Plato describes.

Talking machines have entertained millions and have added a little to the world's knowledge of music, but a talking machine is utterly incapable of giving a proper conception of music or inspiring the soul, as true music does. A talking machine's music is not true music.

The NEW EDISON
"the phonograph with a soul"

is not a talking machine. It does not give a mechanical and only approximate reproduction of music. It gives the literal Re-Creation of music. This has been proved in public hundreds of times by direct comparison with many of the world's greatest artists. A chronicle of these wonderful tests is contained in more than three hundred of America's principal newspapers.

NOTICE—Please do not ask us to sell you Edison Re-Creations if you intend to attempt to play them on any other instrument than the New Edison. No other instrument can bring out the true musical quality of Edison Re-Creations. Furthermore, injury to the records is likely to result if you attempt to play them on an ordinary phonograph or talking machine.

Come to Our Store
THIS WEEK

WE WANT it distinctly understood that every person who likes music is welcome at our store. We want every music lover to hear the New Edison. We want to make a friend of every music lover. Don't stay away merely because you have no intention of buying a musical instrument. We want you to hear what we believe to be the greatest musical instrument in the world. It is the favorite invention of the world's greatest inventor.

R. T. Dennis & Co.

ROUND STEAK, GERMAN STYLE.

Use one and one-fourth pounds of round steak cut in a thick piece. Lay on a block and pound well. Now pat into the meat as much flour as it will take up. Melt three tablespoonfuls of shortening in a frying pan and when hot put in the meat. Sear on both sides. Now pour over the meat one pint of boiling water. Cover the pan closely and place on the back part of the stove, where it will simmer gently for one hour. When ready to serve season with salt and pepper. Garnish with finely chopped parsley.—Mrs. M. A. Wilson in Philadelphia Public Ledger.

Eight separate photographs can be taken on the same plate or film by using a camera attachment patented by a Colorado inventor.

New State Auto Law Goes Into Effect July First

LID IS CLAMPED ON DRIVING BY NEW STATE LAW

Will Become Effective July 1 of This Year—Penalty Is Severe.

Becoming effective July 1 this year, a drastic law regulating the operating of vehicles upon the public highway has been inaugurated. This measure, known as the Carlock bill, has already been approved by the governor, and as it has the emergency clause attached will become a law in the shortest time possible.

Automobile drivers will have to be unusually careful to comply with the regulations prescribed, as the penalty is heavy.

The new law provides a severe penalty when the driver of a motor car shall willfully or with gross negligence collide with or cause injury to any other person upon the public highway. Heretofore the law has provided inadequate redress unless death resulted from the collision, but the new law makes the driver chargeable with aggravated assault, for which he may be punished as the law directs for such offenses.

The new law is especially hard upon the motor driver who collides upon the public highway with another vehicle or an individual and runs away. Such a person may be sent to the state penitentiary if the prosecution be sufficiently vigorous. It is provided that when a motor-driven vehicle strikes any person or collides with any vehicle containing a person, the driver of such motor-driven vehicle shall stop and assist the person struck or the occupants of the vehicle collided with, giving all necessary assistance, including the carrying of such persons or occupants to a physician or surgeon for medical or surgical treatment, if such treatment be required, and provides that upon request of the person struck or occupants of vehicle collided with the driver shall give his name and address. Violation of this provision of the law is punishable by imprisonment in the state penitentiary not to exceed five years or in the county jail not to exceed one year, or a fine not exceeding $5000, or by both fine and imprisonment.

City Ordinances Must Conform.

It is provided in the bill that no town, city or other local authority shall haev power to enforce or maintain an ordinance, rule or regulation in conflict with or inconsistent with this new law. It regulates the speed of the public highway, making the maximum twenty-five miles an hour.

In any territory closely built up the maximum speed is made eighteen miles an hour, this including outlying and suburban districts within corporate limits, but in the business district of any town or city having less than 40,000 inhabitants the maximum speed is fixed at fifteen miles an hour and in larger cities at ten miles an hour, exceptions being made for police, fire and Red Cross ambulances and physicians responding to emergency calls.

It is required that no motor vehicles may pass each other on the highway at a speed greater than fifteen miles an hour and no railway or interurban crossing shall be crossed at a speed greater than six miles an hour, except where a flagman or the gates show the way to be clear.

Especially is it provided that no intoxicated person shall operate or drive a motor propelled vehicle upon any public highway in the state. No person shall employ or hire as a chauffeur of a motor vehicle any person not licensed as provided in the act.

Lights on Vehicles.

The new law provides that all motor vehicles except motorcycles shall carry two lighted lamps in front which shall be visible under normal atmospheric conditions at least 500 feet ahead and one lighted red lamp at the rear, which shall be visible for a distance of fifty feet to the rear.

All motorcycles and all bicycles shall carry one light in front capable of casting a white light at least 200 feet ahead and all motorcycles and all bicycles shall carry one red light plainly visible from the rear. This will be an innovation generally regarding bicycles, for the law has not required a red light visible from the rear.

The law also states that no motor car light shall be projected along the road at a greater height than a parallel of four feet from the road if such lamp or lamps are capable of producing light or glare. In other words, glaring headlights are forbidden.

"Muffler cut-outs" are forbidden within the limits of any incorporated city or town or in any public highway where the territory contiguous thereto is closely built up.

Highway Racing Barred.

The law forbids racing on the public highway. In its forty-four sections are innumerable "dont's" and it is insisted in every portion that the law must be enforced, the highway commission being especially directed to see that its provisions are carried out. Penalties are provided for violations of various provisions, so as to make the punishment in each case fit the crime. A driver of a motor-driven vehicle which strikes and kills a person may be held on a charge of homicide. For infractions of some portions of the law imprisonment is fixed as the punishment and for others a fine is named. A person who enters another's car without his permission and attempts to manipulate any of its cranks or levers may be fined or sent to the county jail, even though he does not start the car. Records are to be kept of all complaints of and convictions for violation of the law or any of its provisions and these records will be produced at a trial to determine the extent of careless or wilfull responsibility of the accused.

Carrying the emergency clause, the bill has become a law and will be enforced as soon as the highway commission has been organized, for it is to work in connection with and to some extent under direction of the state highway commission, but the penal provisions will not be enforced until after July 1 next.

TEACH SAFETY FIRST.

At the Goodyear Tire and Rubber company's plant at Akron, Ohio, every new employe, as soon as he is hired, is given a small book in which safety first principles are strongly emphasized. Employers of labor are coming to realize that accidents do not "just happen"—they are caused. So accident prevention work at the Goodyear plant is carried on by a special safety first department. With a present employment enrollment more than four times as great as at the start of the campaign the number of accidents has been reduced over 75 per cent.

Every home needs it—Kleen-O.—Adv

Drivers Should Keep Radiator Cells Clean

To secure the best results from a motor car cooling system, the owner should take care to keep the radiator cells free from foreign matter, particularly when he is driving over muddy roads, or on dusty highways, is the text of the latest technical bulletin issued by the Haynes Automobile company.

If the trip is at all long, the accumulation of dust, dirt and mud pellets, driven to a lodging place my the motion of the car, seriously impairs radiation, by retaining the heat the radiator core would ordinarily dissipate in the air.

An examination of only a limited number of motor cars will reveal radiator interstices that are so tightly packed with particles of earth that they can play no part in reducing the temperature of the water system.

The quickest and best way to correct the evil is to play a hose with considerable water pressure on the radiator for a few minutes at each watering place and the ability of the car to rid itself of its excess thermal load will be accordingly increased. Care should be exercised that the foreign matter is not left clinging to the radiator core as sticky mud.

At stopping places where it is not possible to take this precaution, merely brush off the radiator from time to time with a stiff brush or sweeping with a broom will materially simplify the cooling problem.

WANT TO TELL YOU ABOUT PARK LAWN

And am sure your interest will increase. Modern perpetually cared-for Park Lawn cemetery is too beautiful, too inspiring, too vitally necessary an institution to remain unappreciated by you. If you will be convinced, phone me and let me send my car and bring you out and show you Park Lawn.

NASH Jeffery MOTORS

Owners Proclaim Dependability of Jeffery Six

In the hands of thousands of satisfied owners this car has demonstrated convincingly its lasting durability and light cost of upkeep. Gasoline consumption is low—tire mileage high. Even after thousands of miles of hard road travel, parts replacements are almost negligible.

Jeffery Six is a dependable car that negotiates all roads with greatest dispatch and comfort to the passengers. As for power, it has ample for any emergency. The Jeffery Six motor with the inherently balanced crankshaft develops 53 horsepower with a speed range of from two miles per hour to sixty on high gear.

The hammock-slung body with clean-cut stream lines and gracefully rolled lateral edges wins instant admiration. Inspect the roomy tonneau, upholstered with high grade leather and perfect in all appointments. You will quickly approve the divided front seats.

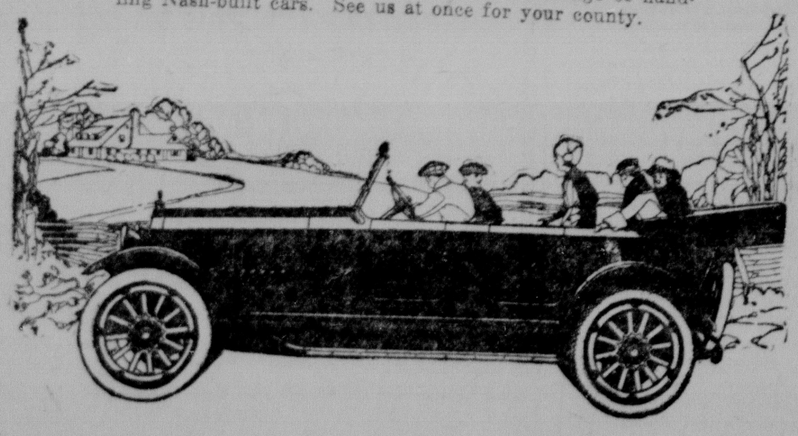

From the standpoint of economy, beauty and performance, Jeffery Six is a real motor car bargain at $1465.

Live dealers everywhere realize the advantage of handling Nash-built cars. See us at once for your county.

TO WACO BOOSTERS

¶ I do not have the pleasure of a personal acquaintance with each of you but I have been so situated in my past connection with Dallas and her interests that I know you to be "fighters"—a pushing, enterprising body of men with those stick-to-it-till-you-get-it qualities that will ultimately bring results.

¶ I hope to know you all soon and when we meet keep in mind that I am putting up your kind of a fight in the effort to have Waco and McLennan county car buyers realize that ***to pay more than the Studebaker price for an automobile—the buyer will never realize his expectations for the difference; and to pay less—he purchases a questionable value.***

¶ I believe Studebakers have solved the problem of car buying. Their perfect facilities for manufacturing; their immense volume of 100,000 cars per year which lowers factory cost; their complete system of distribution and service, gives them an unequaled advantage in producing a car to sell for $1070 delivered at Waco which ordinarily would sell for $1500.

¶ The day is past for big priced machines.

¶ When you see the lines of our 18-Series car, the splendid finish, the high grade leather, feel the responsiveness and know the power and performance, "the get-up-and-go-without-a-fuss" of the Studebaker engine you will wonder that the car sells for what it does.

¶ Furthermore, I want to tell you we will put the "Serve" in service here in Waco. Nothing so complete, so quick and so satisfactory.

¶ Come in and let's get acquainted.

Yours Truly,

F. L. Shaw

PRESIDENT F. L. SHAW CO.

710 Austin Phone 1307

Down Auto Row

The Jefferies car was very much in evidence on the trade trip last week, several representatives of the Brown Automobile company being along.

The men report that a great deal of good advertising was secured by the trip and that the company is already receiving returns for the time and money spent on this campaign.

Business on the whole has been unusually good and the company looks for a revival in the auto industry as soon as the people of the country become aware of the fact that the war will not affect the general business of the United States.

One of the interesting things noted on the recent auto trade trip was the fact that in nearly every town visited, standing somewhere on the street or rolling out upon the highway, a Dodge car was to be seen. This popular type of automobile seems to be found in every section of the country and is especially popular in the Waco trade vicinity. It takes no great amount of thinking to reason out the idea that the Central Motor company, local distributors for the Dodge, are live agents and for a large part are responsible for the big sale of the car in Waco territorq.

The F. L. Shaw company report that they consider the last week trade trip a very successful venture and that they are fully satisfied with the interest aroused. Mr. Bodenheimer says that on the whole business has been very good and that seemingly the war is not going to have any bad effect on the auto business.

The Studebaker factory is working overtime and every effort is being made to keep the shipments coming out on scheduled time.

Advice received from the local Saxon agency states that the trail blazer for the National Boundary highway will soon be in Waco, the exact date and hour of their arrival to be given out later.

The proposed highway, which is being mapped out by the car, will traverse the rim of the country, and it is being laid out in response to a demand from all parts of the United States for a roadway of the kind. When completed, it will be the longest motor route in the country and its way will cover practically every kind of scenery and climate to be found within the limits of the states.

When the Saxon trail blazer arrives in Waco a short talk will be given by the pilot and a splendid story of their travels will be told.

The Bain-Velie Motor company have had an encouraging week and, according to members of the sales force are feeling fine over the conditions of the country. The recent rains have put new heart into the country trade and this territory is now being worked in a thorough manner by the local Velie agency. The Velie "Biltwell" is in a class by itself and is considered a fine value at its reasonable price. For a light car this auto stands up fine in all service tests.

T. G. Bonana of the Moon Motor Sales company is in Bryan on a business trip. The sales manager reports that Mr. Bonan has recently sold several cars in that territory and that he is now giving it a part of his time. Mr. Bonana is expected back in Waco some time today.

According to reports at the salesrooms, business for the past week has been very good and people are showing a great interest in the Moon car. Within the next month a large increase in business is expected and plans are being made to insure the prompt delivery of all cars sold.

A busy week and a number of sales, with fine prospects for a great many more is the report of the Ward & Phillips Motor company. Carlot agencies were placed in Moody and Valley Mills on the recent trade trip. Several carload shipments of Oldsmobiles and Saxons have recently been received by this firm, and they have two cars of Saxons and three of Oldsmobiles on the road now.

The following sales were reported by Ward & Phillips for this week: S. E. Tucker, Saxon Six, Teague; R. H. Walker, Saxon Six, Lott; Clyde Bennett, Saxon Four, Cooledge; Clyde Mason, Saxon roadster, Cooledge; Lee & Jones, Oldsmobile 5-passenger and Oldsmobile 7-passenger, Temple; Julius Nussbaum, Olds Eight, Mexia; Denning, Witt & Marshall, Olds Eight, Moody; George Williard, Saxon, city; J. L. Toole, Hubbard City, Saxon 4.

Several other deals are pending and this firm states that they have not allowed the war conditions to affect their business in any way. It is their prediction that the business of the country will be normal and the next few weeks will see a pick-up in the automobile business.

Herrick & McLarty Auto company reports the following sales for the past week: M. S. Barnes, Lorena, an Oakland Six; W. H. Stovall, Seattle, Texas, Chevrolet 490; Paul Schultz, New Baden, carload Chevrolets; Clay & Gillmore, Moody, Chevrolet 490; W. W. Caufield, McGregor, Oakland Six; C. H. Phillips, Lorena, Chevrolet 490; W. M. Blanton, Waco, Chevrolet 490; F. G. Fickey, Waco, Chevrolet 490; S. Amsler & Co., McGregor, carload of Chevrolet 490s; H. H. Lockstedt, Leroy, Chevrolet 490; J. T. Deen, Athens, Paige Linwood Six; L. L. Gorin, Waco, Chevrolet 490; Miss Willie Hardin, Blum, Chevrolet 490; Ben Hickman, Mexia, carload Cherolets.

Harry L. Smith says Overlands always lead. If you don't believe it, ask the auto trade trippers.

Roy Hatch of the Overland Sales company brought in two signed orders from his territory for Overland cars the past week. Roy says it is no trouble to sell Overlands.

John Hendrix, sales manager Overland Sales company, says: "Our dealers throughout the Central Texas territory are all very optimistic after the general good rains and all of them are placing orders ahead to be able to meet their anticipated needs in the next few weeks.

Walter Roach, manager of the Overland Sales company, is spending a few days at Temple, looking after Overland interests there.

Ted O'Neil, service manager of the Overland Sales company, has been complaining the past few days about not having enough work to do on Overland cars to keep his men busy. However, that's why Overland owners are boosters.

George Jeffery, the owner of the Postoffice cafe, bought a Willys-Overland 85-4 yesterday. Harry L. Smith is the man that made George happy.

"Trade trips like the one made recently by the automobile association are a great good to the industry in my opinion," said T. D. Humphrey, manager of the Herrick & McLarty Auto company, yesterday. "It is really a revelation to the average man to see how well posted people of the country and smaller towns are on the different make of automobiles and their relative values. The man of today buys much more intelligently than he did a year or so ago. And the fact that our sales are constantly increasing in the face of this situation seems to vindicate our claims for the cars we sell.

"The rain of a few days ago was a wonderful thing for this section of Texas, and it makes it impossible for anyone to see anything but prosperity ahead for the people of this favored section."

E. Stark Collier, local distributor of the National Highway Six and Twelve, states that the first shipment of Sixes for Waco left the factory early last week and will be here in the next few days.

"The ran last Wednesday night was a wonderful help to the farmer," says Wade Hampton, Hupmobile distributor, "and it has made good business better. A little more rain and Texas will raise such bumper crops as to startle the world."

"The National Highway has been tested in competition with stock cars of every other worthy competitor," said Mr. Collier. "It was tested both on the speedway at Indianapolis, on city streets and on different mountain roads. The factory had cars of several makes shipped recently to Uniontown, Pa., where such a test was made on a difficult mountain road. Needless to say, the National showed its superiority."

Long Motor Truck Trips Will Relieve Congestion

The prominent part which motor trucks are playing and can play in relieving the deplorable freight situation which prevails all over the country was impressively pointed out by S. M. Williams, sales manager of the Garford Motor Truck company, at a recent gathering of motor truck dealers. The motor truck, he declared, will eventually solve practically all freight congestion problems.

Referring to the motor truck as an auxiliary of the railroads in the handling of freight, Mr. Williams said:

"Everything points to the more and more universal use of the motor truck for so-called long distance hauls. It makes possible, for the first time, an efficient haulage system direct from shipper to buyer. Thereby, it eliminates that vast amount of time wastage which railroad haulage necessitates in trips to and from the freight houses. Furthermore, the freight itself, transported by motor truck, is subject to less handling than when moved by railroad. By motor truck haulage it is handled twice—when loaded and when unloaded. By railroad transportation, it is ordinarily handled at least six times—when loaded on the truck, when unloaded at the freight station, when loaded on the car, when unloaded from the car, when reloaded on the truck and finally when unloaded at its point of destination."

ROADBUILDERS MEET.

Twenty-one States Represented at Washington Conference.

Representatives of twenty-one states recently took part in a conference at Washington with the staff of Logan Waller Page, director of the United States office of public roads, who has charge of the administration of the federal aid road law. They assembled in order to bring about greater uniformity in the requirements for the materials used in road building and maintenance. At present, road experts say, there are unnecessary variations in these requirements, which place a useless burden on their producers, increase their cost in some cases, and render it difficult to apply the experience gained in one state to the problems in another.

Other conferences will be called by the United States office of public roads as a part of its program for becoming thoroughly familiar with the practice of different states in road building and for developing uniformly high standards.

BELOIT FACTORY BIG INCREASE

"Delayed by causes beyond our control" is a phrase that is being used more and more by concerns that are obliged to purchase certain parts of their products. War business has completely disrupted a great many lines of manufacturing, owing to the extraordinary demand for many of the raw materials. Most manufactured articles are made up of a number of separate parts, and the failure to obtain any one of these parts often makes it impossible to produce the finished article. Thus one manufacturer is dependent upon another and for several months past it has been very difficult to obtain regular deliveries—from foundries in particular.

To overcome this situation, the Stewart-Warner Speedometer corporation of Chicago decided to free itself from these delays by operating its own foundry. Accordingly, a foundry was established at Beloit, Wis., and another step was taken in the plan to control the manufacture of Stewart products from the raw material to the finished article. The new foundry at Beloit was built large enough to handle the business for a number of years without crowding.

Nothing Like That.

"What are the passengers looking out of the windows for?" asked a nervous lady as the conductor came through the train.

"We ran over a cat, madam," said the conductor.

"Was the cat on the track?" she next asked.

"Oh, no, ma'am," assured the conductor. "The locomotive chased him up an alley."—Burr.

Removes grease instantly—Kleen-O.

Bean Croquettes.

Mash the beans left from the previous day's dinner. Season with one small onion, one small green pepper. Chop the onion and pepper fine and then cook until soft in two tablespoonfuls of shortening. Add to the beans, then mold into croquettes. Dip in egg and cracker dust or fine bread crumbs and brown quickly in hot fat.

Canadian Sauce—Four tablespoonfuls catsup, two tablespoonfuls vinegar, three tablespoonfuls water, one-fourth teaspoonful paprika, one small onion, grated. Mix in order given and bring to boil. Pour into a sauce boat and serve with croquettes.—Mrs. M. A. Wilson in Philadelphia Public Ledger.

A "Sensible Six"
—At a Sensible Price

For every GOOD article there is a sensible price. There is a sensible price for a suit of clothes, for a hat, for shoes for a cigar—for an automobile.

Oakland Sensible Six $875

It Is Well Established

That the sensible price for a six-cylinder, high grade automobile is $875. That amount of money buys good lines, roomy body, easy-riding springs, sturdy construction, great power, comfortable cushions—in short, a car of Quality and Economy.

FOOLISH TO PAY LESS
—UNNECESSARY TO PAY MORE!

You can, of course, spend more for a car—
but in the worth while qualities that count
you will find all you need in the Oakland

Is experienced by Saxon owners in the fullest degree. They are freed from the petty annoyances which vex the average car owner. Every minute spent in a Saxon is yours for PLEASURE or BUSINESS, as you choose. The WORK is SAXON'S—the SERVICE is YOURS. Saxon never fails you.

Each Saxon Hour Is an Hour of Joy

—You say you have no time for recreation? That's because you don't know the Saxon Six. Saxon WORKS for you during business hours and SAVES YOU THE TIME FOR PLEASURE.

—It's an all-round car—is the Saxon. Always ready to respond to your slightest whim, Saxon gives you ALL-THE-TIME SERVICE.

Ward & Phillips Motor Co.

LARGEST AUTOMOBILE DISTRIBUTORS IN CENTRAL TEXAS
708 Austin St. WACO Phone 5174

ALMOST ALL OF FIRESTONE FOLK ARE INVESTORS

Out of 12,500 Employes, 11,000 Now Stockholders.

With the winding up of the books on the plan of stock distribution inaugurated by H. S. Firestone, president of the Firestone Tire and Rubber company, the records show that over 90 per cent of the employes responded to the investment offer made. Out of 12,500 employes, 11,000 are now stockholders in the company.

The sweeping acceptance of the plan by the organization has stirred up the keenest interest among industrial experts because of its original features.

For example, the stock allotted, approximately $3,000,000 worth, was distributed on the basis of length of service—not on the usual basis of salary earned. In short, the sweeper or the shoveller got more than the high executive if he had served longer, up to a period of five years. All who had been employed over five years were on an equal basis.

This is apparently the first time that a plan has been evolved and put thru which in no way discriminates between classes of employes.

The stock was sold to employes at $100 a share while the market price quotation is $145 a share.

The agreement provides that the company shall hold the stock for five years, after which time, if all paid for, the certificate of stock passes wholly into the hands of the employe whether he or she remains longer with the company or not.

Mr. Firestone has been working toward this end for a long time. At the annual meeting last fall the directors and stockholders ratified his carefully planned proposition. On January 1 the subscription was opened. On March 8 it was closed. And with its close showing over 90 per cent acceptance, including every division of employes, Mr. Firestone has the satisfaction of having realized a long cherished ideal. He has demonstrated the confidence of his company in its employes. He has demonstrated the employes' confidence in the company and its future.

Harroun Contracts With More Big Dealers Now

On March 20, when the last prior bulletin was published, the Harroun Motors corporation had contracted for the sale of 83.8 per cent of their output. The percentage now covered by contract is 95.2. That percentage then amounted, according to their production schedule, to 11,220 cars for 1917. The total sales for 1917 are now 15,537 cars.

The amount of money represented by sales made then was $9,190,965 for the current year. It is now $10,692,-150.

So closely does the present total approach to the total of their 1917 production that it can be confidently predicted that, as soon as the equipment for their plans is completed—a matter of but a short time—their closed contracts will reach 100 per cent and their work of distribution will be finished.

Among the distributors added to the Harroun field forces since the publication of their last bulletin are the following: Standard Motor Car Co., Philadelphia, Pa.; L. E. G. Gleason, Troy, N. Y.; Northrup & Clark, Houston, Texas; Eastern Automobile Co., Scranton; Hall Motor Co., Inc., Norfolk, Va.; Ray M. Coldwell, Inc., Cleveland, Ohio; Rogers & Co., Knoxville, Tenn.; Charters Motor Sales Co., Youngstown; Forsythe Motor Co., Jacksonville; Atlantic Motor Co., Savannah; The Atlantic Stearns Co., Atlanta; The Atlantic Stearns Co., Macon; R. H. Wilcox, Augusta; Van Antwerp & Rose, Binghampton, N. Y.; Thomas Garage, Inc., Louisville, Ky.; John White, St. Johns, N. B.; Levy Hermanos, Manilla, P. I.; The Bon Hamm-Young Co., Ltd., Honolulu; Seoul Garage & Sakes Co., Seoul, Korea; Eastern Garage, Shanghai, China; Sale & Frazer, Tokyo, Japan; Chua Chend Bok, Kuala, F. M. S.; Societe Franco-Chinoise, Pekin, China.

All Harroun distributors have signed contracts, backed by cash deposits and covering a business not only of one but five years. Each distributor has been allotted only that percentage of cars to which the wealth and buying power of his territory entitle him. In every case the distributor has asked for more cars than could be allotted him. But his own desires have played no part in the size of his contract. That figure has been determined in advance. As a result, Harroun distribution depends on no region, but is nationwide. And each distributor has been left room to grow with the growth of the factory production.

The Harroun Motors corporation could be arbitrary in this matter because of the supremely salable nature of the Harroun car and the desire of distributors to secure it.

21 STATES ARE IN CONVENTION AT WASHINGTON

Discuss Materials Used in Road Building and Maintenance.

Representatives of twenty-one states recently took part in a conference at Washington with the staff of Logan Waller Page, director of the United States office of public roads, who has charge of the administration of the federal aid road law. They assembled in order to bring about greater uniformity in the requirements for the materials used in road building and maintenance. At present there are unnecessary variations in these requirements, which place a useless burden on their producers, increase their cost in some cases and render it difficult to apply the experience gained in one state to the problems of another.

It is unwise to carry standardization in road work beyond the point where conditions governing the selection of material are uniform, for local differences exist which make it desirable to require for the same type of road material differing in some respects. By means of this conference it has been possible to separate the features where there should be general agreement from those in which local conditions make it desirable to permit some latitude. The results are considered of great value, not only in enabling the United States office of public roads to co-operate most closely with the various states through an intimate understanding of their special needs, but also in establishing greater uniformity in the road work done in the different states.

There are a number of organizations which have been devoting attention to standard specifications for road materials, and the conference adopted their standards when they were considered reasonably satisfactory. In the recommendations of the conference, the tests which were considered really necessary in order to show whether materials are satisfactory have been included(but no others. A large number of tests of road materials have been proposed, but the number adopted by the conference is comparatively small. Moreover, the conference has not, as a rule, recommended limiting values for specific tests, because no one set of limits can be used satisfactorily in all parts of the country. What has been done is to bring standardization of materials up to the limits where it ceases to be desirable, and then to standardize the methods of testing and of reporting the results of tests where different requirements must be adopted to meet local conditions.

Other conferences will be called by the United States office of public roads as a part of its program for becoming thoroughly familiar with the practice of different states in road building and for developing uniformly high standards for highway work throughout the country. Araangements for printing the recommendations of the first conference have already beeen made by Director Page in order that they may be available for road officials as early as possible.

Break in Your Motor Gradually, Is His Advice

"To insure that the working parts of the motor adjust themselves properly this car should not be driven in excess of twenty-five miles per hour during the first five hundred miles."

This notice appears on the windshield of every car shipped by the Willys-Overland company of Toledo, Ohio, and according to distributors and dealers, is doing a great deal of good.

All engineers and most good mechanics know that nothing is so injurious to a new mechanism as high speed, yet probably a vast majority of new cars are driven at high speed inside of twenty-four hours from the time they are delivered to the retail purchaser.

It is this tendency on the part of inexperienced drivers which the Willys-Overland company is trying to combat.

In no other line of manufacturing, possibly, is the product so quickly turned over to the mercies of a man who knows little of his mechanical construction and still less of the way to take care of it.

"A high speed passenger locomotive offers an excellent comparison," said Manager Roach, of the Overland Sales company, in discussing this topic.

"The locomotive is built to run easily and pull a tremendous load at seventy miles an hour. But is that locomotive put at once into such service? Hardly. The superintendent or master mechanic who would permit such a thing is not fit to hold his position."

SOLDIERS REPEL "ENEMY" EFFORT

Eighty-five men of the tenth company, coast artillery corps, under Lieut. Frederick Price, early the morning of March 18, made a record run from San Francisco to Half Moon Bay to repel an imaginary invasion from the sea. The run was made in one hour and fifteen minutes in twenty cars and two trucks of the Chester N. Weaver company, San Francisco distributor of the Studebaker automobiles.

Maj. S. F. Bottoms was in command of the trip, which was made in accordance with an offer to the militia authorities at the Presidio by the Studebaker men at the time of this governments severing of diplomatic relations with Germany. Although the offer was accepted at that time, the Studebaker organization was not notified in advance when they would be called on.

At 3:30 o'clock the morning of March 18 the call came to be ready by 7:30 at the Presidio. At the hour appointed the caravan each car in charge of a Studebaker driver and carrying its quota of soldiers, proceeded via the San Mateo road.

Not a halt or mishap delayed the run, and at 8:45 the force was landed on the bay shore, the two machine guns unloaded from the truck and hurry-up preparations made to prevent the imaginary hostile fleet from landing men. Considering that the distance is thirty-nine and one-half miles, it will be readily appreciated what the time means.

Swinging, sliding almost, down the mountain, around the curves, it was a miracle that they escaped without accident, tire, engine, brake, motor or any other trouble. The fact that every car and every man arrived at the same time clearly demonstrated the efficiency and durability of the Studebaker.

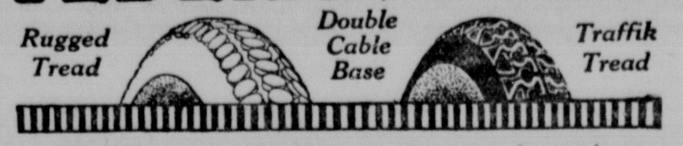

Studebaker Notes.

After weeks of hardships and perseverance, the Studebaker crew has reached the floor of the Yosemite Valley, and the San Francisco distributor of Studebaker cars is entitled to the Desmond silver trophy offered as the prize for the first car to get into Yosemite. This is the fourth consecutive year a Studebaker car has been first into the Yosemite. This coast dealer sent out a new series 18 "Four" in order to thoroughly test the power and strength of the motor and the machine itself. He is now well satisfied that the new model Studebaker will be able to withstand any sort of hard driving to which it may be subjected.

FEDERAL TIRES

Equal to the best in quality and service, Federal Tires have a great advantage over all others in their Double-Cable-Base Construction.

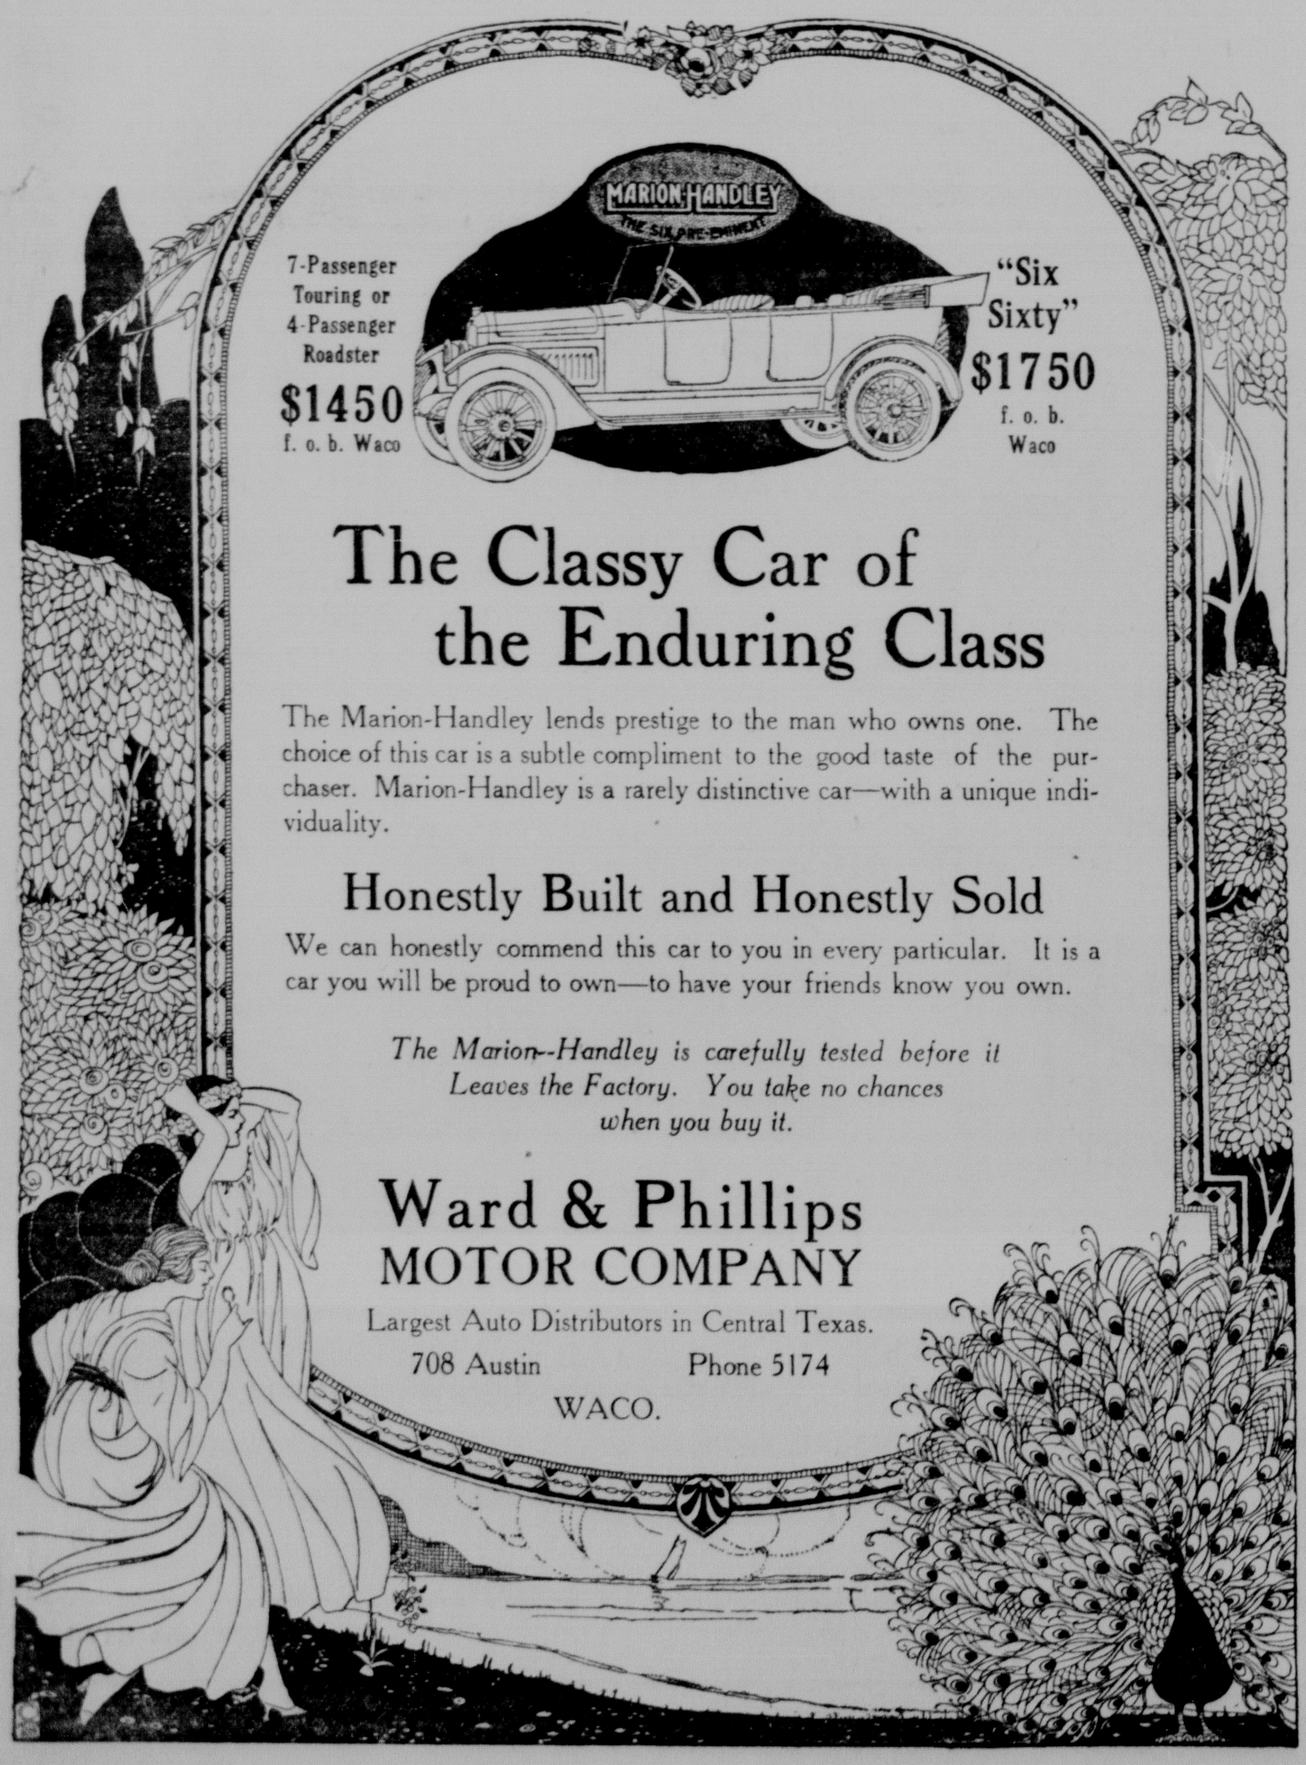

Four staunch steel cables built into the base of the Federal Tire hold it firmly to the rim under the severest driving strains. They do away at one stroke with the causes of most tire troubles.

Equip your car with FEDERALS—the "Extra Service" they deliver will prove them the best tire investment you ever made.

HOW TO TELL THAT THE

"Hundred Point Six"

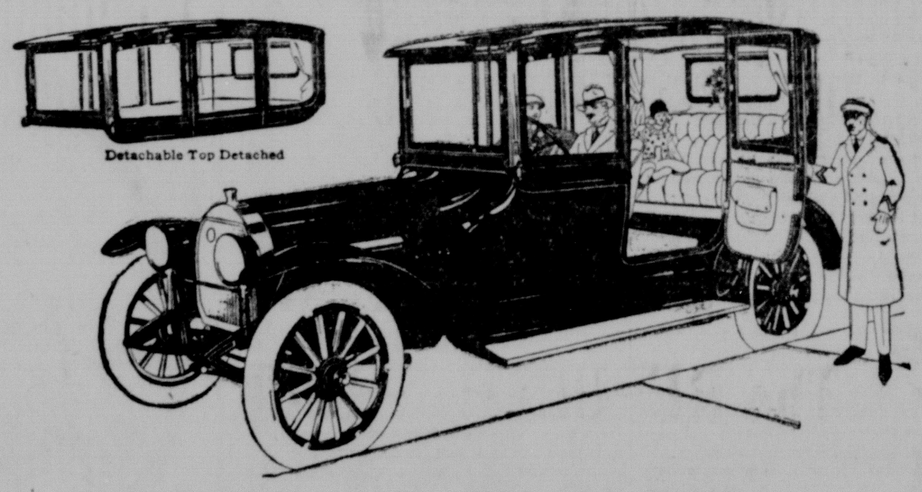

IS THE CAR YOU WANT TO OWN

Compare Kissel Kar Completeness

With the incomplete equipment of any and all other makes of cars, regardless of price. Note the EXTRA features of Kissel value which other cars omit. The ALL-YEAR SERVICEABILITY of the Kissel Kar sets it apart from competition.

Compare the Performance

Of Kissel Kar with the performance records of others, made under actual conditions of EVERY-DAY USE. You don't want a car to climb the Washington monument—but to render you DEPENDABLE SERVICE day in and day out.

Compare the Upkeep Cost

Of Kissel Kar with the cost of any other automobiles of its size and weight. The result will surprise you. Economy of gas and oil, plus a dearth of repair bills, is the ordinary experience of Kissel Kar owners.

Compare Kissel Kar Price

With the price of other cars which have only a FEW of the Kissel Kar features. (No other car has them all).—VALUE FOR VALUE, COMPARE THE HUNDRED POINT SIX WITH THE "FIELD."

MITCHELLS IN 500-MILE RUN

If the several new Mitchell models which were driven for delivery at Grand Rapids the other day had plunged through snow and ice and old Lake Michigan itself, directly across the lake from Racine to Grand Radips, they could not have looked as if they had been through more of a grueling from outside appearances, when they arrived.

However, the wild ride was taken to Grand Rapids around the Lake through and over some of the hardest roads, through deep snow and roughest going of the winter. These new models are the six-cylinder, seven-passenger touring car and the new five-passenger touring car and were driven by George Cornell and M. A. Harbron, of the Western Michigan Motor company of Grand Rapids, old experienced drivers who said that they never had seen cars come through such trying driving conditions so perfectly.

After battling with snow drifts and mud, slush and rough roads for over five hundred miles, the cars were covered with a coating or dirt several inches thick in many places. They were put right into the washstands and within a few hours were placed on exhibit among the best looking and highly polished cars and claimed by their new owners who were only too glad to get them put through this test and appear as they did as if taken right out of the factory.

Notice to Water Consumers.

Water rents for the April quarter are now due and payable at the office of Waco City Water Works, 617 Washington. Fifteen days from the first are allowed in which to pay. Please come in before the last day and avoid the rush. After the 15th remember the penalty. Cemetery water rents for the year are also due.

Willys-Knight '8' Given Strenuous Road Test Before Final Assembly

"Visitors to the Toledo factory of the Willys-Overland company are commenting upon the thoroughness of the road tests to which the new Willys-Knight Eights are being subjected," recently said a local Willys-Overland dealer in speaking of the new model which is the crowning achievement of the comprehensive line manufactured by the Toledo automobile makers.

"In addition to passing through numerous inspections each Willys-Knight Eight is subjected to a rigorous road test, which lasts for several days before it is ready for final assembly.

"During the testing period these cars are driven from 200 to 500 miles over all sorts of roads by expert mechanics, capable of locating and diagnosing motor or chassis irregularities.

"Each morning a string of Willys-Knight chasses files out of the factory for its strenuous dajly grind.

"Each driver is instructed not to spare his car, but to give it the most racking usage possible and to carefully report the condition of the chassis and motor in his charge.

"No weather conditions are too severe, no road too rough for these testers, many of whm are ex-race drivers. These cars are driven in rain or shine, in sleet rain or snow, through snow drifts and over ice-covered roads, as well as over smooth macadam or asphalt pavements."

HORSE DEMAND IS ELIMINATED

"The strongest proof that the horse is eventually to be eliminated by the motor car is shown by the present situation in Chicago and New York City," said Stewart McDonald, vice president and general manager of the Moon Motor Car company of St. Louis. "At present there are no horses permitted on Michigan avenue in Chicago, nor on Fifth avenue in New York. People who have followed the automobile development will remember that a few years ago, no automobiles were allowed on Fifth avenue nor on Michigan avenue."

"The handling of the cars left for too long a period in the congested districts is different in most of the cities. In some it is left to the police officer's discretion to watch individual cars. In others the police officer pastes a warning notice on the wind shield. In Detroit, under a new regulation, the automobile is literally 'hand-cuffed' with a lock and chain and the owner cannot drive it away until he has had a 'seance' with the police officer on the block."

War Stops All Racing Indianapolis Speedway

The annual 500-mile automobile race, scheduled for the Indianapolis Motor Speedway on Memorial day, was declared off last Friday by James A. Allison, secretary-treasurer of the company, because of the war conditions.

"Racing means taking away from the government the services of skilled mechanics whose service can be used by the government to better advantage in time of war than by a speedway corporation as a means of entertainment," said Mr. Allison. "Furthermore, many materials and accessories used in racing will become absolute necessities in time of conflict."

Mr. Allison also announced that the big plant recently constructed for the manufacture of racing cars would be turned over to the government for manufacturing aeroplane motors. Several foeign and American cars had already been entered for the 1917 race.

FRAME OF 2000 TONS INSTALLED

"One of the largest steel presses in the world is now being erected at the Toledo factory of the Willys-Overland company," says Mr. Hendrix of the Overland Sales company.

"The new press is for the making of side rails for automobiles. It has a pressure of 2,000 tons and will press pieces of steel seventeen feet long and three-eights of an inch thick.

"This is the second machine of this kind to be installed in the Willys-Overland factories. The first, a toggle press of 1,000 tons pressure, was put in last spring.

"The new machine, which is to be used exclusively to make side rails for the larger models of the comprehensive Willys-Overland line, weighs 325 tons. Some of the single pieces weigh 40,000 pounds each. The press stands thirty-one feet high, twenty feet wide and is imbedded in fifteen feet of solid concrete.

"our men working at this machine can turn out 2,000 side rails each eight-hour day.

"The machine required one year to construct. Six flat cars were used to transport it to the factory."

BAR STRENGTH DUE MACHINE

Among the numerous machines devised for the express purpose of protecting the motor car owner against defective materials or workmanship is the transverse testing machine used in the physical laboratories of Dodge Brothers' Works of Detroit. It differs from the ordinary testing device in that it checks up both on the quality of work done in the foundries and on the quality of the material.

Sample bars of cast iron and aluminum are taken from every "heat" and subjected to a thorough examination under this machine, which obtains its name from the fact that it records the transverse strength of the bar under test. A delicate needle tells the laboratory man exactly what resistance the bar is capable of giving while under pressure. Although the hardness, depth of chill and amount of shrinkage on cast iron are also determined, this does not complete the tests, as the bars are then analyzed in the chemical laboratories.

This method of checking up is typical of the countless quality tests that go with the making of Dodge Brothers motor car.

Change Announced in Harroun Motor Staff

Ray F. Donahue, formerly assistant sales manager of the Ross Automobile company, has joined the sales staff of the Harroun Motors Corporation.

H. Montgomery, who has been connected with the purchasing department of the Hupp Motor Car company, has resigned to join the purchasing department of the Harround Motors Corporation.

W. G. Homan of the Jeffery Sales company of Texas is spending several days in Waco and visiting the dealers in the territory adjacent to Waco. The outlook for a big business on the Nash-Jeffery line is very promising, as practically every automobile dealer in the United States of any prominence is familiar with the great success made by C. W. Nash in every one of his past undertakings, and therefore are very much interested in his present line of cars.

W. E. Brown of the Brown Automobile company, in company with W. G. Homan, visited several towns in the territory controlled by the Waco distributors and report everything looking very much brighter since the rain, and these dealers ae looking foward to a heavy business in the near future.

The demand for the Harroun car and the amount of interest manifested in this car even before its delivery far exceeds anything ever experienced, according to W. E. Brown of the Brown Auto company, and from reports all over the entire country, the interest is just as great in every other locality as it is here. No other car has ever created so much interest, and no other automobile concern has ever been able to sell 95 per cent of their cars for five years before a single delivery has been made, and it now looks as if the entire output of the factory for the next five years would be contracted for by dealers from all over the world by the time the first shipment of cars is made, which is expected to be the latter part of April. The success of this company is unparalleled in the history of the automobile industry in this respect, never before has any concern been able to in any way near equal the record made by the Harroun company.

The Brown Automobile company announces the arrival of one of the new Nash-Jeffery roadsters, this car having a 53-horsepower motor and all the modern features to be found in the touring car. This roadster is now in display in the salesrooms at 905-7 Austin street, and every one is invited to call and see this particular model, as it is the only one of its kind ever seen here before.

A GRAVE QUESTION.

It has a human interest appeal to every family. Why not acquaint yourself with the advantages of lot ownership in beautiful Park Lawn before actual sorrow enters your life. Won't you call me up and let me send my car and bring you out and show you Park Lawn?

MOTOR TRUCKS PROMINENT IN RELIEF WORK

Truck Will Eventually Solve All Freight Congestion.

The prominent part which motor trucks are playing and can play in relieving the freight situation which prevails all over the country is described by S. M. Williams, sales manager of the Garford Motor Truck company. The motor truck, he declares, will eventually solve practically all freight congestion problems. Referring to the motor truck as an auxiliary of the railroads in the handling of freight, Mr. Williams says:

"Everything points to the more and more universal use of the motor truck for so-called long distance hauls. It makes possible, for the first time, an efficient haulage system direct from shipper to buyer. Thereby it eliminates that vast amount of time wastage which railroad haulage necessitates in trips to and from the freight houses. Furthermore the freight itself transported by motor truck is subject to less handling than when moved by railroad. By motor truck haulage it is handled twice—when loaded and when unloaded. By railroad transportation it is ordinarily handled at least six times—when loaded on the truck, when unloaded at the freight station, when loaded on the car, when reloaded on the truck and finally when unloaded at its point of destination.

"With the freight situation as it is today there would have been nothing for the shipper to do ten years ago except sit still and moan. When he couldn't get freight cars he was strictly up against it. There was nothing to take their place. Necessity, however, has given him an alternative today in the form of motor trucks. No longer is the 100-mile motor truck haul a subject of wonder. Instead it is a more or less common occurrence.

"In every sense of the word, emergency haulage by truck has been successful. Given reasonably good roads on which to travel there is no limit to the advantages of the motor truck for intercity or even interstate transportation.

"Much of the actual cost for railroad freight handling is due to operations which have little to do with the actual haul. There is, for instance, the great amount of time which the freight car spends in and about terminals, compared with the actual time en route. It is terminal congestion which plays such a big part in the high cost of living; which plays havoc with our export business and which often threatens the very life of the railroads themselves. The cure for this evil is the motor truck.

"General use of motor trucks will make it possible to turn every railroad siding within a few miles of the city into a sort of a terminal point, where rush and perishable freight can be unloaded into waiting trucks and hauled to points of destination in the city without delay. Business firms will no longer have their profits eaten up by demurrage costs and their delivery system will be more efficient than ever before.

"The recent action of the quartermaster's department of the United States army in substituting motor trucks for the best equipment of four-mule wagons that the army could get bears out the advantages of the trucks. Furthermore, in supplying a camp two miles distant from a railroad each truck is said to have been the equivalent to seventeen wagons under the mule system.

"Inasmuch as motor trucks have done this for the army, they can do the same for any big business."

Peerless Plans Factory Floor Space 500,000 Feet

Arrangements are now complete at the plant of the Peerless Motor Car company in Cleveland for the removal of the passenger car department into the new group of factory buildings which have been erected to take care of the increased production of the Peerless model "56" eight cylinder car. This group of factory buildings affords approximately 500,000 feet of additional floor space, which is to be devoted exclusively to the manufacture of Peerless "eights."

The new buildings will house the departments which manufacture the Peerless eight cylinder two power range motor, the body building department and the painting and finishing departments.

A PROMISE FOR MORE INTEREST AUTO TOURING

A number of Events of Importance Have Been Scheduled.

There promises to be a very decided revival in touring interest during the season of 1917, and this is very welcome to the rank and file of motordom. Many events of importance have already been scheduled, and that others will be seems to be a certainty.

Plans for the overland automobile caravan to be sent out in May by the San Francisco Advertising club took a military turn recently. In the belief that the tour will be of great value in testing actual road conditions between San Francisco and Denver, Gen. J. Franklin Bell, in charge of the western department of the United States army, was asked to send a military observer or two with the motorists. There are three trunk line railroads extending through this region. Should these be disabled thru the mountain stretches the roads would assume vital importance and precise information would be necessary. This applies not only to the Lincoln highway, but to alternate routes, one of which the advertising men will take.

Interest in the great intercity reliability contest has already been noted. This contest between amateur drivers, amateur under the definition of the American Automobile association, is growing rapidly. Detroit, Chicago, Indianapolis, Buffalo, New York and probably Philadelphia, Boston and Cleveland will have teams in this three-day contest, July 17, 18, 19. The tour will have Buffalo as its base, and will bring together from 150 to 250 motor enthusiasts.

Plans to extend the East Michigan Pike tour in Michigan are being seriously discussed. There seems to be a strong likelihood that this annual event, promoted two years ago to boost good roads work along the pike from Detroit to Mackinac City, will cover the original route and then go down the West Michigan Pike and across one of the projected highways of Southern Michigan to Detroit. The annual tour of the West Michigan Pike association to Mackinac, starting from Chicago, is to be again promoted.

Automobile caravans across the Lincoln highway from coast to coast, from intermediate points to the coast and from the Pacific to the East, are being planned in many quarters, but most of the international touring will be by individuals and by smaller parties and will be much greater than in 1916.

Disbrow Uses Brains in the Racing Game

To nine people out of ten the conception of a driver of racing cars is a man with ability to pilot a speed demon skillfully and with daredevil nerve to the limit of his car's capacity. The man or woman who sits in the grand stand as the racers fly by thinks of the driver as a man who does nothing but step into his mount, drive his race and then step out again. Some of them do, but Louis Disbrow, king of dirt track drivers, is an exception.

When Disbrow engaged actively in racing he exercised his brains before a race as well as during it. In common with several other champions he designed his own speed cars, and, unlike automobile engineers, his schooling came by actual experience rather than the blue print route. He was a practical engineer, not a theorist, and his common sense methods in redesigning and rebuilding every car he ever drove brought him the coveted honors. Other drives, notably Ralph Mulford, Dario Resta and Ralph De Palma, have also distinguished themselves for their ability in so changing cars as to win races where they otherwise could not.

It is quite natural, therefore, that Louis Disbrow should appear in his present role of designer of the Disbrow Special, built in his factory in Cleveland, designed to appeal to those who like the semi-racing "sport car," and capable of traveling as fast as ninety-seven miles an hour.

RESUMES PRACTICE.

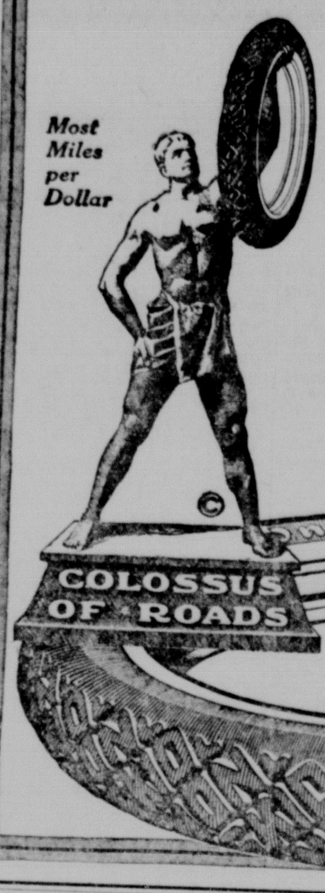

Dr. Doyle L. Eastland has opened his office at Suite 320, Peerless Bldg.—Adv

COTTON FABRIC IMPORTANT.

Cotton fabric forms a large part of an automobile tire, and for this use it must have a great tensile strength and an exceptional degree of flexibility. The Goodyear Tire and Rubber company uses a large quantity of Egyptian cotton in its tires because of its superiority over ordinary grades of cotton in these two respects, although its cost is much greater. The growing season of Egyptian cotton occupies about nine months. The land is prepared in the autumn and winter and the seed planted early in March. Picking usually comes in October and is paid for at the rate of 2c a pound. An experienced picker can pick about 150 pounds a day.

A set of high grade band instruments at about one-half price. Instruments of all kinds repaired. Prices reasonable. Charles Parker, Waco, Texas 508 1-2 Franklin St.

Best Tire Service Means Firestone and It Means Us

It means that you get the benefit of expert tire building in the first place by equipping with

Firestone Tires

It means the expert tire service, courteous and reliable help which is always available at our shop.

Remember that Firestone Tires are made by specialists in the World's Largest Exclusive Tire Factory. But Firestone building methods and this immense volume, added to their economical distribution, enable them to charge as low as for ordinary tires.

And our shop backs up the Firestone Service. Call on us

A Built-In Starting and Lighting System for Fords That Will Work INVARIABLY

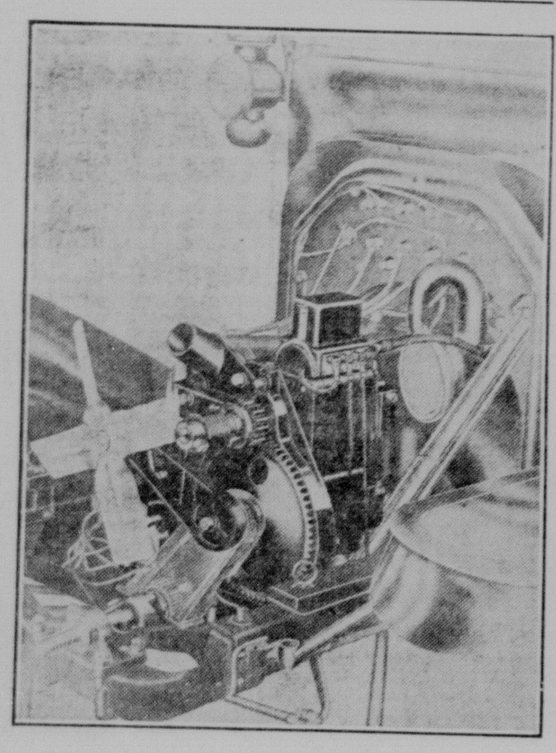

HEINZE-SPRINGFIELD

This combination Dash Switch, Ammeter and Dash Lamp, furnished with each Heinze-Springfield Ford system. ¶ Conveniently placed on the cowl, to the left of the steering post. ¶ Controls Heinze-Springfield Starting and Lighting and Ford Ignition. ¶ For starting—only necessary to press button. ¶ Turn lever for regulating lights and ignition. ¶ Dash lamp conveniently placed to light Ammeter and Switch. ¶ Simple, compact, durable and elegant in appearance.

A SIX-VOLT, TWO-UNIT SYSTEM—WITH BENDIX DRIVE

A six-volt 80-ampere-hour battery, together with battery box wires, cleats and directions furnished with every system.

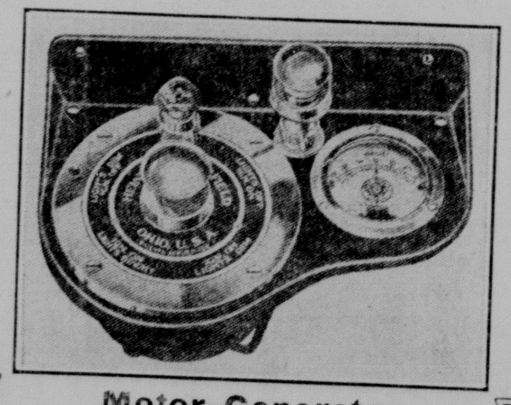

Heinze-Springfield voltage and current controllers, are unusually durable, compact, accurate and reliable.

Does Not Decrease Engine Power

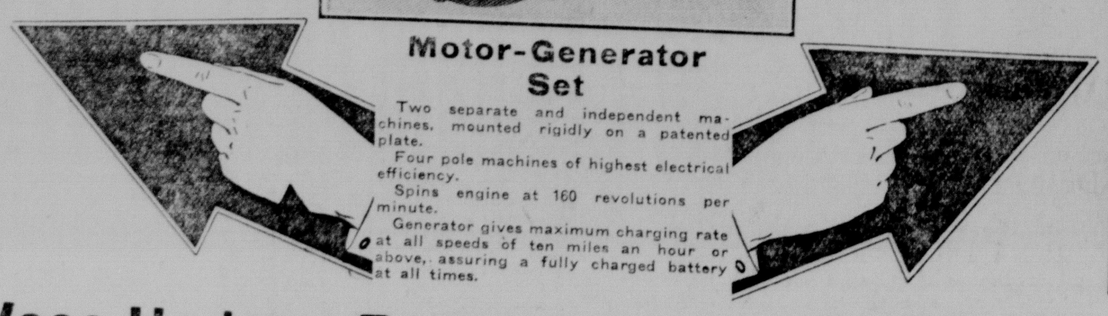

—Many starters now on the market cut down the engine power.

—The Two-Unit principle, light weight and low generator speed, eliminates the excessive drain on the engine.

A Touch of the Button Starts the Engine

—Think how different this is from the hand-blistering, temper-trying process of cranking your car by hand. No more sweating and "cussing" if you have a Heinze-Springfield.

Motor-Generator Set

Two separate and independent machines, mounted rigidly on a patented plate.

Four pole machines of highest electrical efficiency.

Spins engine at 160 revolutions per minute.

Generator gives maximum charging rate at all speeds of ten miles an hour or above, assuring a fully charged battery at all times.

INSTALLATION

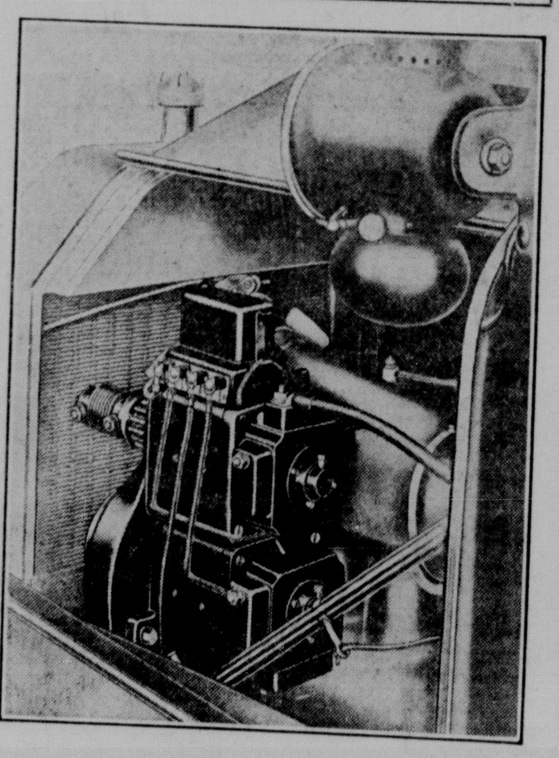

A BUILT-IN system. Not an ATTACHMENT, insures against chain breakage.

Not a makeshift, patchwork or stuck-on proposition.

Not a single additional hole to drill, or a file to touch in the installation.

Absolutely no wrong way of mounting this equipment.

Heinze-Springfield patented chain adjustment prevents loose and noisy chains.

TRAIN ALIENS IN OUR IDEALS

One of the first of the great manufacturing concerns of the country to realize that the inculcation of American ideals in our alien-born workmen must be worked largely by the employes themselves is the Goodyear Tire and Rubber company of Akron, Ohio.

This company is making great efforts to educate these alien workmen to understand our language, customs and living conditions—to show them that just so long as they neglect to learn our language, live in unclean surroundings and below the American standard of living, just so long will they fail to attain the respect of their American-born fellow workmen.

The instrumentality which the company is offering to these alien workers to perfect themselves is the Goodyear factory school, which is more and more attaining the proportions of a university. There are now 1,000 pupils enrolled in the various classes, requiring the services of eleven instructors. Among the alien workmen taking advantage of this opportunity to advance themselves are represented twenty-eight different nationalities.

A recent canvas of the school showed that more than half of the aliens attending had already secured their first naturalization papers, and that many were eagerly awaiting the expiration of the five-year residence requirement. These workmen are making an honest effort to learn the language and customs of their adopted country, and will become good citizens of the republic. Many who had formerly questioned the advantages of speaking our language have greatly advanced themselves in many ways—a mere knowledge of our tongue seeming to open up opportunities for them.

Now that these workmen have been brought face to face with war conditions, with which many of them have been familiar in other lands for years, they have taken pride in declaring allegiance to their adopted country.

A Pirate.

"What's a pirate?"

"A pirate is a man who tries to conduct a small, independent maritime business on the same lines that great nations occasionally pursue."—Washington Star.

Nash Motors Company Doubles Truck Output

Because of the great inrush of orders for Jeffery all purpose and quad trucks during the past thirty days, C. W. Nash has called a conference of his factory head and ordered truck production doubled.

At the same time a definite manufacturing program was decided upon for the balance of this season, and the season to come, which includes the production of a greater number of Jeffery trucks than the factory has ever built pleasure cars in a single season.

In commenting on the situation Mr. Nash says:

"Particular credit is due to our eastern dealers who have been active in spite of the critical conditions they have had to face because of the railroad situation. Trucks have been driven overland as far east as Pittsburg. Carload after carload of all purpose trucks have been shipped to points east of Chicago by express. In many instances combined truck and pleasure car shipments have gone forward in trainload lots to avoid the freight embargoes."

Reason "Shops" Reckless Free Medical Attention

Harry S. Houpt, president of the Hudson Motor Car company of New York announces that he has arranged for free medical attention for chauffeurs at the new garage which the company recently opened in West Sixty-eighth street, just west of West End avenue. The physician in charge also will make visits to the homes of the chauffeurs for a moderate fee.

The new garage is fireproof, being fitted with the very latest fire preventive appliances. It has been found that the use of ramps instead of slow moving elevators has greatly reduced the time necessary to bring a car in or out of the building, and has saved chauffeurs long delays in answering hurry calls from car owners. The use of the concrete guide or pilot strip between the spaces allotted to each car has prevented damage to any of the cars stored in the building and eliminated one of the annoyances inseparable from the ordinary constructed garages.

Mr. Houpt has employed a number of guides to show visitors and prospective patrons through the plant, which is open for inspection daily.

MEASURE RULE MIGHT CHANGE

"Will the present war change our automobile measurements from the English inch standard to the foreign metric system?" said R. L. Heising, chief engineer of the Moon Motor Car company of St. Louis. "The fact that we use the English measurement has been a very great handicap to American automobile manufacturers in the shipping of motor cars.

"While our standard measurement is English it must be said to the credit of English motor car builders that they use both the inch and foot measurement, and the French metric system, and all other European countries exclusively use the metric system.

"I predict that we will fall into the metric system, in order to meet the worldwide demand for American made motor cars. My own company is developing a very large business in shipping cars to foreign countries, such as to Spain, Norway, Sweden, the West Indies, and all of the South American countries. We find that our difficulty lies in the fact that unless we send parts to our agents in these countries, they are handicapped because miscellaneous parts needed by them, such as nuts, bolts, etc., are all cut on the metric system, and they must have American parts because they cannot use the metric. The mechanics in these countries cannot even cut threads to fit American cars because all of their dies are metric.

"I strongly predict that we will be forced into the use of the metric system for automobiles by this war, and it would not surprise me if our entire system of measurements for all purposes in this country would be changed by congress to the metric."

A-B-C Granted License on Three-Way Generator

A license has been granted by the A-B-C Starter company of Detroit on its three-way generator drive to the Brush Engineering association of Detroit, of which "Al" P. Brush is president. This license covers the application of this drive to automobile motors and cars built by clients of the Brush Engineering association.

A "Steering Committee" for Automobile Men

The Council of the Society of Automobile Engineers has appointed what is known as a "steering committee," whose duty it is to discover all ways in which it is possible for the society membership to co-operate with the government in military matters. The committee of three consists of George W. Dunham, president; W. H. Van Dervoort, past president, and Jesse G. Vincent, member of the S. A. E. Council. This committee expects to make thorough investigations at Washington and to report to the society at the next meeting of the council.

With the object of increasing the finances of the Society of Automobile Engineers, the council has practically approved of an idea by which it is hoped to raise upward of $500,000 by subscriptions as an endowment fund for the society. The revenue for this amount, according to the arrangement, is to be used for such work as standardization, research, educational and government co-operation. For a year Christian Girl, president of the Autoparts company, Cleveland, and also on the finance committee of the society, has been working on an idea embracing subscriptions from a wide range of manufacturers and others connected with the automobile and accessory industries.

The disposition of the endowment will rest with the committee of five, made up of three past presidents of the society and one member each from the automobile industry and the accessory industry.

MOTORCYCLE AIRPLANE.

A newcomer into the family of war appliances is the motorcycle carrying airplane. A special platform built between the planes, just outside the body of the airplane, carries the motorcycle. The addition of this machine greatly enhances the effectiveness of the airplane, and affords a quick means of land travel in case of a shortage of gasoline or disability of the airplane engine. If the aviators who were lost in the Mexican desert during General Pershing's expedition had been equipped with motorcycles, their return to headquarters would have been a matter of only a few hours instead of a three days' wait for the searching party. Goodyear tires are equipping both motorcycle and airplane in the combination.

CHALMERS CAR CROSSES STATES

San Francisco, April 14.—Running on ordinary coal oil or distillate, covering a stretch of more than 300 miles in reverse gear and plowing through hail large enough at times to smash the thick glass of the headlight, a New England family of ten browned faces motored into San Francisco this week.

Abraham Toube of Portland, Maine, is the owner of the car and father of the eight children too happy to boast of the various records they have hung up on the long overland ride.

Papa Toube is a Russian by birth, as are the two oldest children; the mother is German, and the balance of the family, down to the wee little girl 5 months old, are sons and daughters of Uncle Sam.

"I don't care what they do with the czar of Russia," said Toube, referring to the overthrow, "I am an American today; at least, at heart. And I, with my five boys, when old enough, will rally around Old Glory any time we are needed."

The quaint looking tourists left Portland, Maine, some three months back in their Chalmers, that they had already driven eight years. Taking their time en route and working in various capacities along the road, the New Englanders were the object of interest in every state and town they visited.

Just outside of Needles, Cal., the ancient Chalmers was dashed against a rock in the Parker cut-off, incapacitating all save the reverse gear in the transmission. Toube, senior, was not discouraged and backed his car the entire distance into Los Angeles, some 315 miles.

Regardless of the make, this rare old relic of the first Chalmers models attracted attention from the most of the motor homes along San Francisco automobile row. Among the many interested onlookers was Fred Junk, famous Chalmers driver at Pike's Peak and other exhibitions.

"For many years," said Junk, "I have been a devotee of the automobile game. I am a member of the A. A. A. and watch continually for new records of every description. Beyond doubt, the 300-mile reverse-gear record of this old Chalmers is without parallel anywhere. Unfortunately, it is something that as yet the A. A. A. has not recognized as a classified record, but nevertheless it will be many months before another car is backed over 300 miles on a nine-day continuous run."

Positively the Worst.

Chollie—I shall be in the social eye next wintah.

Ferdie—Aw, yes, haw! Social eye.—Jack o' Lantern.

All Drexel Deliveries Made With Promptness

Advices received last week by the Drexel Sales company of this city from the Chicago factory are to the effect that production is now well under way and that shipments are being made regularly to distributors and agents of Drexel cars throughout the country. The output, like those of many other motor car concerns, was held up temporarily by inability to obtain certain units. This lack has now been supplied, and the cars, both of the eight and sixteen valve types, are coming through the factory at the rate planned.

The production schedule for 1917 sales for the manufacture of 5,000 Drexel cars. The material for this output is now on hand at the factory or contracted for. The installation of new machinery has gone steadily forward for some months, including multiple spindle drills, a milling machine and others, which will enable production to be speeded up to the limit in a few weeks.

PAIGE

PAIGE

The Most Beautiful Car in America

NATURE is reawakening. And with the coming of Spring, Summer and the Season of Outdoor Living comes the Call of the Road. For the Joy and Comfort of Touring you and your family require a car you are sure of, a car in which you are comfortable, a car you are Proud of.

Such a car is always a Paige. And if your needs require a five-passenger car such, in fullest measure and without an equal, is the new Paige Linwood "Six-39." It has all the essential features of the most expensive cars and the price is only $1175.

You will find Comfort in the roominess, in the luxurious upholstering and finishing, in the tremendous power of the motor and the delightful ease—scarcely a finger pressure—with which you can drive, control and steer this amazingly lively car.

You will find in the Linwood the Pride as well as Satisfaction which every Paige Owner feels and declares in his Paige.

MOTORS AND MEN ROLL SMOOTHER IN HIGH GEAR

Spit and Sputter and Knock When Compelled to Crawl.

Motors are a good deal like men. Very many of them, when everything is wide open and they are hitting it up at top speed, give excellent performance, but spit and sputter and knock a bit when compelled to travel at a slower pace," says H. C. Brokaw, principal of West Side Y. M. C. A. automobile school.

"This is not moralizing, but the natural deduction from the complaints which are coming to our school. A great many drivers want to know why it is they cannot throttle down the engine; they say it will pull well at medium or high speed, but skips at the lower speeds.

"Where magneto ignition is used this often may be overcome by adjusting the interrupter points for a little wider gap. That makes the interrupter points open a little earlier and causes the spark to occur when the magneto armature is in a more favorable position and the spark therefore has more kick in it.

"The interrupter points usually are adjusted for normal running speed, or a little higher than medium speed. Increasing the number of revolutions per minute of the armature causes a distortion of the magnetic field, which tends to follow the armature. This distortion is not so great at lower speeds. To overcome the distortion, which in effect twists the field around so that the points do not open at the period of greatest current potency, we must change the time when the points open and cause the spark; therefore, to get the best spark it is necessary to have the points open earlier. Widening the gap between the points accomplishes this.

"If the engine misses at high speed we close the points a little to make the opening come later, and when in better armature position, the action being just the reverse of that in foregoing paragraph.

"Widening the gap of the spark plug also will help to overcome skipping at low speeds. At low speeds a full charge of gas is not drawn in, and compression is low and temperature low in consequence, and the mixture is not so near the self-ignition point when the spark occurs as it is at higher speeds. Therefore, a better spark is needed to ignite it. By widening the gap in the plugs the secondary current is held back until it acquires high enough potentiality to jump the greater gap; so that when it does an exceptionally powerful spark is obtained.

Widening the Gap.

"This may be demonstrated with the use of a vibrating coil. Set one of the cylinders on top of compression ready to ignite. Turn on the current, and while the vibrator will buzz the spark inside the cylinder is not strong enough to ignite the charge. Now detach the spark plug wire and hold it close to the outer plug terminal and turn on the current. The extra gap will increase the strength of the spark in that cylinder and it will ignite the charge, starting the engine. This has led to the use, in some instances, of outside spark-gap attachments.

"Widening the gap and getting a longer spark is not what ignites the charge. It is simply that the greater gap causes the current to build up to a higher pressure, or voltage, before it will jump the gap, so that when it does it is of greater intensity.

"There are several other things about sparking not generally understood by the novice. The general opinion is that the greater insulating surface of a plug there is inside the cylinder the less likelihood there is of short circuiting, and consequently the more certain will be the spark occurrence. This is only partly true. It is true so far as short circuiting is concerned, but where the surface is too great and soot or carbon is deposited upon the insulator surface the carbon acts as a condenser and absorbs the secondary current. The effect is that it will not build up a sufficiently high voltage to jump the gap. Very heavy insulation on the secondary wires absorbs current in the same way.

Crack in Porcelain.

"The fact that the spark jumps across the points of the plug when it is in the open air does not necessarily mean that it jumps when the points are under compression in running conditions. A current which will cause a spark to jump a half inch in the open air will cause it to jump only a gap of 1-32 inch in normal running compression. Failure to appreciate this often results in a man thinking his ignition is all right when there may be a crack in the insulation so small that it scarcely can be seen with the naked eye when cleaning the plug, or there may be a porous spot in the porcelain, either of which would leak current under compression. Many manufacturers test out the porcelains to see if they leak, using a spark gap of ¾ inch under a very high voltage.

If there is carbon on the porcelain the current will travel through this under high compression very often, because there is less resistance offered by the carbon than by the spark gap. It short circuits the plug and there is no ignition. Yet when the same plug is removed and tested in the open air there will be a good spark. The resistance of the gap in the open air would be less than the resistance offered by a path through the carbon coating.

"If on testing a plug in this way there seems to be a good spark, yet the cylinder will not fire, clean the plug thoroughly and try it out in the cylinder. If it still does not fire try a plug which you know is all right and see if it fires. If it does you may know that the old plug leaks current somehow and probably needs a new porcelain. It is a common error with motorists when cleaning a spark plug to polish up the points and call it a job. What is really required is to remove all of the carbon, which is a fair conductor of electricity, from the porcelain or mica and get it back into the insulator class again.

"The conditions which allow the adjustment of the interrupter points to accommodate certain speeds in magnetic ignition do not arise when battery ignition is used. Battery interrupter points usually are adjusted for an opening of 1-64 inch and the gap at the spark plug points must be greater to intensify the current, as described.

"The condenser is another point of possible trouble. The condenser increases the volume of the spark about twenty-five times. We often find that a weak spark may be caused by a partial breaking down of the condenser, or occasionally owing to the fact that it is disconnected at the terminal. Condensers usually are hidden away so that the novice cannot locate troubles of this nature, but an excessive sparking at the interrupter or vibrator points, with a very weak spark at the plug points, indicates that the condenser is not working properly. Where ignition is used, because the spark given by battery systems is naturally of less volume than that given by the magneto. Therefore, the gap must be greater usually than when magneto there is this sparking have an expert examine the condenser for trouble."

A HINT ABOUT THE "CHOKER"

"Warn the motorist of impending trouble," says Max Hagelstein, service manager of the Studebaker corporation, "and he'll stretch a point to meet it. So I hope this advice will be taken as a warning that spells trouble if it is not given the attention it deserves.

"It is obvious that the idea of flooding the carbureter is to obtain a temporarily enrichment mixture, but the value of the flooding is lost if it be done when the cylinders and induction pipes are full of mixture. When using the 'choker' the carbureter needle is lifted free from the seat, all air passages are closed and raw gasolene is supposed to be thrown into the cylinder in order that your starting condition will be similar to that when a motor is primed. But ignition does not occur immediately when there is kerosene in solution with the gasolene, and if the 'choker' is used excessively an accumulation of this solution will surely find its way into the oil pan.

"I have seen the owner of an automobile pull the choke switch way on and then press the starter button ineffectually five or six times in cold weather. He finally gets an explosion, but the constant flooding of the carbureter causes this solution of kerosene and gasoline to mix with the oil, thinning it and weakening its lubricating values.

"When starting your motor in cold weather try turning the engine over a few times with the switch off before using the choker. In this way the air is expelled and a thin mixture of air and gasoline is inhaled in its place. Flooding then gives a temporary rich mixture in the cylinders and the engine should start at the first trial. This is the procedure the professional driver often adopts when his motor is cold.

"During a continued cold spell it would be decidedly advantageous for the motor car owner to use fresh oil frequently, drainoing the oil pan, and washing it thoroughly before refilling. In warm months it is not necessary to do this quite so often.

BABEL PROBLEM EXPLAINED THRO BASRAH PEOPLE

(Associated Press Correspondence.)

Basrah, Mesopotamia, April 14.—The difficulties which the ancient builders of the Tower of Babel experienced with the language difficulty may be easily understood by anyone who has spent a little time in Basrah. Not the least of the many problems presented for solution to the British authorities in their operations against the Turks has been this same problem which the contractors for the old Tower wrestled with many centuries ago.

The dialects in common use at Basrah are said to be over forty in number. The most popular is Arabic, but it is not the Arabic of Egypt or Morocco, it is a distinct tongue, with which the Egyptian or Moroccan experiences the greatest difficulty. Then there is Persian, with variations known as Bagdad-Persian, Nejd-Persian and Basrah-Persian. Turkish is frequently heard, while Armenian and Shaldean are the languages of the native Christian population. Kurdish is used by another section of the inhabitants, while Hindustani is the language of the Indian troops forming part of the British forces.

It is obvious that in such a situation hundreds of interpreters are needed. A small squad of them is attached to every office and almost every officer. Some of them were obtained in Egypt, some from India, others from Aden, and the remainder were recruited locally. Those from India have in most cases acquired their knowledge of Arabic and Persian from classical works, with the result that their high-flown, archaic conversations sounds amusing when applied to everyday affairs.

The interpreters drawn from Basrah are undoubtedly the most generally useful, although not always entirely trustworthy. Most of them are natives of Iraq and familiar with numerous local dialects too numerous to even have a name. These native interpreters, too, are less susceptible to the weather than men from outside, and tehrefore the proportion of their time spent in illness or semi-illness is small.

But the native Mesopotamian has many of the failings of the American negro. He is inclined to prolonged spells of laziness, when he has earned a few shillings, he is disinclined to continue his labors; at times he is overcome with a longing for the delights of his own fireside, and at such times he simply drops tools and goes home. The fact that he has contracted to give his services for a fixed period he regards as quite unimportant. Such an event as the date-picking season is as irresistible an attraction for him as the odor of cooking chicken or cat fish for the Mississippi negro.

The pay of the interpreter varies according to his ability and reliability, but the appointment is always a lucrative one. A first-class native can earn as much as $75 a month, which is a fair-sized fortune to the native in Mesopotamia.

The cream of the interpreters are attached to general headquarters, slightly less valuable men get jobs at corps or divisional headquarters, while the rank and file are distributed along the lines of communication.

10 Days Trial to Ford Owners at our risk

Let us equip your Ford with HASSLER SHOCK ABSORBERS. Ride on them for ten days. If you are then willing to do without them, we will take them back without a question. Two hundred thousand sets have been sold in this way. No Ford owner will put up with the jolts and jars of rough roads after he realizes what a difference these shock absorbers make. That is why we can afford to make this offer. The

For FORD Cars — HASSLER Shock Absorber — For FORD Cars

is specially designed for Ford Cars exclusively. It goes on easily, and fits right in with the working of the leaf springs. It provides easier downward motion than the leaf springs alone can provide. It prevents the troublesome rebound which is so common with leaf springs. It takes the discomfort out of any ride.

HASSLER SHOCK ABSORBERS would make your Ford easier-riding than any car costing $2000.00 or less. Just imagine for a moment the difference between riding in your Ford now and in a $2000.00 car and you will have some idea of how much pleasure these shock absorbers will add to your motoring.

Studebaker

The Studebaker SIX

—As to Quality

For sixty-five years the name Studebaker has stood for honorable dealing with the public.

Studebaker has put into its product the most careful and experienced workmanship and the best materials that money can buy.

These combined with time honored honesty are the things that make quality.

In the Studebaker Six, quality is present in the material, deep in the vital parts where it is revealed by years of durability and by silent, smooth running efficiency.

There is further evidence of Studebaker quality which you can plainly see.

Compare its beautiful paint and varnish work with that of any car on the market.

Compare the quality of its genuine leather upholstery with that of cars costing $2000 or over.

Note the high grade, leather bound crimson carpet in the tonneau, the genuine, pin tumbler Yale ignition lock.

Note the heavy gauge crown fenders, the beautiful head lamp mountings.

These are outward evidences of quality, but the real quality in Studebaker cars is that which meets emergencies, the life giving "factor of safety" which is splendid insurance for you to buy.

Come in and let us show you point by point the evidences of Studebaker quality.

Let us convince you that to equal the Studebaker in quality you have to pay many hundreds of dollars more.

It is well worth your while to investigate.

VETERAN SOUTHERN PACIFIC CONDUCTOR TELLS EXPERIENCE

CAPT. SNYDER COULD HARDLY STRAIGHTEN UP WHEN HE STOOPED OVER—GAINS 15 LBS. ON TANLAC AND TROUBLES ARE OVERCOME.

It is doubtful if there is a better known or more popular railroad man in San Antonio than Captain P. A. Snyder, who is among the oldest conductors in point of service in the state of Texas, having been in the employ of the Southern Pacific for many years, and a railroader for nearly forty years. Captain Snyder recently said:

"I have actually gained fifteen pounds on two bottles of this Tanlac and I want to buy a bottle now for my son. For over a year I suffered terribly with something like rheumatism. Whenever I would stoop over and try to straighten up it would just seem like both my sides were being torn open almost. The pains would strike me and give me such a misery that I would have to hold my hand on my side to ease it up and help me along.

"Several articles came out in the paper about people here who were well known, telling how they had been helped by Tanlac and I thought it might help me and I certainly needed something to stop these awful spells, so I got a bottle and started taking it.

"A medicine that will do what those two bottles of Tanlac did for me is certainly a good medicine. I have not only gained fifteen pounds, but every pain I used to have has been relieved. I am not taking Tanlac now, because my rheumatism or whatever it was, is entirely gone and I don't need any more, but I do want a bottle for my son to take.

"I am glad to recommend Tanlac, because it did me a world of good and proved to me that it will do what people claim for it."

Tanlac is sold in Waco by Morrison's Old Corner Drug Store under the personal direction of a special Tanlac representative.—Adv.

EUTERPEAN CLUB'S NEW THEATRICAL.

While Percy Grainger, the celebrated young pianist and composer who has made such a sensation in this country, was in a small town in Lincolnshire, before he came to this country, he was spending most of his time searching for natives of the place who could sing old folk songs for him. Of course he is the leading authority on this particular branch of music in England. In fact, his own work has been influenced to a certain extent by the natural ingenuous music that originated many hundreds of years ago among the yeomanry and the minstrels of old England.

Upon one occasion Mr. Grainger had discovered an old woman who knew a folk song which he particularly wanted. As is quite frequently the case, however, she considered the song to be her own property, and refused to allow him to learn the words or to copy down the music as she sang it.

Mr. Grainger has enough youthfulness and ingenuousness not to bother about appearances when he really wants a thing. So, nothing daunted, he set a trap for the old woman. He connived with her daughter to bring her into the room and get her to sing the song. The young genius now dived under the bed, and frantically jotted down the music of the song as the old woman sang it.

The story illustrates very clearly the boyish personality of the pianist. This characteristic has made him a favorite everywhere he has traveled in his two years of triumphant concert tours in this country.

Card of Thanks.

To say that we thank our friends for the many kindnesses extended to us in our recent bereavement seem as empty words when our feelings of gratitude are so deep that we find it as impossible to give them utterance, as it is to define the extent which the bitter poignancy of our grief has been softened by the sweet solace so sympathetically tendered.

J. A. LEMKE AND FAMILY.

A transparent shield to be fastened to one side of an umbrella has been patented in a driving rain.

Headache-Depression?
FROM KIDNEY DISORDERS

Headaches and depression may be due to several causes. Perhaps yours mystifies you? May be kidney and bladder disorders is the cause? If so, you surely want relief and restoration.

Indiscretions in eating and drinking bring on such troubles very gradually, sometimes—at other times quickly.

BALMWORT TABLETS
DIURETIC

will bring the desired benefit if such symptoms are present as these: If the secretion that passes is highly colored, strong of odor, insufficient or too copious, followed by pain, burning, irritation, smarting, etc. If chills or fever come and go, if the head aches, the eyes burn and general discomfort and nervousness besiege you.

ARE NEEDED BY YOU

Not secret, not new, just right and true. Sold by all druggists.

Bids Will Be Asked for South Fifth Paving

A recommendation that bids be asked for paving South Fifth from Jackson to Speight will be made by Mayor John Dollins tomorrow at a special meeting to be held at 10 o'clock. At this meeting contracts may be let for the four new bridges which are to be built of permanent material. Bids on these already have been submitted. At the short session of the commission held yesterday morning an ordinance was passed abolishing the office of city bacteriologist; also an ordinance was passed forbidding the stopping of vehicles or placing other obstructions within fifteen feet of any fire hose in the city.

MORE THAN 2,000 MEDALS.

Germany Holds Record for Satirical War Souvenirs.

In Germany more than 2,000 commemorative medals have appeared since the war, and one catalog of an Amsterdam dealer has 122 pages listing 1,209 items.

The satirical medal existed in the Middle Ages and ran the gamut from simple puns to deplorable exhibitions of rage at enemies. The medal as a medium for satire and hate did not break out very strong until the present war was well launched. Most, practically all, of these medals are directed against England.

The Lusitania medal is perhaps the most interesting of the lot. On one side we have a window with the legend, "Cunard Line," with death as the ticket seller and numerous prospective passengers hastening to buy tickets on the ill-fated vessel. Above is a legend which may be freely translated as "Business before everything," referring to the nation of shopkeepers. The other side shows the mighty vessel in its death agony. Inscribed on it are legends, "No Contraband Can Pass," and the fact that the big Cunarder was sunk by a German "diving boat." Unfortunately, the date is two days ahead of the time when it disappeared beneath the surface. Some numismatists consider that this was an accident, but it is hard to make a misprint in a die.

That two Von Tirpitz medals are dated February 18, 1915, and show Germany as Neptune rising from the sea to strike men of war and merchantmen. The legend, "Gott Strafe England," has awarded them the titles of "medals of hate."

Uncle Sam comes in for his share of venom on a medal showing, on one side, President Wilson gotten up as a Roman emperor with the legend, "Liberty, Neutrality, Humanity." On the reverse Uncle Sam is seated on a pile of cannon balls. In one hand he holds a submarine and in the other a sack of gold bearing the number 100,000; the legend reads, "America's Neutral Commerce."

The satiric medals made little progress in England, but their humor took the form of making bogus iron crosses which were attached to dog collars and were sold for one penny. The English soon tired of this when they realized the sternness of the war and that this was a time when the making of munitions was more to be desired than making derisive souvenirs.—Albert A. Hopkins in the Scientific American.

Misled.

"You don't know much about the current styles."

"Not much," assented Farmer Corntossel. "When my boy Josh come home wearin' clothes in the latest fashion I thought he was payin' a freak election bet."—Washington Star.

OLIVER FACTORY MAY NAME WACO SHIPPING POINT

William A. Parker in Amicable Building Announces Possibilities.

Plans to make Waco the biggest branch distributing point for typewriters in the world are being worked out by William A. Parker of the Oliver Typewriter company. This will be a new business for Waco and every effort will be made to secure the project for this city.

Mr. Parker has had years of experience in the typewriter field with the Oliver people and has spent the larger part of the time in Latin America. If Waco is selected as the distributing point, service will be given all this section of the United States and the South American and Mexican countries.

There are to be three of these points: New York and San Francisco have already been selected as stations and it remains for Waco to take advantage of her chance and be the third. Mr. Parker will have complete control of the business and will make contracts with the railroads to ship typewriters in carload lots. This manner of shipping typewriters is now and has never been used before.

Mr. Parker maintains offices in the Amicable building and is rapidly drawing up his plans to make Waco a typewriter city.

Promptness.

"Then," said the young man with a tragic air, as he was leaving the room, "this is your final decision?"

"It is, Mr. Carrots," replied the young girl, firmly.

"Then," he replied, his voice betraying an unnatural calmness, "there is but one thing more to add."

"Yes?" she questioned sweetly.

"It is this—shall I return those white satin suspenders by mail, or will you have them now?"—Harper's Magazine.

KEPT DIVORCE A SECRET.

Mrs. W. F. McCombs Obtained Her Decree Several Weeks Ago.

Mrs. Dorothy William McCombs has obtained a divorce from William F. McCombs, formerly chairman of the democratic national committee and candidate in the last election for United States senator from New York.

The decree was granted in the supreme court in Rockland county several weeks ago, but news of the decree was not generally known until the other day.

Mr. McCombs, who has a law office at 15 Wall street, admitted that a divorce decree had been granted.

"It is true," he said. "I cannot make any comment on the case. The marriage was unhappy from the beginning. I can say no more than that.

"It was a very unfortunate marriage," added Mr. McCombs. "The case was in Rockland county and was started during the last campaign. It was contested. I was then running for senator."

William F. McCombs, close friend of President Wilson, and Miss Dorothy Williams, daughter of Colonel and Mrs. John R. Williams of Washington, were married in London November 7, 1913, by the Rev. Father Bernard Vaughan in the Church of St. Peter and St. Edward, Westminster. It was a brilliant event and attracted considerable attention in London. The engagement had been announced only the day before the ceremony. The bride previously had been engaged to marry Maj. Archibald Butt, President Taft's aid, who was lost in the Titanic disaster.

The guests at the wedding included Ambassador and Mrs. Walter Hines Page, Myron T. Herrick, the Earl and Countess of Craven, the Earl and Countess of Suffolk, the Earl and Countess of Derby and Lord Curzon.

At the time McCombs was prominently mentioned for ambassador to France. He announced, however, that he would return to the practice of law, giving up his post as national chairman.

Mrs. McCombs is understood to be in Washington with her parents, where a widely circulated rumor that she will remarry former Postmaster General Frank H. Hitchcock has been denied by her friends.—New York Evening Sun.

It Came Out.

"Well, I didn't think you had it in you," remarked the jocose Hick as the Sword-Swallower drew a five-foot cavalry saber from out his gullet.—Jack o' Lantern.

Creating a Flurry.

"People took a lot of interest in me at the last party mother and girls gave," said Mr. Cumrox.

"But you didn't know any of the people."

"But that's what made me so interesting. The word somehow got passed around that I was a private detective."—Washington Star.

OIL NEAR WACO, SAY LOCAL MEN IN PROSPECTING

Out about ten miles southwest of Waco in the midst of a veritable agricultural section are several spots of ground that can not be cultivated. In this same location is a well that once supplied good water but its mineral contents have destroyed its value. And in the same vicinity is a creek that winds its way for miles and in many places on its surface can be seen a thin, greasy film, showing all colors of the rainbow.

It is the above facts that have led a party of men to have faith in this part of the state being a coming oil field, one that will surpass the wells of Oklahoma, and one that will cause Central Texas to become known as one of the greatest oil-producing centers known.

For years V. Navaro, a Bohemian, has lived with his family which now includes his wife and twelve children, on the now believed-to-be oil center. It is the well on his property that was abandoned because when a bucket of water was drawn it would have a thin, greasy coating. He related to a representative of the News how he had long tilled the soil on his farm and could not help from believing his land possessed something greater than the ordinary farm as he many times had found indications of oil on the banks of the winding creek.

Spurred by the recent indications—the oil on the water, the oil in the well, and the greasy ground that prevented cultivation, H. Carlyle Miller of Oklahoma, oil man for a number of years, and several other men have organized the Peso Oil company with offices in the Praetorian building. Miller is president of the concern, F. A. Dupree, vice president, and P. A. Watson, secretary-treasurer.

One of the first steps taken by the company was to secure a lease on the Navaro farm, and adjoining land owned by Police Chief Guy McNamara, J. W. Thagard and H. C. Roher, all of which totals 1,163 acres.

There was a heavy rain less than a week ago which caused the creek to rise and washed away the signs of oil. But it took only a few days for more indications—for the same, slimy, greasy, many-colored coat to form over the water at places where the course of the creek was blocked.

"I see a greater future for Central Texas becoming an oil center than I did when Tulsa, Okla., fields were being brought in," stated Mr. Miller. "All indications of wells that will pour forth thousands of gallons of oil daily are included in territory leased by the Pesos company."

And Mr. Miller has other reasons for his fidelity in the oil prospects. A geological map of Texas as produced by the University of Texas indicates that sections in Texas where oil has been profitable come in a radius that includes Waco. The map shows that Waco is in line with these places—that the oil is in this radius.

Perusal of geological reports, maps and books give further reasons why the land now in question should under proper development prove to be a wonderful oil section.

Officers of the company intend to further explore this part of the country, to develop for Central Texas an oil territory that will be a perpetual boom.

Not a Bad Idea.

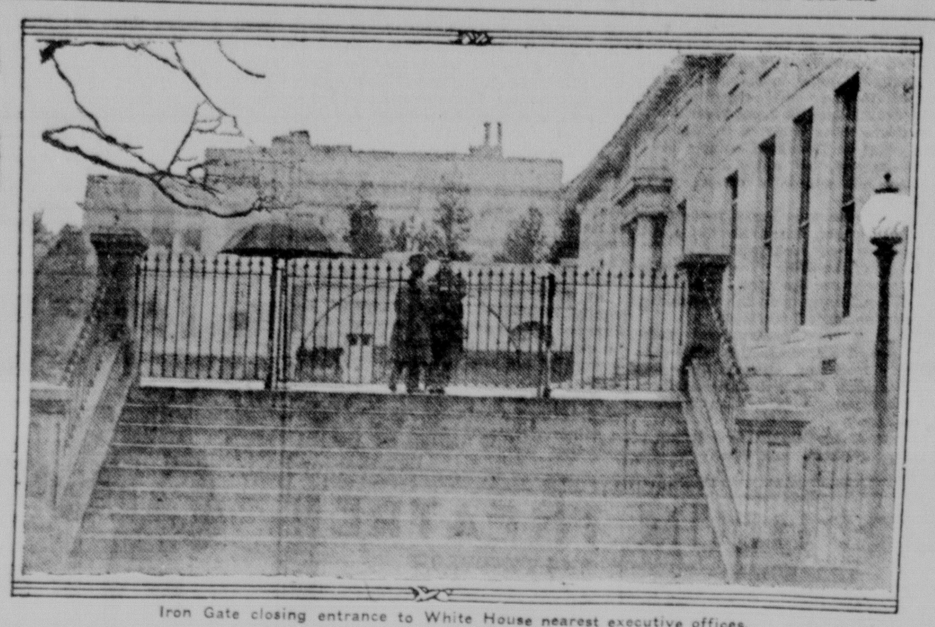

A young man went to a dentist the other day to have several teeth extracted. "I suppose I ought to take something to deaden the pain, but I'm afraid of this gas you use," said the prospective patient.

The dentist reassured him, and wound up with: "You'll only be unconscious two or three minutes at the most." The patient took out his pocketbook.

"Never mind that now," said the dentist; "you can pay me when I've finished."

"I wasn't going to pay you!" exclaimed the patient. "I was going to count my money!"—All Around Magazine.

IRON GATES NOW CLOSE THE WHITE HOUSE ON ALL SIDES

Iron Gate closing entrance to White House nearest executive offices.

The extra precautions recently made to guard the president have culminated in the completion of an iron gate which closes the entrance nearest the executive offices. There has never been a gate at this point before. Strangers have heretofore been permitted to enter the grounds at will and to enter the outer executive offices unchallenged. Now the guard at the gate must be consulted, and iron gates enclose the white house on all sides.

WHEAT GOES UP

Abnormally Active Demand for Flour Is Cause Yesterday.

(Associated Press Report.)

Chicago, April 14.—Abnormally active demand for flour did a good deal today to make wheat prices soar to a new high point—$2.25¾ for May delivery. The market closed strong at 1¾@4c net advance, with May at $2.24¼@2.25 and July at $1.51½@1.52. Corn advanced 1 to 1¼c and oats ⅝@¾c. In provisions the outcome varied from 2½c decline to a rise of 25c.

Somewhat improved crop advices from the southwest, especially Kansas, eased off July and September wheat to a material extent in the last half of the session. The better field outlook was ascribed to rains, and there were prospects of further moisture before Monday in the greater part of the winter wheat belt. Week-end adjustment of trades, however, brought about fresh advances as the market came to a finish.

Corn reached a new high level of prices as a result of wheat strength.

Oats merely duplicated the action of corn.

Provisions rose with grain.

CHICAGO TABLE.

Futures ranged as follows today:

Article.	Open.	High.	Low.	Close.

Dallas: Middling 19.45, market steady, sales 564.

COTTON SEED OIL.

(Associated Press Report.)

NEW YORK—The cotton seed oil market was firmer on covering by local operators, prompted by fears of bullish developments over Sunday and on the firmness in lard. July sold from 15.41 to 15.49 and closed at 15.48. Final prices were 16 to 20 points net higher. Sales 7900 barrels. Prime crude 13.47 to 13.60.

A BOUDOIR SET, BUT DIFFERENT.

Newest Electrical Addition to Bachelor Maid's Outfit.

Only a woman can appreciate the convenience contained within a modest brown felt bag which holds the boudoir set. And even a woman can hardly rise to the full measure of joy of possessing one unless she travels a great deal or lives in a hotel room far from the kitchen.

There is a small electric iron, weighing only three pounds, but quite capable of doing any pressing that needs to be done. A steel inverting stand holds this iron upside down when there is need for a small electric stove. The iron needs no stand, because it is supposed to sit up on end, and carries a little rack for the purpose, but the thing that looks like an iron stand is really a compact heater for curling tongs. A pair of folding curling tongs is added to complete the set, and all of these dainty, polished nickel implements fit compactly into the felt bag. The whole set weighs only three and three-quarters pounds and can easily be tucked into the corner of a suitcase or kept in a bureau drawer.

Six feet of detachable flexible connection cord allows the iron to be connected to a lamp socket, and the cost of operation at 10c a kilowatt hour is 3½c an hour when continuously connected. Price, complete, $5.—New York Tribune.

Patience—Isn't it remarkable how she keeps her age?

Patrice—Yes; she hasn't changed it in ten years.—Yonkers Statesman.

FT. WORTH LIVESTOCK

Cattle Market Steady, Hogs Quoted Higher.

(Associated Press Report.)

Sheep receipts 2000; steady; wethers $10.70@13.10, ewes $9.25@12.40, lambs $12.15@16.00.

LIGHT TO FLOOD CAPITOL DOME.

Elliott Woods, superintendent of the capitol, has taken up actively the plan to flood the dome with lights permanently. Unless some objections should be made by senators or representatives it is predicted that before many nights pass the great white dome again will be ablaze with an uninterrupted flood of electric lighting. This will make the capitol building stand out clearly in white against the black background of the sky and will become the greatest night scene in the capital.

The lighting facilities placed about the capitol hastily for the inaugural ceremonies will be rearranged if the present plans are not changed. Lighting engineers are now figuring new positions for the lamps, as well as for additional lamps, so that the entire building, dome, center and wings, will be even more brilliant by night than during the inaugural period, when the structure attracted the favorable comment of thousands of persons.

It is planned to place additional clusters of "flood lights" in dark spots in the grounds, to throw their rays upon the lower parts of the capitol; and the red granite posts on the extreme east of the plaza may now find a practical use by being utilized as pedestals for lights.

Superintendent Woods said he believed the act authorizing the lighting of the capitol grounds gives him ample authority to go ahead with the plan, but that as a matter of courtesy he would, of course, consult the vice president, the speaker and the senators and representatives who form the commission in charge of the buildings.

Unofficial expressions from members of congress have all been of most complimentary kind, and little opposition, if any, is expected. The congressional committee in charge of the inaugural ceremonies at the capitol, according to Mr. Woods, was extremely enthusiastic about the dome lighting.—Washington Star.

COTTON IS STEADY

Week-End Liquidation Has Effect Against Price, However.

By Associated Press.

New Orleans, April 14.—Week-end liquidation weighed against the price of cotton to some degree today but the market maintained a steady undertone and a disposition to recover from depression. In the early trading there was a rise of 2 to 8 points after which the market fell off to a level 8 to 14 points below yesterday's low quotations. Late in the session there was a net advance of a point or two and last prices were at a net decline of 2 to 4 points.

Weather conditions about balanced, light rains in the eastern belt being considered unfavorable, but hopes of rain for Texas over Sunday were aroused by the forecast of cloudy weather for that state.

NEW YORK COTTON.

New York.—The cotton market was comparatively quiet today and fluctuations were irregular but rallies followed an early decline with the close steady, net unchanged to 5 points higher. July contracts sold up from 19.89 to 20.12 and closed at 20.05.

The market opened steady at an advance of 4 points on May, but 15 points lower on July and 5 to 7 points lower on later deliveries. Spot house brokers were sellers of July and some of the selling of that position was attributed to Atlantic state sources. This pressure served to unsettle the market and after some irregularity, active months sold about 9 to 15 points under last night's close with May touching 20.29 and October 18.82. Offerings were not particularly heavy, however, and the market later rallied on covering for over the week-end, continued complaints of droughty conditions in the southwest and rumors of an easier ocean freight situation. May was relatively firm, selling up to 20.50, or 12 points net higher, while October advanced to 18.97 or only two points above last night's close. Last prices were a shade off from the best under realizing. Better weather was reported east of the river, which contributed to the early selling movement but no rain was reported in the southwest and the forecast for cloudy or unsettled conditions in that section tomorrow carried little promise of relief from drouth.

SOCIETY WOMEN TO ENLIST.
In Chicago Fifty Will Be Military Auto Drivers.

Every bureau or department in the city organized to help in the national preparedness scheme, took on new life following the call for a war congress April 2.

Not only did the recruiting stations of the three branches of regular service—the army, navy and marines—increase their pleas for applicants for service, but the auxiliary institutions renewed their activities for enlistment.

More than fifty women, many of them society leaders, have enrolled in the branch of motor car drivers who expect to do ambulance work so that chauffeurs can be released for duty at the front.

In the high schools the organization of military training units is being rushed by Captain Steger, in charge of the work of the United States army, and it is announced that four companies, numbering 188 members, have been formed of the Carl Schurz high school.

One hundred uniformed girl cadets paraded through the loop with a larger number of high school boys in military formation. The girls and boys are students at the Deerfield-Shields High School at Highland Park, where military training for both sexes has been conducted for two years.—Chicago Post.

Who They Are.

Jones—And who are the O'Briens' ancestors?

O'Brien—What's that?

Jones—I mean, whom do the O'Briens spring from?

O'Brien—The O'Briens spring from no one; they spring at them.—Dallas News.

Marriage a la Mode.

They flirted where the lights were gay
Across a bill of fare.
They courted in a cabaret
And married on a dare.

Of course we wish them lots of bliss,
But may as well confess
We wonder if a start like this
Makes marriage a success?
—Kansas City Journal.

Unpopular.

"He seems to be very unpopular."

"Stranger you've hit it. He's about as well liked around here as a pacifist in a patriotic meeting."

LOUISIANA TO DEBATE BAYLOR NEXT TUESDAY

Other News of University. Noted Art Lecturer Is Coming to Waco.

Representing Louisiana State university, a debating team from there will meet a like team from Baylor Tuesday evening in Carroll chapel at 8 o'clock to discuss the subject of the federal government ownership and operation of railroads. The Baylor men will take the side of the negative in the discussion.

Baylor will be represented by R. H. Brister and P. M. Curry, and Louisiana State will be represented by Francis Gehring and Cecil Morgan.

Both of the men representing Baylor are well known in local forensic contests and have been active in the debating work of the university during their residence here. They have both made enviable records here. Mr. Curry, a member of the Erisophian Literary society, has won good places in the contests held at Baylor and in the junior college before entering Baylor. Mr. Brister coming here from Howard Payne college where he was prominent in literary activities of that college.

Baylor won over Louisiana State in the contest last year, representatives from here being E. D. Guthrie and G. J. Rousseau. The contest here Tuesday night will be one of the hottest contests put on here this year by the university.

Francis Gehring, from Louisiana State, was on the team of that school in the contest last year and is one of the strongest men of that university. He is winner of the Louisiana State peace contest in 1915 and is a member of the senior class this year. His colleague, Cecil Morgan, is a one-year law and one-year fine arts man of the university. Both of these men have had prominent places in that school in debating contests.

Judges for the contest for Monday night have been chosen from prominent professors over the state and are A. S. Pegues, professor of political science of Southwestern; A. W. Birdwell, San Marcos normal, and Prof. B. B. Cobb, superintendent of Waco schools.

Art Lecture.

Waco art patrons will be given a rare treat in the lecture tomorrow night in Carroll chapel of Baylor university by J. B. Stoughton Holborn of Oxford university. Professor Holborn is one of the most noted lecturers on art and literature on the stage today and Waco and Baylor are indeed fortunate in having the opportunity of hearing the professor.

Professor Holborn is staff lecturer on art, archaeology and literature for the Oxford, Cambridge and London university extension staff and has made several appreciated lecture tours over the continent of Europe. He is one of the greatest art lecturers in the world, as will as being one of the best educational lecturers on the stage. He has made three tours of America, lecturing before Yale, University of Illinois, California and several other art centers.

Professor Holborn will deliver a lecture here on "The Need of Art in Daily Life" and will show that the one great evil of the present day is the lack of the proper love and appreciation of art and beauty. He will discuss this lack from the standpoint of the intellectual, artistic and moral sides of life, and the effect on the character of the man.

Professor Holborn is also the author of "Architecture of European Religion," "Tintoretta," "The Need of Art in Daily Life" and "Children of Fancy," the latter being a volume of poems.

Increase Military Team.

The Baylor military team has increased during the past week until now over 100 men are out for drill every morning at the drill hour, between 6 and 7 o'clock, and several additions have been made in the number of men out for the afternoon drill. The men are all showing an increasing enthusiasm in the drills and developing into a well drilled company of soldiers. The drills during the morning period are developing the men to working in company formations from the squad drills which have been practiced during the past week. Saturday morning the men made the first of Saturday morning hikes, the men in charge of the company taking them out to Cameron park and back to the university. This will be one of the regular features of the drill every week.

Leave for Dallas.

The Baylor debating team, represented by W. E. James and F. B. Thorn, leave tonight for Dallas, where they will meet the team representing Southern Methodist university. The question of the contest to be debated will be the government ownership of railroads, the Baylor men representing the negative side.

The two men from Baylor are well known locally through their participation in the Connally debate held recently at Baylor and go to Dallas with the intention of bringing home the prize. They won third and fourth places in the Connally debate.

Notes of Baylor.

John de Heck, professor of voice at Baylor, will conduct a class in voice in Cleveland, Ohio, during the summer months.

* * *

Reciprocity between the United States and Canada has been selected as the subject for the Fresh-Soph class of Baylor university debate which will be held in Carroll chapel May 19.

C. E. Lackey and J. H. Guthrie have been chosen as the representatives of the freshmen, while George Isbell and T. R. Clements will champion the sophomore class.

* * *

Members of the junior class of Baylor were given an annual picnic at Day's lake lasting all day yesterday. The picnickers left on the 10 o'clock interurban and returned late yesterday afternoon. The luncheon was prepared by the cafeteria of Baylor.

* * *

The big gate at the entrance of Carroll athletic field, given to the university by the members of the senior class, is nearing completion. The pillars for the gate have already been formed and the gate will be in shape within the next few days.

* * *

The postponed annual convention of the Texas Interscholastic Prohibition association will be held at Carroll chapel April 23 to 27. The convention was to have been held at the university during the past week, but was postponed until a later date. Among the principal speakers who have been secured for the meeting are Richmond P. Hobson, Mrs. Nannie Webb Curtis, president of the State W. C. T. U.; Dr. A. J. Barton and others.

Waco Astonished by Merchant's Story

A merchant relates the following: "For years I could not sleep without turning every hour. Whatever I ate caused gas and sourness. Also had stomach catarrh. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Adler-i-ka relieved me INSTANTLY." Because Adler-i-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. Powers-Kelly Drug Company.

Wacoans Will Attend Meeting at Houston

Mr. and Mrs. John W. Tabor, Mr. and Mrs. C. A. Sherman, W. H. Torian and others will go to Houston tonight and tomorrow to attend the annual meeting of the Texas Harware Jobbers' association and the Southern Hardware Jobbers' association. The Texas jobbers will meet Monday and the Southern jobbers on Tuesday. The membership is affiliated and Waco representatives will remain for both meetings. The gatherings will be in session until Friday.

Have you used Kleen-O?—Adv.

Margaret Wilson Asked to Pay Waco a Visit

Miss Margaret Wilson, daughter of President Woodrow Wilson, has been invited by President W. W. Seley of the Waco Red Cross to come to Waco and sing as a benefit for the Red Cross here.

Also President Seley telegraphed other Red Cross organizations in Texas, asking them to wire Miss Wilson, so that a Texas circuit might be arranged. No reply has yet been received, as the telegram had to be forwarded from the first address.
